

UCSDMC Hillcrest Main O.R.s HVAC Upgrade

- Air handling systems serving several operating rooms at Medical Center Hillcrest are reaching the end of their useful life. Continued use would result in increasing costs related to repair and eventual system failure, which would cause disruption to patient care.
- Project would replace and upgrade existing air handling systems, providing safe and code-compliant conditions for the affected operating rooms and allowing patient care to continue uninterrupted. Scope also includes provision of upgraded lighting within the operating rooms to provide an improved operating environment.

**Budget Approval**

Budget Year 2013-14

**Summary of Budget by Fund Type**

<u>Funding Source</u>	<u>Amount</u>
Hospital Reserves	\$11,500,000
<b>Total Budget</b>	<b>\$11,500,000</b>
