

Riverside Highlander Hall Replacement Facilities

Fiscal Year: 2015-16

Project Description

- Replace the existing Highlander Hall with a new administration services building for non-academic departments, units that have limited student contact, and University Extension (UNEX). Envision the site will be developed in phases to meet the evolving needs of the Riverside Campus, and may contain first floor retail space. The new facility will be at the same location, and demolition of the present buildings will be completed via a separate project.
- Furnishes space to place administrative services functions currently located in core East Campus space in a central location which will increase opportunities for staff collaborations. East Campus released space will be reassigned to support the instructional and research programs.
- Extend the capability of UCR Extension to offer continuing education programs and professional study opportunities to the Inland Empire and international students.
- Project to be completed through privatized development.
