

Los Angeles Anderson School of Management Expansion

Fiscal Year: 2015-16

Project Description

- Constructs a 60,000 gsf addition to the 305,000 gsf Anderson School of Management complex built in 1995.
- The addition would accommodate new learning spaces, including classrooms, group study and meeting rooms, and event spaces that do not fit in the existing facility.
- The project budget has been amended to reflect a better understanding of program priorities and site constraints since the 2014-24 CFP, and the receipt of a \$100 million gift to the Anderson School that includes \$40 million to support the proposed expansion.

Project Scope Summary

ASF	TBD
GSF	60,000

Summary of Budget by Fund Type

Gift Funds	\$	70,000,000
