### Completion Instructions:

1. Notes, suggested text, instructions and other information is formatted using the following methods:
  - Hidden text within brackets. {This is an example of the format.} Read the material within the brackets and take the appropriate action (usually inserting text or selecting from a choice of texts.) When printing this document, the default print property will not print the hidden text.
  - Coded instruction within brackets. {This is an example of the format.} The instructions and shading will disappear when the required information is typed.
  - Suggested text is shaded in gray without brackets (see Modification and Additions below.)

### Modifications and Additions:

1. Areas shaded in gray, without brackets, represent suggested text that may be modified by the Facility to meet the needs of the Project. This is an example of the format. Ensure that any modified or added text is consistent with the Contract Documents.
2. Areas not highlighted in gray, without brackets, shall not be altered without approval of the Office of the President.

### Comments:

Facility needs to coordinate with appropriate departments to clearly identify which utilities the Design Builder may connect to; and identify any additional utility capacity that will be required as part of the Work.

**EXHIBIT -**

**PROJECT UTILITIES RESOURCES**

{This exhibit will need to be coordinated with the Facility utilities department. It will outline in detail what is available to the Design Builder and the requirements of use and access. It should also address any additional capacity that the Facility's utility department may require.}

1.1 ACCESS TO AVAILABLE UTILITIES

1.1.1 {Identify any specific project requirements as to the limits on the availability of Facility utilities and Design Builder's use and access to Facility utility resources.}

1.2 IDENTIFY ALL REQUIRED EXCESS CAPACITY

1.2.1. {Identify any required additional capacity for each specific utility lines/services that will be required as part of the requirements of this Project.}
