The ACE Group of Companies is one of the world’s leading global provider of property and casualty insurance, accident and health insurance and financial services with:

- $72.1 billion in total assets
- $19.2 billion gross written premium
- $14.4 billion shareholders’ equity
- $ 4.1 billion operating cash flow
- Combined Ratio of 89.6%

Guided by our strong underwriting expertise, we take on the responsibility of risk so that our clients can take on the responsibility of making things happen.
About ACE

Evolution of ACE

**Early Days (1985)**
- Started in 1985
- 2 Products (D&O & Excess Liability)
- Disciplined Underwriting & Narrow Focus
- Limited Distribution & Customer Base

- IPO on NYSE
- Expansion into New Product Lines
- Opened London Office

**Acquisitions (1996-1999)**
- Lloyd's Agencies
- Westchester Specialty
- Tempest Re and CAT Limited
- Capital Re
- CIGNA Property & Casualty:
  - U.S. footprint
  - Global Network
  - Core Businesses: ARM and ESIS

**Continued Product Expansion (2001)**
- Growth of core and specialty product offerings

**Regional Expansion (2002-2006)**
- ACE USA: Established 9 Regional & 9 Branch offices
- Regional Executives & Branch Managers
- 700 regional staff, underwriting, claims, marketing
- Today: 8 Divisions and 170+ product offerings

**ACE Today (2008)**
- Diverse Product Set
- Multi-Regional
- Global Distribution
- Customer Segmentation:
  - Multinational Corporations
  - Domestic Corporations
  - Small Businesses
- Acquisitions
  - Combined
  - Atlantic Mutual
Established in 1985, now operating in over 140 countries with offices in over 50 countries around the world.

ACE’s global leadership goes beyond insurance...
- Philanthropy
- Environment
- Ethical Leadership
- Community Service

Demonstrating our values – Integrity, Client Focus, Respect, Excellence and Teamwork – we deliver superior client and shareholder value.

The ACE Advantage

Global Protection

- The ACE global network can satisfy the insurance needs of companies operating worldwide.

Financial Strength

- Consistently high ratings from A.M. Best and Standard & Poor’s reflect our financial strength and our ability to meet our obligations to our customers.

Innovation

- Our entrepreneurial business philosophy and expert industry knowledge allow us to remain flexible in finding the right solution.

Superior Solutions

- We are dedicated, solution-oriented professionals able to provide quick responses and expert handling to customer needs.
Who’s eligible for coverage under the Business Travel Plan?

- All employees, administration, traveling companions & professors emeritus.
- While traveling on business for UC.
- Commutation coverage only applies to Regents and Regents Designates.
- Coverage begins at the start of the trip and ends upon return to home or work. Includes personal deviations.
What’s covered?

- **Accident Benefits** - AD&D, paralysis, permanent total disability and other related indemnity benefits.

- **Out of Country Medical Benefits** including emergency medical and trip-related benefits:
  - Medical Expense
  - Emergency Medical Guarantees
  - Emergency Medical Evacuation
  - Security Evacuation Benefits for Political Evacuation & Natural Disasters
  - Repatriation of Remains
  - Emergency Reunion
  - Emergency Hotel Convalescence
  - Trip Cancellation
  - Lost Baggage
  - Personal Property
  - Trip Delay
Who’s eligible for coverage?

- All students and travelling companions and non-student members of registered campus/ students organizations (see class definitions).
- While on or off campus and attending or participating in a University sponsored activity.
- Coverage begins at the start of the trip and ends upon return to home or work. It includes personal deviations up to 3 days.
What’s covered?

- **Accident Benefits** - AD&D, paralysis and other related indemnity benefits.

- **Accident Medical Benefits (for domestic travelers)** and **Out of Country Medical Benefits** including emergency medical and trip-related benefits:
  - Medical Expense
  - Emergency Medical Guarantees
  - Emergency Medical Evacuation
  - Security Evacuation Benefits for Political Evacuation & Natural Disasters
  - Repatriation of Remains
  - Emergency Reunion
  - Emergency Hotel Convalescence
  - Trip Cancellation
  - Lost Baggage
  - Personal Property
  - Trip Delay
Provides similar benefits for…

- All registered students, counselors and resident directors participating in EAP Study Programs

- While traveling outside of Home Country or Country of Residence for up to 365 days and participating in a UC study program; or traveling within his or her Home Country if participating in EAP.

- Coverage begins 14 days prior to the scheduled start date of the program and ends 31 days after the program ends or participation in the program ends, whichever occurs first.
Service Overview

Core Service Offering

- **Medical Assistance** including referral to a doctor or medical specialist, medical monitoring when you are hospitalized, emergency medical evacuation to an adequate facility, medically necessary repatriation and return of mortal remains.

- **Travel Assistance** including emergency travel arrangements, arrangements for the return of your traveling companion or dependents and vehicle return.

- **Security Assistance** including a crisis hotline and on the ground security assistance to help address safety concerns or to secure immediate assistance while traveling as well as access to a secure, web-based system for tracking global threats and health or location based risk intelligence.

- **Personal Assistance** including pre-trip medical referral information and while you are on a trip: emergency medication, embassy and consular information, lost document assistance, emergency message transmission, emergency cash advance, emergency referral to a lawyer, translator or interpreter access, medical benefits verification and medical claims assistance.
Service Overview

Customized UC Offering

- iJET website portal & travel management system
- Dedicated 800# with UC specific protocols
- Custom communication tools
- Extended service process for non-insured services
- Expanded reporting capability
- General inquiry capability
*Note EAP inception date: 6/09
Business Travel Cases Profile

The chart below shows the number of security evacuations (Sec Evac), medical evacuations (Med Evac), medical inquiries (Medical), and inquiries (Inquiry) for the years 2008 to 2010.

- **2008**:
  - Sec Evac: 0
  - Med Evac: 3
  - Medical: 18
  - Inquiry: 4

- **2009**:
  - Sec Evac: 1
  - Med Evac: 5
  - Medical: 48
  - Inquiry: 23

- **2010**:
  - Sec Evac: 0
  - Med Evac: 7
  - Medical: 53
  - Inquiry: 26

ACE USA
Sponsored Activities Case Profile

The graph shows the number of cases for different categories over the years 2008 to 2010.

- **2008**
  - Sec Evac: 1
  - Med Evac: 1
  - Medical: 36
  - Inquiry: 18

- **2009**
  - Sec Evac: 0
  - Med Evac: 3
  - Medical: 57
  - Inquiry: 11

- **2010**
  - Sec Evac: 0
  - Med Evac: 5
  - Medical: 67
  - Inquiry: 18
Integrated Claims Service – Emergency Response

Notification

Covered Person/Program Director/Risk Manager
Contacts Europ Assistance who will provide contracted services.

EA Notifies ACE Claims of a potential claim.

Coordination

Europ Assistance responsible for direct payment of services.

Europ Assistance invoices ACE Claims directly for reimbursement.

Submission

ACE USA Claims reviews invoices submitted in accordance with policy provisions.

Review

ACE USA Claims issues check to Europ Assistance directly for the costs incurred. Charges not covered under ACE policy will be charged back to the policyholder.

Settlement

During the escalation of violence in Bangkok the UC contacted iJET concerned about 25 exchange students studying in the city.

iJET advised UC’s security team about various options for ensuring the safety of the students.

Because the airports were closed or under siege, iJET advised the students could be evacuated by road to a number of safe airports where they could be evacuated from the country; or

The students could be kept in the city, and if necessary be provided with security escorts and advice on staying safe and secure.

iJet identified potential evacuation services, but UC decided not to evacuate. iJET worked with the students to ensure their continued safety.

6/30/09—Hampiland Clinic in Peru contacted EA because a student was admitted for altitude sickness and possibly water in the lungs.

EA USA’s Medical Team spoke with the treating physician in Peru to obtain medical information: The student had a 3 day history of chest pain and shortness of breath. He was diagnosed with high altitude sickness, mild acute pulmonary edema, and probable pulmonary thromboembolism.

The student was improving and scheduled for discharge the next day.

7/1/10—Student discharged as planned.

7/2/10—The clinic contacted EA to advise that the student had been readmitted, this time for Salmonella poisoning.

EA provided a Guarantee of Payment for both clinic visits

7/3/10—Student was discharged.

Given the patient’s multiple health issues over the last few days, EA called the patient to see if he was comfortable continuing his trip or if he would prefer to return to the U.S. He said he planned to rest for a few days but continue the trip, and his tour leaders supported that. No further assistance was needed.

Medical expenses paid for and case closed.
Emergency Assistance (Non-Medical)

Case Example: Earthquake in Chile

- 3/1/10—Risk Manager called EA because a fellow staff member was in a boat off the coast of Chile, and would need assistance leaving the country since transportation was intermittent and unstable after the earthquake.
- EA immediately made contact with the staff member, who was scheduled to arrive in Arica, Chile on 3/3, and wanted to fly out on 3/4 if possible.
- 3/2/10—EA activated their travel agent to book an itinerary.
- EA activated iJET to open a file as a preventative measure, just in case the security situation worsened and the staff member would need security evacuation assistance.
- The staff member was provided several flight options, and opted for a plane leaving Tacna, Peru (1 hour taxi ride from Arica) on 3/4.
- EA USA booked the ticket, and Europ Assistance Chile booked a hotel in Arica for the night of 3/3. Both expenses were paid for up front.
- 3/3/10—staff member and other University of California staff updated on all arrangements
- 3/4/10—Attempt to contact the member, and left a voicemail asking for confirmation of safe arrival
- 3/5/10—EA reached the member and she confirmed all went well and no further assistance was needed.
Emergency Medical Transport

January 2011
Emergency Medical Transport: Medical Evacuation or Repatriation

- **Standard definition:** “If, in the event of a Medical Emergency and upon request of a Doctor designated by EA USA in consultation with a local attending Doctor, transportation under medical supervision to a different hospital or treatment facility or repatriation to the Eligible Customer's place of residence for further treatment is determined to be Medically Necessary, EA USA will arrange and pay for the medical evacuation or repatriation. As part of a medical evacuation, EA USA will also make all necessary arrangements for ground transportation to and from the hospital, as well as pre-admission arrangements, where possible, at the receiving hospital.

  All medical decisions (such as the medical need for evacuation, medical equipment and the medical personnel to be used) and the final destination will be made by EA USA’s designated doctors based on available medical information and based on medical factors. Their decisions shall be conclusive in determining the need for such services.”
Emergency Medical Transport: Resources

- Internal Logistics Team;
- Medical team;
- Escorts (medical, non-medical);
- Local agents involvement;
- Air Ambulance providers coordination;
- Ground transportation coordination;
- Hospital admission coordination
- Complex chain of communication
Medical evacuation or repatriation cases are managed by our **Logistics Team** and supported by our 24/7 in-house Medical Team.

**Logistics Team:**
- Responsible for Policy Verification;
- Air Ambulance coordination;
- Commercial Transport Coordination (Escort Request; Medical Clearance; O2 Clearance; Flight Schedule)
- Ground transportation Coordination
- Hotel Arrangements
- Transport Cost Estimate, Case Summary for Claims
- Clients’ Updates
- Supplier management (Ticketing, 3AT, ground, bed search etc.)
- Also serves as non-medical escorts
Medical evacuation or repatriation cases are managed by our Logistics Team and supported by our 24/7 in-house Medical Team.

The Medical Team:

- Assesses quality of care where the patient has been admitted
- Obtains medical information on the patient’s condition
- Makes travel recommendations
- Also serves as medical escorts
Medical Transport Case Flow

- Customer calls hotline
- Notification from employer, patient, insurer, hospital, etc.

- EA USA gathers contact info from patient and doctor on nature of problem
- EA USA facilitates medical contact

- EA USA medical staff speaks to treating MD and develops a medical recommendation
Later in the case, EA will:
- Make travel arrangements
- Obtain airline clearances, oxygen, ground ambulance, etc.
Medical Contact Objectives

• Review information in file
• Establish contact with treating MD (may require translator)
• Determine adequacy of care
• Determine short and long-term needs of patient
• Determine stability for travel if applicable
• Make travel recommendation
Once medical contact has been established with patient and treating MD:

- Does the patient need to, or want to, return home or travel for further treatment/care?
- Is the patient stable for transport?
- What is best mode for transport?
- What type of escort is required?
- Where will the patient be transported to?
### Travel Considerations

<table>
<thead>
<tr>
<th>Evacuate</th>
<th>Repatriate</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Adequate local care not available</td>
<td>• Long-term care</td>
</tr>
<tr>
<td>• Cultural concerns</td>
<td>• Required intervention necessitates long recovery</td>
</tr>
</tbody>
</table>

### Considerations

- Will condition worsen en route?
- Has condition been fully evaluated to extent of local capabilities?
- Any factors potentially affected by hypoxic, low-pressure environment of commercial airline?
- What are patient needs during transport?

### Mode of Transport Options

- Commercial air without medical escort
- Commercial air with medical escort
- Air ambulance
<table>
<thead>
<tr>
<th>Transport Mode Considerations</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Commercial Flight Considerations</strong></td>
</tr>
<tr>
<td>• Hypoxia – if arterial PO2 at altitude is &gt; 55mm Hg with saturation &gt; 85-90%, patient should tolerate air travel reasonably well</td>
</tr>
<tr>
<td>• Dry air, expansion of gases</td>
</tr>
<tr>
<td>• Time zones and medication timing</td>
</tr>
<tr>
<td>• No access to outside assistance</td>
</tr>
<tr>
<td>• Dietary requirements</td>
</tr>
<tr>
<td>• Privacy issues</td>
</tr>
<tr>
<td>• Lack of written policy among most airlines</td>
</tr>
<tr>
<td>• Comfort of other passengers</td>
</tr>
<tr>
<td>• Non-stop for longer flights</td>
</tr>
<tr>
<td>• More space for patient and family</td>
</tr>
<tr>
<td>• Limited to scheduled flights</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Air Ambulance Considerations</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>• Good when quick response is required and commercial flights are limited</td>
</tr>
<tr>
<td>• Fixed wing or longer distances</td>
</tr>
<tr>
<td>• ICU-level care possible</td>
</tr>
<tr>
<td>• May have access to countries with limited commercial flights and airspace restrictions</td>
</tr>
<tr>
<td>• Multiple stops and cost for long distances</td>
</tr>
<tr>
<td>• Limited space for luggage and family</td>
</tr>
<tr>
<td>• Variable quality</td>
</tr>
</tbody>
</table>
3AT: Enabling Smart Response

- Proprietary web-based Air Ambulance Auction Tool (3AT)
  - Allows for multiple air ambulance teams to be notified simultaneously
  - First-of-its-kind tool no other international medical assistance company has

**Company Benefits**
- Instant quotations
- Flexible options
- Cost containment

**Employee Benefits**
- Speedy intervention
- Peace of mind during unpredictable situation
- Comfort and care
Logistics team:

Logistics team: Escorted Commercial Transport Steps 2

- Travelling Companion Name / DOB
- Passport # s /Expiration Date
- Family Doctor
- Receiving Facility
- Visa Issues
- Transport Monitoring
- Safe Arrival Confirmation
- Client Update
1. Patient injured on worksite in Iraq
2. Using 3AT tool, identify an air ambulance from Turkey that picks patient up in Iraq and takes him to Europe for treatment
3. European destination based on several factors:
   a) Patient needs special procedure that is done best at a facility in Germany OR
   b) After procedure, patient needs to return home in a fully-reclinable first-class seat and one can only be secured from London so patient is taken to London
4. After treatment, patient returns home to Phoenix for further care and recuperation. Add'l factors determine route and means home:
   a) Fully-reclinable first-class seat from Paris only flies to Dallas so patient is sent there with air ambulance flight from Dallas to Phoenix OR
   b) Fully-reclinable first-class seat flies from London direct to Phoenix where patient is admitted to his local hospital
Process Walk-thru
Non-Emergency Assistance

1. **Incoming Call Direct to EA**
2. **Question (Not Live Situation) Refer to Client Service Supervisor**
   - Identify / Qualify Caller
   - **Respond or refer to client service supervisor for instruction?**
     - **Refer**
     - **Determine appropriate response**
   - **Record Response**
     - **Need to revise protocols?**
     - **Yes**
       - **Make necessary changes**
     - **No**
       - **End**
   - **Communicate Changes**
Non-Emergency Assistance
Case Example

- UCA employee calls EA to open case, explains that student will be traveling in a few months and will need a medication infusion every 2 weeks.

- EA reached out to ACI and ACE for coverage, high cost of treatment and student was not yet on his trip

- EA USA facilitated communication between the U.S. pharmaceutical company and the Italian provider.

- Payment and shipment of 66 vials of medication.

- Student received his first injection, and EA’s case is still open to monitor his bi-monthly visits.

- Student contacted EA to see if her brand of birth control is available/legal in Denmark.
- EA USA activated EA Denmark for assistance. EA Denmark responded within 45 minutes with an answer.
- EA USA called the student to inform her that the medication was available.
“Insurance offers a financial guarantee. Assistance offers a human guarantee”

– Martin Vial, CEO of the Europ Assistance Group
Europ Assistance USA (EA) is the United States branch of Europ Assistance.

Europ Assistance was founded in 1963 by Pierre Desnos, who conceived the idea following the misfortunes of two friends who had been victims of an accident abroad.

The company offered a new type of service: not a reimbursement or the promise of indemnity, but immediate assistance adapted to meet the needs of people in every conceivable difficulty.
