Hospital Seismic Upgrade Stair Tower & Exit Corridor Upgrades (UCDMC)

Provides upgrades to the East Wing of the hospital that are required prior to the demolition of the North / South Wing

- Includes construction of a new eight story exit stairwell, an upgrade of exit corridors, and restrooms
- Provides for rerouting of plumbing and mechanical lines, necessary as a result of eventual demolition of the North/South Wing as these lines are needed to serve the East Wing; also constructs a sump pump room and installs a sump pump for water removal in the basement.
- Project associated with the larger effort of Hospital Seismic Upgrade that are all tied to the hospital's overall seismic compliance plan; Phase 1 has been approved, (Elevator Upgrades) and (Fire & Life/Safety Upgrades), projects that are under Chancellor approval and are planned for FY13-14

Budget Approval

Budget Year 2013-14

Summary of Budget by Fund Type

<u>Funding Source</u>	<u>Amount</u>
