

UNEX Building Seismic Correction

- Upgrades to the University Extension Building from a seismic rating of DGS Level V (formerly, “Poor”) to DGS Level III (formerly, “Good.”)
- Strengthens the lateral-force-resisting system of the building and addresses fire, life-safety, and accessibility deficiencies.
- Provides potential to relocate the UNEX program and upgrade building for an alternative use. The building is located in the Campus Bridge Zone, between the Southwest campus and the Health Sciences Zone.
- Part of the campus’s Seismic Safety Program.
