

Davis **Hospital Seismic Elevator Upgrade**

Fiscal Year: 2014-15

Project Description

- Due to the upcoming loss of three critical elevator bays located in the North/South Wing, there will be increased usage of the elevator systems within the East Wing and University Tower.
- In addition to the future increase in use, it is necessary to improve the current elevator systems in the University Tower and East Wing as many of the elevator components are beyond their rated lifecycle.
- Component upgrades will also improve the overall efficiency of the elevators, helping to lower the maintenance and energy burden of these outmoded systems.

Project Scope Summary

ASF	TBD
GSF	TBD

Summary of Budget by Fund Type

Hospital Reserves	\$	6,500,000
GO Bonds	\$	-
Gift Funds	\$	-
Campus Funds	\$	-
Total Budget	\$	6,500,000
