

Irvine Primary Electrical Improvements Step 4**FY of Approval:** 2014-15**Project Description**

- Corrects existing electrical-system deficiencies and addresses infrastructure needs resulting from significant campus development over the last two decades.
- Increases the efficiency and improves the reliability and safety of the campus's electrical distribution system.
- Reconfigures the University Substation and installs a new electrical transformer; constructs a new electrical South Substation and multiple switchgear stations throughout the distribution system.
- Replaces the electrical system's last remaining hazardous oil switches as well as sections of failing lead-jacketed cable.
- Supports campus goal to upgrade and expand infrastructure to support current and planned development.
