

**Davis Pavilion 1st Floor 3T MRI Installation (Sacramento Campus)**

**Fiscal Year 2015-16**

**Project Description**

- Renovates space to make way for a replacement state of the art 3 Tesla (3T) MRI suite which will improve image quality and detail for healthcare providers. Current suite is in the seismically-deficient N/S Wing.
- Supports new machines, whose scan times are also less lengthy leading to quicker MRIs. Larger bore will mitigate issues coming from claustrophobic patients or larger patients.
- Replaces old machine, which is outmoded and will not longer be supported by the vendor.
