

Santa Cruz Circulation and Infrastructure Extensions Phase 1

976240

Fiscal Year: 2016-17

Project Description

- Creates an extension of Chinguapin Road circulation and utilities infrastructure to support the construction of the proposed Social Sciences 3 Building.
- Provides site development elements such as earthwork, vehicular and pedestrian circulation, underground utilities, site lighting, storm drainage system improvements, and emergency access.
- Located in the east Chinguapin area of the main campus, adjoining McLaughlin Drive, the main campus circulation artery.
- Supports campus CFP objectives for Instruction and Research Program Development and Improvements to Core Infrastructure.
- Assumes future phases of circulation and infrastructure extensions may include Empire Grade connection, Heller Drive extension, Meyer drive extension, and/or Hagar/Coolidge connection.
- Campus will fund preliminary plans in 2016-17. Proposed for State funding of working drawings and construction phases in 2017-18.
