

UC Campus eProcurement Systems

uBuy (powered by Jaggaer)

This is a multi-tenant Jaggaer platform that can support several campuses, normalizing data and processes where possible, while allowing each campus flexibility to keep their own branding and meet their own needs. All shopping, approving and invoice processing is performed in the eProcurement system. uBuy also serves as the consortium platform, where all systemwide catalogs are loaded and transferred automatically to the other Jaggaer campuses that subscribe to the contracts.

| Campus | Site Name |
|------------------|------------|
| UC Davis | AggieBuy |
| UC Merced | Bobcat Buy |

Full-Suite (powered by Jaggaer)

This is a one-stop marketplace for all goods and services utilizing Jaggaer technology. All shopping, approving and invoice processing is performed in the eProcurement system. Each campus maintains their own platform.

| Campus | Site Name |
|-------------------------|-------------|
| UC Berkeley | BearBuy |
| UC San Diego | Marketplace |
| UC San Francisco | BearBuy |
| UC Santa Barbara | Gateway |
| UC Santa Cruz | CruzBuy |

Sandwich Model (powered by Jaggaer)

Shopping for hosted catalog and punchout occurs within the Jaggaer eProcurement system. Complex goods and services, as well as all approvals and invoice processing is performed in the ERP. Each campus maintains their own platform.

| Campus | Site Name |
|---------------------|-----------|
| UC Irvine | UCIBuy |
| UC Riverside | eCatalog |

Perfect Commerce

Shopping for hosted catalog, punchout, and special request orders utilizing Perfect Commerce technology hosted by UCLA.

| Campus | Site Name |
|-----------------------------------|-----------|
| UC Los Angeles | BruinBuy |
| UC Office of the President | BruinBuy |
