

Slip-Resistant Lost or Stolen Footwear

Overview

This document provides guidance to employees in the event of lost or stolen footwear.

Replacement Policies

Unfortunately, the Slip-Resistant Footwear Program does not cover the cost of replacing lost or stolen footwear. If SR Max or Shoes for Crews agrees to replace the stolen shoes at no cost, they can do so. Authorized Purchasers can contact these suppliers directly to make that request. If they cannot replace them, then the following options are available below:

Options for Replacing Footwear

Option 1 – Overshoes

Overshoes MUST be issued to any enrolled employee lacking slip-resistant footwear for any reason. Authorized Purchasers can order and provide overshoes to an employee with missing shoes until they become eligible to order again through the program.

Option 2 – Department Replacement

The department may choose to fund a replacement by purchasing new footwear using the supplier credit card sites below.

Option 3 – Employee Replacement

The employee may choose to pay out-of-pocket for new footwear using the supplier credit card sites below.

Supplier Credit Card Sites

The sites below have the same negotiated pricing as the Slip-Resistant Footwear Program.
