Cold Storage Outsole Technology

Slip Resistant

DryKick® Splash Protection

Security Friendly Construction

WARNING: This product is only part of an overall safety program. No shoe can protect you from injury in all situations. All safety shoes are used in environments where hazards exist beyond the scope of protection a safety shoe can offer. SLIP RESISTANT SHOES ARE NOT "Slip Proof". Environmental factors including but not limited to oils, water, dust, flour, ice, objects on the floor, or other hazards can reduce the effectiveness of slip resistant footwear. Also, cold environments including freezers and coolers will significantly limit the effectiveness of slip resistant footwear. It is possible for you to slip, fall, and/or be injured while wearing/using personal protective equipment including slip resistant shoes or ASTM rated safety shoes. You should always take precaution and consider the environmental hazards around you when wearing your protective footwear. All products are sold subject only to the warranties given by the manufacturer. If the product is marked as meeting an ANSI or ASTM standard, then the product carries a manufacturer's warranty. Saf-Card Safety Shoe Company/SR Max Slip Resistant Shoes provides no express warranty and expressly disclaims all implied warranties including any implied warranty of merchantability or fitness for any particular purpose.
