☐Add

Confirm Duo/Google Authenticator:

☐Yes   ☐No

Environment:

☐Production   ☐Test/DEV

User Information:

First Name: _____

Last Name: _____

Campus: _____

Dept/Unit: _____

E-mail:_____

Requestor Signature: _____   Date: _____

Campus Controller Approval:

Approver Name: _____

Approver Signature: _____   Date: _____

[1] UC has implemented FCCS (see 3 for additional information) and AWS effective FYE21. AWS houses the financial data warehouse and contains pre-built reports to support analysis of University's financial results.

[2] UCOP began using Oracle Cloud Fixed Assets to calculate fixed asset depreciation and amortization starting in FYE22. Access to this system will allow users to view depreciation related reports.

[3] FCCS, (Oracle Financial Consolidation and Close Cloud Solution) is the University of California's financial consolidation system and generates information for the preparation of the University's annual financial report. Number of users are limited due to license agreements.
