University of California

Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*

Issues Resolution Memo No. 25.1

Issued: May 1, 2007

Updated July 24, 2008

UCRP Financial Reporting for the Contributions Required by the DOE for Retained LANL and LLNL Retirees to be Made to the University of California Under the Negotiated Funding Formulas.

Background

In IRM 27.3, *Financial Reporting to Recognize the Ongoing Legal Financial Responsibility of the Department of Energy (DOE) for all UCRP Costs Associated with University of California Employees Who Currently Work at the Lawrence Berkeley National Laboratory (LBNL), or Who Previously Worked at the LBNL, or Worked at the Los Alamos National Laboratory (LANL) or Lawrence Livermore National (LLNL) Laboratory*, the University documented that DOE/NNSA's obligation under the contract's pension provisions is not ambiguous; rather, what is ambiguous is the methodology for anticipating and minimizing any shortfall before the last LANL segment beneficiary dies and the actual total cost is known.

These are two very separate issues associated with the payment of a pension shortfall:

1. The legal obligation to pay (IRM 27.3), and

2. The process for determining the timing of payments.

For LANL and LLNL, certain contract termination negotiations have clarified the timing of required DOE contributions in support of their ongoing financial responsibility to reimburse UC for any funding shortfalls in the "retained LANL and LLNL segments", the assets and liabilities retained by UC in the UCRP for inactive employees and retirees who formerly worked at LANL or LLNL. These negotiations resulted in formulas that define specific amounts and dates for contributions to be made (see Appendix 1 for LANL and Appendix 3 for LLNL).

The required contribution will be calculated by the University's actuary and included in the "addendum" valuation reports prepared as of the first day of the plan year, based upon the funded ratio of the retained LANL or LLNL segments of the UCRP as of the last day of the previous fiscal year end (one day earlier). The required contribution will be for the plan year, and must be paid within 8 months of the end of the plan year.

As an example, asset information (see Appendix 2) for the retained LANL segment of the UCRP as of June 30, 2006 will be used by the actuaries in the preparation of the July 1, 2006 "addendum" actuarial report. The July 1, 2006 "addendum" report is for the UCRP plan year beginning July 1, 2006 and ending June 30, 2007. The required contribution, or "reimbursement" by the DOE for funding the retained LANL segment, if any, will be included in that actuarial report and will be required to be paid to the University no later than February 28, 2008, eight months after the end of the plan year. The University will then be required to remit that same amount to the UCRP.

Note: The agreements with the DOE refer to the required contribution under the formulas as a "reimbursement" of contributions that UC would make to the UCRP on behalf of the retained LANL or LLNL segments. In practice, the University is not required to make contributions to the UCRP until the DOE provides the funds to the University in order for the University to make the contribution.

Define Issues

The appropriate accounting and reporting for the required contributions by the DOE specifically for the retained LANL and LLNL segments must be determined for the UCRP financial statements.

Conclusion

Record the appropriate contribution receivable from the University and contribution revenue from the University based upon the required contribution as indicated on the "addendum" reports. The receivable and revenue will be recorded at the end of the UCRP fiscal year (for example, the required contribution on the July 1, 2006 "addendum" report that is for the plan year ending on June 30, 2007 will be used to record the appropriate contribution receivable and contribution revenue in the UCRP financial statements as of and for the year ended June 30, 2007.

Authoritative Guidance and Discussion

It is clear that the LANL and LLNL contract termination negotiations have clarified the timing of required DOE contributions in support of their ongoing financial responsibility to reimburse UC for any funding shortfalls in the retained LANL or LLNL segments such that the revenue recognition requirements have been met and the receivable is realizable. These negotiations result in formulas that define specific amounts and dates for contributions to be made; the University should record DOE revenue and a specific receivable from the DOE for these amounts, current to the extent it will be received within one year.

It is also clear as a result of the agreements that the DOE's contribution will be made to the University; the University must then remit the DOE's contribution to the UCRP. The University must record a DOE laboratory expense and a University payable to the UCRP simultaneous with the recording of the receivable from the DOE and recognition of the DOE laboratory revenue.

For the UCRP, a contribution receivable and contribution revenue from the University must be recorded as outlined above based upon the following:

GASB Statement No. 25, Paragraph 22…"Plan receivables generally are short term and consist of contributions due as of the reporting date from the employer(s), plan members, and other contributors, and interest and dividends on investments. Amounts recognized as receivables should include those due pursuant to formal commitments as well as statutory or contractual requirements. With respect to an employer's contributions, evidence of a formal commitment may include (a) an appropriation by the employer's governing body of a specified contribution or (b) a consistent pattern of making payments after the plan's reporting date pursuant to an established funding policy that attributes those payments to the preceding plan year. When combined with either (a) or (b), the recognition in the employer's financial statements of a contribution payable to the plan may be supporting evidence of a formal commitment. However, the plan should not recognize a receivable based solely on the employer's recognition of a liability for contributions to the plan.

However, a contribution receivable and contribution revenue should not be recorded for anything other than the current portion of the receivable due under the agreed upon funding formula. Those amounts are not realizable since they do not qualify under paragraph 23 of GASB Statement No. 25. The receivable beyond one year may change as a result of investment performance such that the funding ratio of the retained LANL or LLNL segments exceed 100% in the following year. In that case, no additional contribution is payable to the University from the DOE.

GASB Statement No. 25, Paragraph 23…"Receivables and additions for contributions payable to the plan more than one year after the reporting date pursuant to, for example, installment contracts, should be recognized in full in the year the contract is made."

APPENDIX 1: Appendix T—DOE/NNSA Funding Obligation to the University of California with Respect to Reimbursement of Contributions to the University of California Retirement Plan

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE

PAGE 1 OF 1 PAGES

2. AMENDMENT/MODIFICATION NO. **M620**

3. EFFECTIVE DATE **See Block 16C**

4. REQUISITION/PURCHASE REQ. NO.

5. PROJECT NO. *(If applicable)*

6. ISSUED BY CODE

U.S. Department of Energy
National Nuclear Security Administration Service Center
M&O Support Department
P.O. Box 5400
Albuquerque, NM 87185-5400

7. ADMINISTERED BY *(If other than Item 6)* CODE

8. NAME AND ADDRESS OF CONTRACTOR *(No., street, county, state, ZIP Code)*

The Regents of the University of California
Office of the President, Laboratory Administration
1111 Franklin Street
Oakland, CA 94607-5206

CODE FACILITY CODE

9A. AMENDMENT OF SOLICITATION NO.

9B. DATED *(SEE ITEM 11)*

10A. MODIFICATION OF CONTRACT/ORDER NO.
W-7405-ENG-36/Mod M440/M507

10B. DATED *(SEE ITEM 13)*
October 1, 1997/January 18, 2001

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation as amended, by one of the following methods:
(a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS;
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO *(Specify authority)*: THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE-NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(Such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
X	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: **Public Law 95-91 and Mutual Agreement of the Contracting Parties**
	D. OTHER *(Specify type of modification and authority)*:

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 3 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

See attached Supplemental Agreement.

Except as provided herein, all terms and conditions of the document referenced in Items 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Modification No.: M620
Supplemental Agreement to
Contract No.: W-7405-ENG-36

SUPPLEMENTAL AGREEMENT TO
CONTRACT NO. W-7405-ENG-36

THIS SUPPLEMENTAL AGREEMENT, by and between the UNITED STATES OF AMERICA (hereinafter referred to as the "Government"), acting through the NATIONAL NUCLEAR SECURITY ADMINISTRATION ("NNSA") a separately organized division of the UNITED STATES DEPARTMENT OF ENERGY ("DOE"), and THE REGENTS OF THE UNIVERSITY OF CALIFORNIA, (hereinafter referred to as the "University"), a non-profit research university, established by the Constitution of the State of California.

WITNESSETH THAT:

WHEREAS, the University was engaged in the management and operation of the Los Alamos National Laboratory (LANL) as required by Contract W-7405-ENG-36 (hereinafter referred to in its entirety, including its modifications, as "the Contract"). The Contract was executed on behalf of the Government by the War Department on January 1, 1943 and most recently assigned to the NNSA by Public Law 106-65, October 5, 1999; and

WHEREAS, management and operation of LANL by the University under the Contract expired midnight May 31, 2006; and

WHEREAS, the University and NNSA have agreed to provide pension income to former University employees in a manner provided in the Contract; and

WHEREAS, the University and NNSA have agreed that the period of performance for this Supplemental Agreement is indeterminable at this time; and

NOW THEREFORE, the University and NNSA agree that the Contract is hereby modified in the following particulars:

> Section C.OO1 of the Contract entitled "STATEMENT OF WORK" is modified to add the following Statement of Work activities:
>
> The University shall provide pension income to former University employees in the manner provided under the Contract and in accordance with Appendix T (and attachments thereto) entitled "DOE/NNSA Funding Obligation to the University of California Retirement Plan (UCRP)" which is hereby incorporated into the Contract. Appendix T reflects the agreement entered into to provide funding to the UCRP.

Modification No.: M620
Supplemental Agreement to
Contract No.: W-7405-ENG-36

IN WITNESS HEREOF, the Parties hereby execute this Supplemental Agreement.

UNITED STATES OF AMERICA, DEPARTMENT OF ENERGY

Appendix T
Contract No: W-7405-ENG-36 (Modification No: M620)

DOE/NNSA Funding Obligation to the University of California with respect to Reimbursement of Contributions to the University of California Retirement Plan (UCRP)

Section 1 – <u>Purpose</u>

(a) This Appendix –

(1) sets forth the terms and conditions under which DOE/NNSA may be required to reimburse the Regents of the University of California (UC) (Parties) for Required Contributions and establishes a basis to calculate any amount that DOE/NNSA may be required to reimburse UC as a Required Contribution; and

(2) provides a mechanism for UC to make certain changes to the UCRP with respect to the Retained Segment with the consent of DOE/NNSA.

(b) This Appendix is incorporated into the Contract and in turn incorporates into the Contract the following Attachment, including its Exhibits:

"Agreement Between the Department of Energy/National Nuclear Security Administration and the Regents of the University of California Concerning the Transfer of Assets and Liabilities From the University of California Retirement Plan to the LANS Defined Benefit Pension Plan," which specifically provides the values called for in the A minus B formula of clause H.008 paragraph (f)(2) (Attachment 1)(Asset Transfer Agreement).

(i) June 1, 2006, Los Alamos National Laboratory Special Interim Addendum Report (Exhibit 1)(Actuarial Valuation).

(ii) Proposed Approach for Asset Allocation for Transfer to the LANS Plan (Exhibit 2)(Asset Allocation).

(iii) Pricing Procedures for Asset Classes Held in the UCRP (Exhibit 3)(Pricing Procedures).

(iv) Estimated Asset Transfer Amount based on accounting through February 28, 2007, to be modified upon determination of the actual value at the Asset Transfer Date (Exhibit 4)(Estimation).

(c) Except as specifically set out herein, this Appendix does not make changes to pre-existing rights and obligations between the Parties as set forth in clause H.008 or any other provisions of the Contract; however, any conflict between the requirements of clause H.008 or any other provision of the Contract and this Appendix will be resolved in favor of this Appendix.

(d) Subject to subparagraph (d)(5) of the Asset Transfer Agreement, this Appendix, including its Attachment and the Exhibits thereto, is for the exclusive benefit and convenience of the Parties hereto. Nothing contained herein shall be construed as granting, vesting, creating or conferring any right of action or any other right or benefit upon past, present or future employees of UC, upon any participants or beneficiaries of the University of California Retirement Plan (UCRP), as amended from time to time, or upon any other third party.

(e) This Appendix is not intended to limit or impair or add to the rights which any person may have under applicable Federal statutes.

(f) All assets and liabilities associated with UC's Defined Contribution Plan, 415(m) Restoration Plan, 457(b) Deferred Compensation Plan, and the Tax-Deferred 403(b) Plan are not covered by this Appendix and remain covered by clause H.008.

Section 2 – <u>Definitions</u>

These definitions apply to this Appendix T and its Attachment, including all of its Exhibits, unless otherwise specified.

(a) "Actuarial Value of Assets" means the dollar amount of assets attributable to the Retained Segment for purposes of calculating the Required Contribution determined under the actuarial asset valuation method adopted by the Regents for the Retained Segment for the Plan Year.

(b) "Beneficiary" means (A) the eligible survivors and beneficiaries of Retained Members and (B) alternate payees of LANL employees under qualified domestic relations orders (QDROs) who are eligible, and elect, on or before June 30, 2007, to retain their interests under the QDROs in the UCRP.

(c) "Contract Service Assets" means the accrual basis market value of assets attributable to the Retained Segment given by the accounting referred to in subsection (4)(a), below.

(d) "Funding Shortfall" means the excess, if any, of the Funding Target over the Actuarial Value of Assets of the Retained Segment, determined as of the first day of the Plan Year.

(e) "Funding Target" means, with respect to a Plan Year, 100% of the present value of all benefits accrued or earned as of the beginning of the Plan Year that are allocated to the Retained Segment. The present value shall be determined using the actuarial assumptions adopted by the Regents as in effect for the Retained Segment for the Plan Year subject to subsections (d), (e), and (f) of Section 5 of this Appendix T and to the other provisions of this Contract.

(f) "LANL" means the Los Alamos National Laboratory.

(g) "LANS Plan" means the LANS Defined Benefit Pension Plan.

(h) "Plan Year" is the Plan Year as defined and adopted by the Regents for the UCRP.

(i) "Required Contribution" means the greater of (1) the Shortfall Amortization Charge allocable to the Retained Segment for a Plan Year, or (2) the amount necessary to meet the UCRP's current obligations to Retained Members and Beneficiaries when the remaining market value of assets of the Retained Segment as of the beginning of the Plan Year is insufficient to meet current obligations. For purposes of this provision, "current obligations" means an amount equal to three times the benefit payments and expenses for the 12 months prior to the beginning of the Plan Year. The Required Contribution is fixed as calculated and not subject to either positive or negative adjustment based on changes in market conditions or other actuarial experience between the calculation date and the payment date.

(j) "Retained Member" means an individual who satisfies the following two conditions: (A) on May 31, 2006, was (i) a retiree of the UCRP from LANL, (ii) a terminated vested participant of the UCRP from LANL, (iii) a disability income recipient under UCRP from LANL, or a deceased participant with respect to any survivor entitled to benefits under UCRP from LANL, or (iv) an employee in good standing of UC at LANL and either an active or reinstated and rehired member of UCRP with a vested interest in the UCRP, and (B) did not elect to become a participant in the LANS Plan. "Retained Member" shall also include an individual with an account under the Capital Accumulation Provisions (CAP), and who elected to become a participant in the LANS Plan; provided, however, that such inclusion as a Retained Member shall be limited to such member's CAP benefit for purposes of calculating benefits and liabilities under the Retained Segment.

(k) "Retained Segment" means the portion of UCRP represented by the assets and liabilities accrued through May 31, 2006, and associated with the benefits of Retained Members and Beneficiaries.

(l) "Shortfall Amortization Base" means, with respect to a Plan Year, the Funding Shortfall (if any) for the Plan Year reduced by the present value of any remaining future Shortfall Amortization Installments from prior Plan Years.

(m) "Shortfall Amortization Charge" means, with respect to a Plan Year, the sum of the Shortfall Amortization Installments with respect to the Shortfall Amortization Bases for such Plan Year and for each of the six preceding Plan Years, based on the Funding Shortfall for each of those years. For any Plan Year when the Funding Shortfall is zero, all prior Shortfall Amortization Bases will be considered fully amortized, no new Shortfall Amortization Base will be established for that year, and the Shortfall Amortization Charge will be zero for that year.

(n) "Shortfall Amortization Installment" means the amount necessary to amortize the Shortfall Amortization Base in level annual installments over a seven-year period using the interest rate assumption adopted by the Regents as in effect for the Retained Segment for the Plan Year.

(o) "The Regents" means the Regents of the University of California.

Section 3 –Required Contribution

(a) Subject to the availability of appropriations and the other provisions of this Contract, each Plan Year DOE/NNSA will reimburse UC for the Required Contribution, if greater than zero, within eight months of the close of the Plan Year, starting with the Plan Year beginning July 1, 2006 and ending June 30, 2007. Immediately upon reimbursement by DOE/NNSA, the Regents will pay the Required Contribution into the UCRP for the Retained Segment and add it to the Contract Service Assets.

(b) DOE/NNSA will make payment from any funds which DOE may legally use for such purpose, provided that DOE/NNSA will use its best efforts to request that sufficient funds for this purpose be included in the President's Budget if not otherwise available.

Section 4 – Accounting and Reporting Requirements for the Retained Segment

(a) <u>Contract Service Assets</u>

UC shall maintain a separate annual accounting of liabilities and assets attributable to the Retained Segment. The accounting for the Retained Segment will reflect the effects of any transactions covered by the Asset Transfer Agreement. Market value of assets on an accrual basis at the beginning of a Plan Year shall equal the assets at market value on an accrual basis at the end of the prior Plan Year based on the separate annual accounting of the prior Plan Year. The annual accounting of the assets in the Retained Segment under the Contract will incorporate the following:

(i) Market value of assets at the beginning of a Plan Year, determined in accordance with the Pricing Procedures;

(ii) (A) Contributions reimbursed by DOE/NNSA that are accounted for on a monthly basis during a Plan Year; and

(B) Employee contributions in the form of after-tax service credit buybacks made to UCRP that are accounted for on a monthly basis during a Plan Year, if any;

(iii) The dollar amount of total investment rate of return from the market value of the Retained Segment assets that are invested in the UCRP portfolio accrued on a monthly basis during the Plan Year;

(iv) Benefits disbursed on a monthly basis from the Retained Segment during the Plan Year, including return of accumulated employee contributions;

(v) Administrative expenses, excluding any expense specifically allocated to a segment, paid from the trust allocated to the Retained Segment in the same proportion that the market value of assets assigned to the Retained Segment bears to the market value of the total UCRP on a monthly basis during the Plan Year. Specific expenses will be directly charged to the Retained Segment as provided for in subsection 5(h) of Appendix T in addition to the proportionate share of expenses; and

(vi) Market value of assets at the end of the Plan Year = [subparagraphs (i) + (ii) + (iii) - (iv) - (v)]. The annual accounting shall commence as of June 1, 2006 with the Contract Service Assets priced as of May 31, 2006, and as provided in the Pricing Procedures, and thereafter as of the end of each Plan Year.

(b) Reporting requirements for Retained Segment.

The following reports will be submitted by UC to DOE/NNSA:

(i) The annual actuarial valuation for the UCRP and an addendum report including such information for the Retained Segment that the DOE may reasonably request will be submitted within six months of the end of the Plan Year. At a minimum, the addendum report will include: a statement of the Actuarial Accrued Liability (Funding Target) for the Retained Segment; calculation of the Required Contribution for the subsequent Plan Year (including the Shortfall Amortization Charge and the amount necessary to meet "current obligations"); a schedule of each Shortfall Amortization Base, if any, and its date, original amount and Shortfall Amortization Installment; a demographic summary of data for the members in the Retained Segment; an itemization of the changes in the numbers of members in the Retained Segment during the Plan Year; a development of the Funding Shortfall for the Plan Year, if any; a statement of the market value of assets for the Retained Segment; an itemized cashflow for the assets of the Retained Segment; calculation of the Actuarial Value Assets; definition of pension terms used in the addendum report; a statement of actuarial assumptions and methods; a summary of UCRP provisions; and a statement of the changes, if any, in benefits, assumptions or methods since the last report.

(ii) A copy of the Financial Accounting Standards Board Statement 87 report prepared each year to satisfy the expense-reporting requirement of the Office of Management and Budget. The report will be provided by the date requested by DOE/NNSA.

(iii) UC shall provide a report of an annual, full-scope audit of UCRP by an outside independent auditor within seven months after the end of the Plan Year to which the audit applies.

Section 5 – Administration of the Retained Segment

(a) Any disputes that may arise under this Appendix, including its Attachment and the Exhibits thereto, are subject to the DISPUTES clause of the Contract.

(b) The Retained Segment will remain within UCRP, consistent with the terms of the Contract.

(c) UC will continue to provide an annual addendum report on the Retained Segment as described in subsection (4)(b). As part of that report, the Regents' actuary will calculate any Required Contribution.

(d) Subject to subsections (e) and (f), DOE/NNSA acknowledges and agrees that the Regents are authorized and expected to administer the UCRP and its trust fund as fiduciaries of the UCRP.

(e) Notice

(i) In addition to the advance notice and approval from DOE/NNSA required pursuant to subsection (5)(f), UC will notify DOE/NNSA prospectively of each change to the UCRP that could have a significant impact on current or future DOE/NNSA funding or liabilities. Changes covered by this provision include any change to a benefit, right or feature of the UCRP and any change to a funding method or assumption. A significant impact is a change that requires the approval of the Regents. DOE/NNSA will also be given prospective notice of any changes in the scope of the administration of the Retained Segment that requires a change in the administration costs of five percent or more. Changes in administration costs resulting directly from normal inflation in administration costs or pursuant to specific requests from DOE/NNSA do not require notice.

(ii) Prospective notice will be provided to DOE/NNSA for each change requiring prospective notice as described in this section, including any changes to non-DOE/NNSA-reimbursed segments of UCRP. For purposes of this section, prospective notice on a change that requires prior regental approval shall mean written notice, including a copy of the proposed change by the Regents as trustees of UCRP, at least thirty (30) days in advance of approval of each change to UCRP. With respect to changes in the scope of administration of the Retained Segment, prospective notice shall be included in the annual addendum report for the Retained Segment.

(f) Any UCRP proposal that:

(i) is specific to the Retained Segment, or specific to the Retained Segment and any future retained segment associated with the Lawrence Livermore National Laboratory; or

(ii) would increase pension liabilities for the Retained Segment beyond what is approved for UCRP members generally or would have a significant and differential impact on the Retained Segment than on the UCRP generally; or

(iii) changes an asset allocation or adopts actuarial assumptions or methods for the Retained Segment differently than for UCRP members generally; or

(iv) involves ad hoc adjustments to the benefits of Retained Members or Beneficiaries, even if proposed for all UCRP members and beneficiaries

is subject to approval in advance by the DOE/NNSA Contracting Officer, which approval for subsections (i)-(iii) will not be unreasonably withheld. In addition, the DOE/NNSA Contracting Officer shall not withhold approval for changes under subsections (ii) and (iii) above resulting from a court order requiring or directing UC to make such change. DOE/NNSA shall make a good faith effort to respond to a request by UC under this section within 90 days after receipt of such request.

(g) The provisions of Clause H.008 (b) (1)-(5) and (b)(8) and (d) are replaced by section 4 and subsections (5) (e) and (f) of this Appendix T.

(h) Subject to the other provisions of this Contract, including the cost principles contained in this Contract, the reasonable costs of planning for and implementing the division of assets between UCRP and the LANS Plan, and administering the Retained Segment will be reimbursed to UC through a charge to the Retained Segment to the extent legally permissible; provided, however, that any losses or penalties which cannot be charged to the Retained Segment and which DOE/NNSA is required to reimburse UC pursuant to the Asset Transfer Agreement, Clause (b) (6), will be separately invoiced.

(i) As the size of the Retained Segment begins to significantly decline, if requested by DOE/NNSA and legally permissible, the Retained Segment will be spun off from UCRP to be terminated after the death of the last Retained Member or Beneficiary. An amount equivalent to any Contract Service Assets remaining after satisfaction of all liabilities and obligations of the Retained Segment, less costs of liquidation, plus interest at the then-current rate established for a one-year Treasury bill as published by the Federal Reserve calculated from the date of plan termination to the payment date, will be paid to DOE/NNSA or as directed by DOE/NNSA, if approved by the Internal Revenue Service.

IN WITNESS WHEREOF, the Parties have executed this Appendix T as of the date(s) indicated below.

"Agreement Between the Department of Energy/National Nuclear Security Administration and the Regents of the University of California Concerning the Transfer of Assets and Liabilities From the University of California Retirement Plan to the Los Alamos National Security LLC Defined Benefit Pension Plan" (Attachment 1)(Asset Transfer Agreement), with the following exhibits:

(i) June 1, 2006, Los Alamos National Laboratory Special Interim Addendum Report (Exhibit 1)(Actuarial Valuation).

(ii) Proposed Approach for Asset Allocation for Transfer to the LANS Plan (Exhibit 2)(Asset Allocation).

(iii) Pricing Procedures for Asset Classes Held in the UCRP (Exhibit 3)(Pricing Procedures).

(iv) Estimated Asset Transfer Amount (Exhibit 4)(Estimation).

Attachment 1 to Appendix T

AGREEMENT BETWEEN THE DEPARTMENT OF ENERGY/NATIONAL NUCLEAR SECURITY ADMINISTRATION AND THE REGENTS OF THE UNIVERSITY OF CALIFORNIA CONCERNING THE TRANSFER OF ASSETS AND LIABILITIES FROM THE UNIVERSITY OF CALIFORNIA RETIREMENT PLAN TO THE LANS DEFINED BENEFIT PENSION PLAN

(a) **General.**

(1) The "Parties" means the Department of Energy, through the National Nuclear Security Administration (DOE/NNSA), and the Regents of the University of California (UC).

(2) The "Asset Transfer Agreement" means this Agreement between the Department of Energy/National Nuclear Security Administration and the Regents of the University of California concerning the Transfer of Assets and Liabilities from the University of California Retirement Plan to the LANS Defined Benefit Pension Plan.

(3) Pursuant to Clause H.008 of the Contract, the assets and liabilities associated with the Los Alamos National Laboratory Segment (LANL Segment) of the University of California Retirement Plan (UCRP) have been accounted for separately each year by the Regents' actuary since the early 1990s at the request of DOE/NNSA.

(4) During the transition to management of Los Alamos National Laboratory (LANL) by Los Alamos National Security, LLC (LANS), employees of UC at LANL on May 31, 2006, who were either active, or rehired and reinstated as members of the UCRP could elect to participate in the LANS Defined Benefit Pension Plan (LANS Plan) so that benefit liabilities under the UCRP attributable to service prior to June 1, 2006, would be transferred from the UCRP to the LANS Plan effective June 1, 2006. Such individuals are collectively referred to as "Transferring Employees." The benefit liabilities transferred exclude any liabilities for Capital Accumulation Provision (CAP) accounts. The benefit liabilities transferred also exclude liabilities for benefits assigned by a qualified domestic relations order (QDRO) to a former spouse of an employee who elected to participate in the LANS Plan if the former spouse elected on or before June 30, 2007, pursuant to procedures established by LANS and UC, to retain his or her interest in UCRP. Collectively the excluded liabilities for CAP accounts and for alternate payees under QDROs who

themselves elect to retain their interest in the UCRP shall be referred to as "Excluded Liabilities."

(5) Under the terms of the LANS Plan, as adopted by LANS on September 13, 2006, Transferring Employees began accruing benefits under the terms of the LANS Plan starting June 1, 2006. As provided in the LANS Plan, these individuals are also eligible to receive benefits under the LANS Plan attributable to service credited under the UCRP for employment prior to June 1, 2006, based upon the benefit provisions, payment options, and other terms of the LANS Plan. Transferring Employees waived any rights they might have had to benefits under the UCRP, except the Excluded Liabilities, which remain payable from the UCRP.

(6) The definitions set forth in Section 2 of Appendix T are applicable to this Asset Transfer Agreement, except as may be specifically provided in this Asset Transfer Agreement.

(b) For and in consideration of the mutual understandings expressed herein, DOE/NNSA agrees and represents as follows:

(1) The date of the transfer of assets and liabilities pursuant to this Asset Transfer Agreement from the UCRP to the LANS Plan will be on or about April 2, 2007 (Asset Transfer Date), provided that DOE/NNSA provides UC with executed copies of this Asset Transfer Agreement and the agreement set forth in Appendix T to the Contract between UC and DOE/NNSA to define DOE/NNSA's ongoing obligation to reimburse UC for contributions to the UCRP attributable to the Retained Segment no later than March 26, 2007.

(2) DOE/NNSA will work with the Internal Revenue Service (IRS) to facilitate regulatory approval for the transfer of assets and liabilities described below from the UCRP to the LANS Plan.

(3) DOE/NNSA will provide UC with the following –

(i) As agreed to by LANS, a copy of the application submitted by LANS on January 31, 2007, to the IRS for a Favorable Determination Letter that the LANS Plan satisfies the requirements of Section 401(a) of the Internal Revenue Code of 1986 (Code), including the requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) and all other applicable requirements, including those documented in the Cumulative List in Notice 2005-101. In that application, LANS also requested a determination that the LANS Plan's associated trust is tax-qualified within the meaning of Code section 501(a).

(ii) LANS' agreement to make any modifications requested by the IRS as required to obtain a Favorable Determination as to the qualified status of the LANS Plan, and an opinion provided by LANS to DOE/NNSA from counsel for LANS that the LANS Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) as to form, that its trust is exempt from taxation under Section 501(a) of the Code.

(iii) LANS' agreement to return the Asset Transfer Amount (as defined in clause (d)(2) below) and the remaining liabilities for service under the UCRP prior to June 1, 2006, to the UCRP to the extent legally permissible (a) if LANS is unable to obtain a Favorable Determination from the IRS on the form of the LANS Plan; (b) if LANS, with the facilitation of DOE/NNSA, as described above, is unable to obtain IRS approval for the asset and liability transfer to the LANS Plan; or (c) if so ordered by a court of competent jurisdiction. To the extent legally permissible, such agreement will provide that:

A. The assets so returned to the UCRP shall be the Asset Transfer Amount adjusted by benefit distributions from the LANS Plan attributable to service credit earned prior to June 1, 2006, to the extent transferred to the LANS Plan, and an allocable share of the investment return and expenses incurred during the period from the Asset Transfer Date to the date the assets are returned to the UCRP.

B. The allocable share of expenses to be offset against the assets returned to UCRP shall be an amount equal to the administrative expenses, excluding investment expenses, incurred during the period from the Asset Transfer Date to the date the assets are returned to the UCRP, multiplied by the ratio of the liability of the Transferring Employees to the total liability of the LANS Plan on the Asset Transfer Date.

C. Solely for the purpose of calculating the ratio in B. above, the liability shall be based on the current liability under Code section 412(l) using the LANS Plan assumptions for current liability for the LANS plan year containing the Asset Transfer Date.

D. The allocable share of the investment return added to (or subtracted from) the assets returned to UCRP shall be determined in accordance with applicable fiduciary duties by applying the total rate of investment return, net of investment expenses, of the LANS Plan (during the period from the Asset Transfer Date to the date the assets are so returned to the UCRP) to the Asset Transfer Amount adjusted by benefit distributions attributable to service credit earned prior to June 1, 2006 and the allocable share of expenses determined above.

E. The liabilities so returned to the UCRP shall be adjusted by benefit distributions attributable to service credit earned prior to June 1, 2006, to the extent of the liabilities transferred to the LANS Plan and the obligations incurred by LANS on behalf of members of the LANS Plan under the LANS Defined Benefit Eligible Survivor Income Program and the LANS Defined Benefit Eligible Disability Program.

(iv) LANS' agreement to cooperate with DOE/NNSA and UC in finalizing the data and reconciliations to support any adjustments in the amount of assets transferred from the UCRP to the LANS Plan that may be necessary after the Asset Transfer Date and to assume full responsibility for payment of premiums to the Pension Benefit Guaranty Corporation for the LANS Plan and the LANS Plan's compliance with the requirements of the Code.

(v) LANS' agreement that it has been given an adequate opportunity to review the proposed allocation of assets to be transferred from the UCRP to the LANS Plan, that it agrees that the valuation approach to be used with respect to the assets transferred is reasonable, and that it agrees to direct the trustee of the LANS Plan to accept the Asset Transfer Amount into the LANS Plan as of the Asset Transfer Date.

(vi) LANS' agreement that it will maintain the special schedule (or the data necessary to create the special schedule) as required by Code section 414(l), and that it will file IRS Form 5310-A to this effect for the merger of the assets and liabilities into the LANS Plan.

(vii) LANS' agreement that, upon transfer of the Asset Transfer Amount from the UCRP to the LANS Plan in accordance with this Asset Transfer Agreement, all liabilities of the UCRP, UC and the Regents for the benefits under the UCRP attributable to service prior to June 1, 2006, associated with the Transferring Employees – with the exception of Excluded Liabilities retained in the UCRP – will be extinguished.

(4) Based upon representations made by UC and its actuaries as set forth in subparagraph (c) of this Asset Transfer Agreement, DOE/NNSA accepts that the difference between the Contract Service Assets for the LANL Segment (priced as of May 31, 2006 as provided in the Pricing

Procedures, Exhibit 3, to this Attachment) ($4,448,574,090) as provided in the Actuarial Valuation (Exhibit 1) and the value as of May 31, 2006, of the liabilities retained in the Retained Segment ($3,169,811,239) as provided in the Actuarial Valuation was $1,278,762,851 (Formula Amount).

(5) DOE/NNSA agrees that upon transfer of the Asset Transfer Amount from the UCRP to the LANS Plan and subject to any adjustments made pursuant to the terms of subparagraphs (d)(3) and (4) of this Asset Transfer Agreement, UC will have satisfied its responsibilities to transfer assets and liabilities from the UCRP to the LANS Plan pursuant to clause H.008 paragraph (f).

(6) The costs, expenses, losses and penalties that the UCRP or UC reasonably incurs, as a direct result of the transfer of assets and liabilities from the UCRP to the LANS Plan as provided for in this Asset Transfer Agreement, including transaction costs associated with rebalancing the investments in the UCRP, will be assessed as costs of the Retained Segment to the extent permissible or, if not, separately invoiced. "Costs" for these purposes do not include losses on the value of assets sold in the rebalancing of investments. "Penalties" for these purposes are limited to those assessed to the UCRP, UC or one or more of the fiduciaries of the UCRP as a direct result of performing those acts in conformance with the terms of this Asset Transfer Agreement.

(7) If LANS returns the Asset Transfer Amount pursuant to the LANS agreement described in subparagraph (b)(3)(iii) of this Asset Transfer Agreement, and the rate of return on investments in the LANS Plan is less than the rate of return on investments in the UCRP for the period beginning on the Asset Transfer Date and ending on the date assets are returned to the UCRP, an amount equal to the excess of the UCRP rate of return over the LANS Plan rate of return times the Asset Transfer Amount will be treated as a reimbursable cost to the extent that if, after taking into account the assets and the liabilities returning to the Retained Segment, such transfer would leave the Retained Segment with a Funding Shortfall.

(c) For and in consideration of the mutual understandings expressed herein, UC agrees and represents as follows:

(1) UC submitted an application to the IRS on June 17, 1999, for a Favorable Determination Letter that the UCRP, as amended, continues to satisfy the requirements of Code section 401(a). The request has been held at the National Office of the IRS pending resolution of certain issues concerning cash balance plans. UC recently received notification that its request is now being considered and UC is committed to maintaining the tax-

qualified status of the UCRP. A Favorable Determination Letter from the IRS was previously issued on the UCRP in 1997.

(2) UC will make any amendments to the UCRP necessary to obtain a Favorable Determination Letter from the IRS. Prior to the execution of this Asset Transfer Agreement, UC will provide an opinion from counsel for UC that the UCRP as amended for General Agreements on Tariffs and Trade, Uniformed Services Employment and Reemployment Rights of 1994, Small Business Job Protection Act, The Taxpayer Relief Act of 1997 (GUST) changes and as may be requested by the IRS is qualified under Section 401(a) of the Code as to form, its trust is exempt from taxation under Section 501(a) of the Code, and UC will make any amendments requested by the IRS as required to obtain a determination that the form of the UCRP continues to satisfy the requirements of Code section 401(a).

(3) In accordance with clause H.008 paragraph (f)(2)(i) as modified by subparagraph (d)(1)(ii) of this Asset Transfer Agreement, UC has determined that, priced as of May 31, 2006, as provided in the Pricing Procedures, the total market value of the assets allocated to the LANL Segment was $4,448,574,090 on May 31, 2006.

(4) In accordance with clause H.008 paragraph (f)(2)(i), UC has determined that, as of midnight Pacific time on May 31, 2006, the liabilities associated with the LANL Segment for benefits under the UCRP attributable to service at LANL prior to June 1, 2006, that are retained in the LANL Segment, including the Excluded Liabilities, were $3,169,811,239.

(5) In accordance with clauses H.008 paragraphs (f)(2) and (3) as modified by subparagraph (d)(1)(ii) of this Asset Transfer Agreement, UC has determined that, priced as of May 31, 2006, and as provided in the Pricing Procedures, the difference between the Contract Service Assets of the LANL Segment as reflected in the Actuarial Valuation and the value of the liabilities of the Retained Segment as reflected in the Actuarial Valuation was $1,278,762,851 (Formula Amount).

(6) UC represents that the Asset Transfer Amount will be calculated and determined as provided in subparagraph (d)(2) of this Asset Transfer Agreement.

(7) UC agrees that, upon the transfer to the LANS Plan of the Asset Transfer Amount and the liabilities under the UCRP associated with the benefits of the Transferring Employees, the liabilities under the UCRP associated with the benefits of such individuals (with the exception of the Excluded Liabilities retained in the UCRP) and the liabilities and responsibilities of DOE/NNSA for reimbursement of such liabilities under the UCRP will be

extinguished except to the extent that such liabilities may be returned to the UCRP as described in subparagraph (b)(3)(iii) above.

(8) Prior to the Asset Transfer Date, UC's enrolled actuaries will certify that, although the UCRP is not subject to the requirements of Code sections 401(a)(12) and 414(l) because the UCRP is a governmental plan as defined in Code section 414(d), if Code section 414(l) did apply to the spin off of assets and liabilities from the UCRP to the LANS Plan, the transfer of the Asset Transfer Amount as defined in subparagraph (d)(2) would comply with Code section 414(l) regarding the minimum level of assets to be transferred to the LANS Plan to cover the liabilities transferred and that UC will submit an IRS Form 5310-A to that effect for the spin off of assets and liabilities from the UCRP.

(9) In accordance with Clause H.008, paragraph (f) and upon UC's receipt of the documents and representations set out in subparagraph (b) of this Asset Transfer Agreement, UC agrees to transfer the Asset Transfer Amount from the UCRP to the LANS Plan as of a date no later than the Asset Transfer Date; provided, however, that the transfer will be accomplished with an allocation of cash and an allocation of securities mutually agreed upon by the DOE/NNSA, LANS, and UC as set forth in Exhibit 2 attached to and made a part of this Asset Transfer Agreement.

(10) UC will cooperate with DOE/NNSA and LANS to determine and reconcile the Final Transfer Amount and the final liability transfer amount from the UCRP to the LANS Plan in accordance with the terms of this Asset Transfer Agreement and applicable law. UC further agrees to cooperate with DOE/NNSA and LANS in finalizing the data and reconciliation to support any adjustments in the amount of assets and liabilities transferred from the UCRP to the LANS Plan that may be necessary after the Asset Transfer Date.

(11) UC hereby agrees to provide data, documentation, and records reasonably requested for and on behalf of the LANS Plan for the proper establishment, maintenance and administration of the LANS Plan.

(12) UC hereby agrees that, if – in accordance with paragraph (b)(3)(iii) of this Asset Transfer Agreement – LANS returns the Asset Transfer Amount (as adjusted pursuant to paragraphs (b)(3)(iii) and (d)(3) of this Asset Transfer Agreement) and the remaining liabilities for service under the UCRP prior to June 1, 2006, to the UCRP, the UCRP will accept those assets and liabilities to the extent legally permissible.

(d) For and in consideration of the mutual understandings expressed herein, UC and DOE/NNSA agree as follows:

(1) Formula Amount

(i) The Parties are mutually relying upon obtaining approval from the IRS for the Formula Amount.

(ii) The Formula Amount ($1,278,762,851) was determined based upon the Actuarial Valuation as of May 31, 2006, the effective date of disaffiliation, instead of the last business day of the calendar quarter which ended coincident with, or next preceding, the effective date of disaffiliation as had been provided in Clause H.008 Paragraph (f)(2) of the Contract.

(2) Asset Transfer Amount

The Asset Transfer Amount is the Formula Amount adjusted to the Asset Transfer Date to reflect the following factors occurring during the period beginning June 1, 2006, and ending on or near the Asset Transfer Date: the portion of the total return earned by the UCRP portfolio allocable to the Formula Amount of the LANL Segment; administrative expenses allocable to the Formula Amount of the LANL Segment; buybacks for the UCRP service credit attributable to the Formula Amount of the UCRP benefits of Transferring Employees (apart from the CAP accounts); and any interim distributions agreed to by DOE/NNSA from the UCRP made to the LANS Plan and/or to LANS Plan members or their beneficiaries or alternate payees pursuant to a QDRO. See Exhibit 4 estimating the Asset Transfer Amount, based upon preliminary accounting through February 28, 2007, to be modified on or about April 15, 2007, upon determination of the actual value at the Asset Transfer Date. Any losses or penalties that cannot be charged to the Retained Segment and which DOE/NNSA is required to reimburse UC pursuant to this Asset Transfer Agreement or Appendix T will be separately invoiced.

(3) Final Transfer Amount

UC and DOE/NNSA acknowledge and agree that the Asset Transfer Amount transferred on the Asset Transfer Date may need to be subsequently adjusted to reflect – with respect to certain assets – final earnings figures and other final performance numbers that may be received by UC after the Asset Transfer Date, other investment-related adjustments and any data corrections related to the calculations supporting the Asset Transfer Amount but not available on the Asset Transfer Date as well as to make any adjustments necessary to obtain appropriate regulatory approval. Any additional transfers of assets between the UCRP and the LANS Plan as may be needed to make such adjustments will be made as soon as practicable following the Asset Transfer Date.

(4) Corrections

The Parties agree that UC will provide prompt notice of any errors or omissions in data used to calculate the Asset Transfer Amount discovered after the Asset Transfer Date that would have had an effect on the Asset Transfer Amount had such error or omission been recognized prior to the Asset Transfer Date. The Parties shall determine how to correct the error or omission with as minimum an administrative burden on the Parties as possible.

(5) Third Party Beneficiaries

This Attachment, including its Exhibits, is for the exclusive benefit and convenience of the Parties hereto. Nothing contained herein shall be construed as granting, vesting, creating or conferring any right of action or any other right or benefit upon past, present or future employees of the Contractor, upon any participants or beneficiaries of the UCRP, as amended from time to time, or upon any other third party. Notwithstanding the foregoing and Section 1(d) of Appendix T, LANS may rely on the representations made by UC in subparagraph (c) of this Asset Transfer Agreement provided that LANS has entered into an enforceable agreement with the DOE/NNSA providing that UC may rely on the representations provided by LANS described in subparagraphs (b)(3) of this Asset Transfer Agreement.

IN WITNESS WHEREOF, the Parties have executed this Asset Transfer Agreement as of the date(s) indicated below.

Ms. Judith W. Boyette
Associate Vice President, Human Resources and Benefits
University of California
1111 Franklin Street, 7th Floor
Oakland, California 94607-5200

Dear Associate Vice President Boyette:

We are pleased to submit this Actuarial Valuation Report as of June 1, 2006 for the University of California Retirement Plan ("UCRP" or "Plan"). It summarizes the actuarial data used in the valuation, includes results both before and after reflecting the transfer elections and analyzes the preceding year's experience for Los Alamos National Laboratory.

The census and unaudited financial information on which our calculations were based was provided by the UC HR/Benefits Staff. That assistance is gratefully acknowledged. The actuarial calculations were completed under the supervision of John Monroe, ASA, MAAA, Enrolled Actuary.

This actuarial valuation has been completed in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information supplied in this actuarial valuation is complete and accurate. Further, in our opinion the assumptions as approved by the Regents are reasonably related to the experience of and future expectations for the Plan.

We look forward to reviewing this report and to answering any questions.

Sincerely,

THE SEGAL COMPANY

SECTION 1

EXECUTIVE SUMMARY

SECTION 2

SUPPLEMENTAL INFORMATION

SECTION 3

REPORTING INFORMATION

SECTION 1: Executive Summary for the University of California Retirement Plan – Los Alamos National Laboratory

Purpose

This special addendum report presents the results for Los Alamos National Laboratory (LANL) of the June 1, 2006 actuarial valuation of the University of California Retirement Plan (UCRP). Results from the prior valuation are shown for comparison. The report is published for the purpose of complying with the requirements of Contract No. W-7405-ENG-36 (Contract 36), Modification No. M602. The report is based on the procedures specified in Modification No. M602.

Contributions

The Department of Energy (DOE) has agreed to fund the employer cost of UCRP at the contribution rates established from time to time by the Regents, as long as the contributions do not exceed the full funding limit defined in the Internal Revenue Code, Section 412. This interim valuation report does not calculate recommended contributions.

Significant Issues in Valuation Year

LOS ALAMOS NATIONAL LABORATORY TRANSFER OF ASSETS AND LIABILITIES

- The University of California contract to manage the Los Alamos National Laboratory (LANL) expired on May 31, 2006. The Department of Energy (DOE) executed a new management and operations contract effective June 1, 2006 with Los Alamos National Security, LLC (LANS). Under the terms of the LANS contract, LANS will sponsor a defined benefit pension plan that is substantially equivalent to the provisions of the UCRP. Assets and liabilities will be transferred from UCRP to the LANS defined benefit plan for the LANL employees who elected to transfer to the new plan, provided the necessary and advisable rulings on the plans and proposed transactions are obtained from the appropriate regulatory agencies.
- There are 6,532 active members who elected to transfer to the LANS defined benefit plan. Their actuarial accrued liability as of June 1, 2006 is approximately $1.4 billion, excluding the liability for their CAP benefits that will be retained by UCRP. This liability is reflected in our valuation results and included with the UCRP active member liabilities. This liability is based on the current UCRP actuarial assumptions, methods and plan provisions. The liability for these members as determined for the LANS defined benefit plan will almost certainly be different, as it will be based on the LANS benefit provisions and the actuarial assumptions and methods used by the LANS actuary.

Significant Issues in Valuation Year (continued)

- The LANL transfer elections reflected in this valuation are based on the transfer election data provided by the University as of August 24, 2006. There were minor changes to this information made later, but we do not believe these changes have a material impact on the valuation results.
- The amount of assets to be retained in UCRP for LANL members who have retired or are inactive, and the amount of the assets that will be transferred to the LANS defined benefit plan for the transitioning employees who elected to participate in the LANS defined benefit plan will follow the "A – B" formula listed in Contract 36, Clause H. "A" represents the market value of UCRP assets associated with UCRP members' LANL service during the performance of Contract 36 and is $4.449 billion. "B" represents the liability associated with those LANL members who are retired or inactive and retained by UCRP and is $3.170 billion. The amount of assets as of June 1, 2006 to be transferred from UCRP to the LANS defined benefit plan is "A – B", or $1.279 billion. The amount to be transferred will be adjusted for investment return, allocable expenses and any other appropriate adjustments through the anticipated transfer date of early April 2007.
- While this valuation includes results reflecting the LANL transfer elections, it does not reflect the actual transfer of assets and liabilities to the LANS defined benefit plan. This means that the results of this valuation include liabilities even for members who have elected to transfer to the LANS defined benefit plan. As noted above, we have continued to value these members as active UCRP members and their liabilities are shown as active in the results. LANL employees **who elected not** to transfer to the LANS defined benefit plan are included in the valuation results either as terminated vested or nonvested members. Consistent with current practice, for those terminated members who were eligible for retirement, we have assumed a July 1, 2006 commencement date for their retirement benefits.

ASSETS

- During the July 1, 2005 through May 31, 2006 period, the rate of return on the unaudited market value of assets was 7.2%. Due to the recognition of prior investment losses, the rate of return on the actuarial value of assets was 5.5%, which is below the expected annual return of 7.5% (6.9% for an 11-month period).

FUNDED RATIO

- The funded ratio for LANL's portion of the Plan on an actuarial basis decreased from 99% as of July 1, 2005 to 92% as of May 31, 2006 before reflecting elections and 94% as of May 31, 2006 after reflecting elections. The LANL portion of the Plan remains in an underfunded position as the actuarial accrued liability exceeds the actuarial value of assets by $357 million as of June 1, 2006 before reflecting elections and $261 million as of June 1, 2006 after reflecting the transfer elections.

Significant Issues in Valuation Year (continued)

FUTURE EXPECTATIONS

- No contributions were recommended for the 2005-2006 Plan Year. This was due to the application of the full funding policy that the Regents adopted in 1990. Member contributions are all currently being redirected to the UC Defined Contribution Plan. It is expected that UCRP's surplus will run out in the next few years and may run out as soon as July 1, 2008.

DEMOGRAPHIC EXPERIENCE

- Prior to reflecting the LANL transfer elections, the number of UCRP active members considered LANL employees for valuation purposes decreased by 1.6% from 9,730 as of July 1, 2005 to 9,570 as of June 1, 2006. Total covered payroll increased by 3.0%, to a level of $869.9 million. As of June 1, 2006, LANL has 4,552 members currently receiving benefits, an increase of 12.1% from 2005. Total annual benefits in pay status increased by 21.8%, to a level of $161.1 million. There are also 1,780 terminated members who are entitled to future benefits. Within this group of terminated members, there are 992 terminated vested members who are entitled to a deferred or immediate vested monthly benefit and 788 terminated nonvested members who are entitled to a refund of member contributions or payment of their Capital Accumulation Provision (CAP) balance.
- The LANL transfer elections showed the following:
  - There were 6,532 active members who elected to transfer to LANS. As described earlier, we have continued to value these members as active UCRP members.
  - There were 1,239 active members who elected inactive status and were eligible to retire in UCRP. Consistent with current practice, we have assumed a July 1, 2006 commencement date for their retirement benefits.
  - There were 580 active members who elected inactive status and were vested in UCRP, but not yet eligible to retire. These members were valued as terminated vested members in this valuation.
  - There were 1,219 active members who were not vested in UCRP and did not elect to transfer to the LANS defined benefit plan. They are only eligible for a refund of member contributions and CAP balance payment. These members were valued as terminated nonvested members in this valuation due a refund of member contributions and CAP balance payment, if applicable.

- There were also 20 members who terminated prior to the valuation date and elected to transfer to the LANS defined benefit plan. These members were valued as either terminated vested or nonvested members in this valuation, depending on each member's circumstance.

10B. DATED *(SEE ITEM 13)*
December 21, 2005

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning 3 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS; IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO *(Specify authority)*: THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE-NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(Such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER *(Specify type of modification and authority)*: **By mutual agreement of the parties)**

E. IMPORTANT: Contractor is required to sign this document and return 3 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

The purpose of this modification is to document the transfer of assets and liabilities from the University of California Retirement Plan to LANS. The attached agreement is incorporated in its entirety.

Except as provided herein, all terms and conditions of the document referenced in Items 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Contract No: DOE-RP52-05NA25396 (Modification No: A017)

**AGREEMENT BETWEEN
THE DEPARTMENT OF ENERGY/NATIONAL NUCLEAR SECURITY ADMINISTRATION AND
LOS ALAMOS NATIONAL SECURITY LLC
CONCERNING
THE TRANSFER OF ASSETS AND LIABILITIES
FROM THE UNIVERSITY OF CALIFORNIA RETIREMENT PLAN
TO THE LANS DEFINED BENEFIT PENSION PLAN**

(a) **General.**

(1) The "Parties" means the Department of Energy, through the National Nuclear Security Administration (DOE/NNSA), and Los Alamos National Security, LLC (LANS).

(2) The "Agreement" means this Agreement between the Department of Energy/National Nuclear Security Administration and LANS concerning the Transfer of Assets and Liabilities from the University of California Retirement Plan (UCRP) to the LANS Defined Benefit Pension Plan ("LANS Plan"). This Agreement includes the following Exhibits:

(i) June 1, 2006, Los Alamos National Laboratory Special Interim Addendum Report (Exhibit 1)(Actuarial Valuation).

(ii) Proposed Approach for Asset Allocation for Transfer to the LANS Plan (Exhibit 2)(Asset Allocation).

(iii) Pricing Procedures for Asset Classes Held in the UCRP (Exhibit 3)(Pricing Procedures).

(iv) Estimated Asset Transfer Amount (Exhibit 4)(Estimation)., to be modified upon determination of the actual value at the Asset Transfer Date.

(3) Pursuant to H.008 of Contract No: W-7405-ENG-36 (Modification No: M620) between DOE and the Regents of the UC of California (UC), the assets and liabilities associated with the Los Alamos National Laboratory Segment (LANL Segment) of the UCRP have been accounted for separately each year by the Regents' actuary since the early 1990s at the request of DOE/NNSA.

(4) During the transition to management of Los Alamos National Laboratory (LANL) by LANS, employees of UC at LANL on May 31, 2006, who were either active, or rehired and reinstated as members of the UCRP, consistent with Section 2.17 of the LANS Plan, could elect to participate in the LANS Plan so that benefit liabilities under the UCRP attributable to their service prior to June 1, 2006 under UCRP, would be transferred from the UCRP to the LANS Plan effective June 1, 2006. Such individuals are collectively referred to as "Transferring Employees." The benefit liabilities transferred exclude any liabilities for Capital Accumulation Provision (CAP) accounts. The benefit liabilities transferred also exclude liabilities for benefits assigned by a qualified domestic relations order (QDRO) to a former spouse of an employee who elected to participate in the LANS Plan if the former spouse elected pursuant to procedures established by LANS and UC to retain his or her interest in UCRP. Collectively the excluded liabilities for CAP accounts and for alternate payees under QDROs who themselves elect to retain their interest in the UCRP shall be referred to as "Excluded Liabilities."

(5) Under the terms of the LANS Plan, as adopted by LANS on September 13, 2006, Transferring Employees began accruing benefits under the terms of the LANS Plan starting June 1, 2006. As provided in the LANS Plan, these individuals are also eligible to receive benefits under the LANS Plan attributable to service credited under the UCRP for employment prior to June 1, 2006, based upon the benefit provisions, payment options, and other terms of the LANS Plan. Transferring Employees waived any rights they might have had to benefits under the UCRP, except the Excluded Liabilities, which remain payable from the UCRP.

(b) <u>For and in consideration of the mutual understandings expressed herein, DOE/NNSA agrees and represents as follows</u>:

(1) DOE/NNSA will work with the Internal Revenue Service (IRS) to facilitate regulatory approval for the transfer of assets and liabilities described below from the UCRP to the LANS Plan.

(2) The costs, expenses, losses and penalties that LANS, the LANS Plan, or one or more fiduciaries of the LANS Plan reasonably incurs, as a direct result of the transfer of assets and liabilities from the UCRP to the LANS Plan (or the LANS Plan to the UCRP) as provided for in this Agreement, including transaction costs associated with rebalancing investments, will be assessed as costs of the LANS Plan to the extent permissible or, if not, separately invoiced. "Costs" for these purposes do not include losses on the value of assets sold in the rebalancing of investments. "Penalties" for these purposes are limited to those assessed to LANS, to one or more fiduciaries of the LANS Plan, or to the LANS Plan as a DIRECT result of performing those acts in conformance with the terms of this Agreement.

(3) DOE/NNSA will provide LANS with the following –

(i) A copy of the application submitted by UC to the IRS on June 17, 1999, for a Favorable Determination Letter that the UCRP, as amended, continues to satisfy the requirements of Code section 401(a).

(ii) UC's representation that the request has been held at the National Office of the IRS pending resolution of certain issues concerning cash balance plans.

(iii) UC's representation that UC recently received notification that its request is now being considered and that UC is committed to maintaining the tax-qualified status of the UCRP.

(iv) The Favorable Determination Letter from the IRS that was previously issued on the UCRP in 1997.

(v) UC's commitment to make any amendments to the UCRP necessary to obtain a Favorable Determination Letter from the IRS. Prior to the execution of this Agreement, UC will also provide an opinion from counsel for UC that the UCRP as amended for General Agreements on Tariffs and Trade, Uniformed Services Employment and Reemployment Rights of 1994, Small Business Job Protection Act, The Taxpayer Relief Act of 1997 (GUST) changes and as may be requested by the IRS is qualified under Section 401(a) of the Code as to form, its trust is exempt from taxation under Section 501(a) of the Code, and UC will make any amendments requested by the IRS as required to obtain a determination that the form of the UCRP continues to satisfy the requirements of Code section 401(a).

(vi) UC's certification that UC has determined that, priced as of May 31, 2006, as provided in the Pricing Procedures, the total market value of the assets allocated to the LANL Segment was $4,448,574,090 on May 31, 2006.

(vii) UC's certification that, as of midnight Pacific Time on May 31, 2006, the liabilities associated with the LANL Segment for benefits under the UCRP attributable to service at LANL prior to June 1, 2006, that are retained in the LANL Segment, including the Excluded Liabilities, were $3,169,811,239. Collectively, these liabilities, together with the associated assets, are referred to as the "Retained Segment."

(viii) UC's certification that, priced as of May 31, 2006, as provided in the Pricing Procedures, the market value of the assets to be transferred from the UCRP to the LANS Plan is $1,278,762,851 (Formula Amount) on May 31, 2006.

(ix) Certification from UC's enrolled actuaries that, if Code section 414(l) did apply to the spin off of assets and liabilities from the UCRP to the LANS Plan, the transfer of the Asset Transfer Amount as defined in subparagraph (d)(2) would comply with Code section 414(l) regarding the minimum level of assets to be transferred to the LANS Plan to cover the liabilities transferred and that UC will submit an IRS Form 5310-A to that effect for the spin off of assets and liabilities from the UCRP.

(x) UC's agreement to transfer the Asset Transfer Amount from the UCRP to the LANS Plan as of a date on or about April 2, 2007 (Asset Transfer Date); provided, however, that the transfer will be accomplished with an allocation of cash and an allocation of assets mutually agreed upon by the DOE/NNSA, LANS, and UC as set forth in Exhibit 2 attached to and made a part of this Agreement.

(xi) UC's agreement to cooperate with DOE/NNSA and LANS to determine and reconcile the Final Transfer Amount and the final liability transfer amount from the UCRP to the LANS Plan in accordance with the terms of this Agreement and applicable law. UC further agrees to cooperate with DOE/NNSA and LANS in finalizing the data and reconciliation to support any adjustments in the amount of assets and liabilities transferred from the UCRP to the LANS Plan that may be necessary after the Asset Transfer Date.

(xii) UC's agreement to provide data, documentation, and records reasonably requested for and on behalf of the LANS Plan for the proper establishment, maintenance and administration of the LANS Plan.

(xiii) UC's agreement that, if – in accordance with paragraph (c)(3) of this Agreement – LANS returns the Asset Transfer Amount (as adjusted pursuant to paragraphs (c)(3) and (d)(3) of this Agreement) and the remaining liabilities for service under the UCRP prior to June 1, 2006, to the UCRP, the UCRP will accept those assets and liabilities to the extent legally permissible.

(c) **<u>For and in consideration of the mutual understandings expressed herein, LANS agrees and represents as follows</u>**:

(1) LANS agrees to provide a copy of the application submitted by LANS on January 31, 2007, to the IRS for a Favorable Determination Letter that the LANS Plan satisfies the requirements of Section 401(a) of the Internal Revenue Code of 1986 (Code), including the requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) and all other applicable requirements, including those documented in the Cumulative List in Notice 2005-101. In that application, LANS also requested a determination that the LANS Plan's associated trust is tax-qualified within the meaning of Code section 501(a).

(2) LANS agrees to provide a copy of an opinion provided by LANS to DOE/NNSA from counsel for LANS that the LANS Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) as to form, that its trust is exempt from taxation under Section 501(a) of the Code, and that LANS will make any modifications requested by the IRS as required to obtain a Favorable Determination as to the qualified status of the LANS Plan.

(3) LANS agrees to return the Asset Transfer Amount (as defined in clause (d)(2) below) and the remaining liabilities for service under the UCRP prior to June 1, 2006, to the UCRP to the extent legally permissible (a) if LANS is unable to obtain a Favorable Determination from the IRS on the form of the LANS Plan; (b) if LANS, with the facilitation of DOE/NNSA, as described above, is unable to obtain IRS approval for the asset and liability transfer to the LANS Plan; or (c) if so ordered by a court of competent jurisdiction. To the extent legally permissible:

(i) The assets so returned to the UCRP shall be the Asset Transfer Amount adjusted by benefit distributions from the LANS Plan attributable to service credit earned prior to June 1, 2006, to the extent transferred to the LANS Plan, and an allocable share of the investment return and expenses incurred during the period from the Asset Transfer Date to the date the assets are returned to UCRP.

(ii) The allocable share of expenses to be offset against the assets returned to UCRP shall be an amount equal to the administrative expenses, excluding investment expenses, incurred during the period from the Asset Transfer Date to the date the assets are returned to UCRP, multiplied by the ratio of the liability of the Transferring Employees to the total liability of the LANS Plan on the Asset Transfer Date.

(iii) Solely for the purpose of calculating the ratio in (ii) above, the liability shall be based on the current liability under Code section 412(l) using the LANS Plan assumptions for current liability for the LANS plan year containing the Asset Transfer Date.

(iv) The allocable share of the investment return added to (or subtracted from) the assets returned to UCRP shall be determined in accordance with applicable fiduciary duties by applying the total rate of investment return, net of investment expenses, of the LANS Plan (during the period from the Asset Transfer Date to the date the assets are so returned to the UCRP) to the Asset Transfer Amount adjusted by benefit distributions attributable to service credit earned prior to June 1, 2006 and the allocable share of expenses determined above.

(v) The liabilities so returned to the UCRP shall be adjusted by benefit distributions attributable to service credit earned prior to June 1, 2006, to the extent of the liabilities transferred to the LANS Plan, and the obligations incurred by LANS on behalf of members of the LANS Plan under the LANS Defined Benefit Eligible Survivor Income Program and the LANS Defined Benefit Eligible Disability Program.

(4) LANS agrees to cooperate in finalizing the data and reconciliations to support any adjustments in the amount of assets transferred from the UCRP to the LANS Plan that may be necessary after the Asset Transfer Date. LANS agrees to assume full responsibility for payment of premiums to the Pension Benefit Guaranty Corporation for the LANS Plan. LANS also agrees to assume responsibility for the LANS Plan's compliance with the requirements of the Code; provided, however, that any costs, expenses, losses and penalties of compliance that directly result from compliance with this Agreement and/or with any other requirement imposed on LANS or the LANS Plan by UC and/or DOE will be handled in the manner provided in paragraph (b)(2) of this Agreement.

(5) LANS agrees that it has been given an adequate opportunity to review the proposed allocation of assets to be transferred from the UCRP to the LANS Plan, that it agrees that the valuation approach to be used with respect to the assets transferred is reasonable, and that it agrees to direct the trustee of the LANS Plan to accept the Asset Transfer Amount into the LANS Plan as of the Asset Transfer Date.

(6) LANS agrees that it will maintain the special schedule (or the data necessary to create the special schedule) as required by Code section 414(l), and that it will file IRS Form 5310-A to this effect for the merger of the assets and liabilities into the LANS Plan.

(7) LANS agrees that, upon transfer of the Asset Transfer Amount from the UCRP to the LANS Plan pursuant to this Agreement and in accordance with the Agreement between DOE/NNSA and UC concerning the Transfer of Assets and Liabilities from the UCRP to the LANS Plan, all liabilities of the UCRP, UC and the Regents for the benefits under the UCRP attributable to service prior to June 1, 2006, associated with the Transferring Employees – with the exception of Excluded Liabilities retained in the UCRP – will be extinguished.

(d) For and in consideration of the mutual understandings and the certifications expressed herein, LANS and DOE/NNSA agree as follows:

(1) Formula Amount

(i) The Parties are mutually relying upon obtaining approval from the IRS for the Formula Amount.

(ii) The Formula Amount ($1,278,762,851) was determined based upon the Actuarial Valuation as of May 31, 2006, the effective date of disaffiliation.

(2) Asset Transfer Amount

The Asset Transfer Amount is the Formula Amount adjusted to the Asset Transfer Date to reflect the following factors occurring during the period beginning June 1, 2006, and ending on or near the Asset Transfer Date: the portion of the total return earned by the UCRP portfolio allocable to the Formula Amount of the LANL Segment; administrative expenses allocable to the Formula Amount of the LANL Segment; buybacks for the UCRP service credit attributable to the UCRP benefits of Transferring Employees (apart from the CAP accounts); and any interim distributions agreed to by DOE/NNSA from the UCRP made to the LANS Plan and/or to LANS Plan members or their beneficiaries or alternate payees pursuant to a QDRO. See Determination of Asset Transfer Amount (Exhibit 4) estimating the Asset Transfer Amount, based upon preliminary accounting through February 28, 2007, to be modified on or before April 15, 2007, upon determination of the actual value at the Asset Transfer Date. The administrative expenses allocated to the LANL Segment shall not include any losses or penalties which cannot be charged to the LANL Segment.

(3) Final Transfer Amount

UC, DOE, and LANS acknowledge and agree that the Asset Transfer Amount transferred on the Asset Transfer Date may need to be subsequently adjusted to reflect – with respect to certain assets – final earnings figures and other final performance numbers that may be received by UC after the Asset Transfer Date, other investment-related adjustments and any data corrections related to the calculations supporting the Asset Transfer Amount, but not available on the Asset Transfer Date, as well as to make any adjustments necessary to obtain appropriate regulatory approval. Any additional transfers of assets between the UCRP and the LANS Plan as may be needed to make such adjustments will be made as soon as practicable following the Asset Transfer Date.

(4) Corrections

The Parties agree that LANS will provide prompt notice of any errors or omissions in data used to calculate the Asset Transfer Amount discovered after the Asset Transfer Date that would have had an effect on the Asset Transfer Amount had such error or omission been recognized prior to April 2, 2007. The Parties shall determine how to correct the error or omission with as minimum an administrative burden on the Parties as possible.

(5) Third Party Beneficiaries

This Attachment, including its Exhibits, is for the exclusive benefit and convenience of the Parties hereto. Nothing contained herein shall be construed as granting, vesting, creating or conferring any right of action or any other right or benefit upon past, present or future employees of the Contractor, upon any participants or beneficiaries of the UCRP, as amended from time to time, or upon any other third party. Notwithstanding the foregoing, UC may rely on the representations made by LANS in subparagraph (c) of this Agreement provided that UC has entered into an enforceable agreement with the DOE/NNSA providing that LANS may rely on the representations provided by UC described in subparagraph (b)(3) of this Agreement.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date(s) indicated below.

Ms. Judith W. Boyette
Associate Vice President, Human Resources and Benefits
University of California
1111 Franklin Street, 7th Floor
Oakland, California 94607-5200

Dear Associate Vice President Boyette:

We are pleased to submit this Actuarial Valuation Report as of June 1, 2006 for the University of California Retirement Plan ("UCRP" or "Plan"). It summarizes the actuarial data used in the valuation, includes results both before and after reflecting the transfer elections and analyzes the preceding year's experience for Los Alamos National Laboratory.

The census and unaudited financial information on which our calculations were based was provided by the UC HR/Benefits Staff. That assistance is gratefully acknowledged. The actuarial calculations were completed under the supervision of John Monroe, ASA, MAAA, Enrolled Actuary.

This actuarial valuation has been completed in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information supplied in this actuarial valuation is complete and accurate. Further, in our opinion the assumptions as approved by the Regents are reasonably related to the experience of and future expectations for the Plan.

We look forward to reviewing this report and to answering any questions.

Sincerely,

THE SEGAL COMPANY

SECTION 1

EXECUTIVE SUMMARY

SECTION 2

SUPPLEMENTAL INFORMATION

SECTION 3

REPORTING INFORMATION

SECTION 1: Executive Summary for the University of California Retirement Plan – Los Alamos National Laboratory

Purpose

This special addendum report presents the results for Los Alamos National Laboratory (LANL) of the June 1, 2006 actuarial valuation of the University of California Retirement Plan (UCRP). Results from the prior valuation are shown for comparison. The report is published for the purpose of complying with the requirements of Contract No. W-7405-ENG-36 (Contract 36), Modification No. M602. The report is based on the procedures specified in Modification No. M602.

Contributions

The Department of Energy (DOE) has agreed to fund the employer cost of UCRP at the contribution rates established from time to time by the Regents, as long as the contributions do not exceed the full funding limit defined in the Internal Revenue Code, Section 412. This interim valuation report does not calculate recommended contributions.

Significant Issues in Valuation Year

LOS ALAMOS NATIONAL LABORATORY TRANSFER OF ASSETS AND LIABILITIES

- The University of California contract to manage the Los Alamos National Laboratory (LANL) expired on May 31, 2006. The Department of Energy (DOE) executed a new management and operations contract effective June 1, 2006 with Los Alamos National Security, LLC (LANS). Under the terms of the LANS contract, LANS will sponsor a defined benefit pension plan that is substantially equivalent to the provisions of the UCRP. Assets and liabilities will be transferred from UCRP to the LANS defined benefit plan for the LANL employees who elected to transfer to the new plan, provided the necessary and advisable rulings on the plans and proposed transactions are obtained from the appropriate regulatory agencies.
- There are 6,532 active members who elected to transfer to the LANS defined benefit plan. Their actuarial accrued liability as of June 1, 2006 is approximately $1.4 billion, excluding the liability for their CAP benefits that will be retained by UCRP. This liability is reflected in our valuation results and included with the UCRP active member liabilities. This liability is based on the current UCRP actuarial assumptions, methods and plan provisions. The liability for these members as determined for the LANS defined benefit plan will almost certainly be different, as it will be based on the LANS benefit provisions and the actuarial assumptions and methods used by the LANS actuary.

Significant Issues in Valuation Year (continued)

- The LANL transfer elections reflected in this valuation are based on the transfer election data provided by the University as of August 24, 2006. There were minor changes to this information made later, but we do not believe these changes have a material impact on the valuation results.
- The amount of assets to be retained in UCRP for LANL members who have retired or are inactive, and the amount of the assets that will be transferred to the LANS defined benefit plan for the transitioning employees who elected to participate in the LANS defined benefit plan will follow the "A – B" formula listed in Contract 36, Clause H. "A" represents the market value of UCRP assets associated with UCRP members' LANL service during the performance of Contract 36 and is $4.449 billion. "B" represents the liability associated with those LANL members who are retired or inactive and retained by UCRP and is $3.170 billion. The amount of assets as of June 1, 2006 to be transferred from UCRP to the LANS defined benefit plan is "A – B", or $1.279 billion. The amount to be transferred will be adjusted for investment return, allocable expenses and any other appropriate adjustments through the anticipated transfer date of early April 2007.
- While this valuation includes results reflecting the LANL transfer elections, it does not reflect the actual transfer of assets and liabilities to the LANS defined benefit plan. This means that the results of this valuation include liabilities even for members who have elected to transfer to the LANS defined benefit plan. As noted above, we have continued to value these members as active UCRP members and their liabilities are shown as active in the results. LANL employees **who elected not** to transfer to the LANS defined benefit plan are included in the valuation results either as terminated vested or nonvested members. Consistent with current practice, for those terminated members who were eligible for retirement, we have assumed a July 1, 2006 commencement date for their retirement benefits.

ASSETS

- During the July 1, 2005 through May 31, 2006 period, the rate of return on the unaudited market value of assets was 7.2%. Due to the recognition of prior investment losses, the rate of return on the actuarial value of assets was 5.5%, which is below the expected annual return of 7.5% (6.9% for an 11-month period).

FUNDED RATIO

- The funded ratio for LANL's portion of the Plan on an actuarial basis decreased from 99% as of July 1, 2005 to 92% as of May 31, 2006 before reflecting elections and 94% as of May 31, 2006 after reflecting elections. The LANL portion of the Plan remains in an underfunded position as the actuarial accrued liability exceeds the actuarial value of assets by $357 million as of June 1, 2006 before reflecting elections and $261 million as of June 1, 2006 after reflecting the transfer elections.

Significant Issues in Valuation Year (continued)

FUTURE EXPECTATIONS

- No contributions were recommended for the 2005-2006 Plan Year. This was due to the application of the full funding policy that the Regents adopted in 1990. Member contributions are all currently being redirected to the UC Defined Contribution Plan. It is expected that UCRP's surplus will run out in the next few years and may run out as soon as July 1, 2008.

DEMOGRAPHIC EXPERIENCE

- Prior to reflecting the LANL transfer elections, the number of UCRP active members considered LANL employees for valuation purposes decreased by 1.6% from 9,730 as of July 1, 2005 to 9,570 as of June 1, 2006. Total covered payroll increased by 3.0%, to a level of $869.9 million. As of June 1, 2006, LANL has 4,552 members currently receiving benefits, an increase of 12.1% from 2005. Total annual benefits in pay status increased by 21.8%, to a level of $161.1 million. There are also 1,780 terminated members who are entitled to future benefits. Within this group of terminated members, there are 992 terminated vested members who are entitled to a deferred or immediate vested monthly benefit and 788 terminated nonvested members who are entitled to a refund of member contributions or payment of their Capital Accumulation Provision (CAP) balance.
- The LANL transfer elections showed the following:
  - There were 6,532 active members who elected to transfer to LANS. As described earlier, we have continued to value these members as active UCRP members.
  - There were 1,239 active members who elected inactive status and were eligible to retire in UCRP. Consistent with current practice, we have assumed a July 1, 2006 commencement date for their retirement benefits.
  - There were 580 active members who elected inactive status and were vested in UCRP, but not yet eligible to retire. These members were valued as terminated vested members in this valuation.
  - There were 1,219 active members who were not vested in UCRP and did not elect to transfer to the LANS defined benefit plan. They are only eligible for a refund of member contributions and CAP balance payment. These members were valued as terminated nonvested members in this valuation due a refund of member contributions and CAP balance payment, if applicable.

- There were also 20 members who terminated prior to the valuation date and elected to transfer to the LANS defined benefit plan. These members were valued as either terminated vested or nonvested members in this valuation, depending on each member's circumstance.

SECTION 2: Supplemental Information from the Valuation of the University of California Retirement Plan – Los Alamos National Laboratory

(a) Actuarial loss	$173,537,765	
(b) Total changes		173,537,765
7. Unfunded/(Overfunded) actuarial accrued liability at end of year, before reflecting LANL transfer elections		$356,879,603
8. Effect of reflecting LANL transfer elections		(96,114,469)
9. Unfunded/(Overfunded) actuarial accrued liability at end of year, after reflecting LANL transfer elections		$260,765,134

* *Results have been adjusted for the eleven month period as necessary.*

EXHIBIT L

Section 415 Limitations

Section 415 of the Internal Revenue Code (IRC) specifies the maximum benefits that may be paid to an individual from a defined benefit plan and the maximum amounts that may be allocated each year to an individual's account in a defined contribution plan.

A qualified pension plan may not pay benefits in excess of the Section 415 limits. The ultimate penalty for non-compliance is disqualification: active participants could be taxed on their vested benefits and the IRS may seek to tax the income earned on the plan's assets.

In particular, Section 415(b) of the IRC limits the maximum annual benefit payable at the Normal Retirement Age to a dollar limit indexed for inflation. That limit is $170,000 for 2005 and $175,000 for 2006. Normal Retirement Age for these purposes is age 62. These are the limits in simplified terms. They must be adjusted based on each participant's circumstances, form of benefits chosen and after tax contributions.

The University pays benefits in excess of the limits through a 415(m) Restoration Plan.

Legal Counsel's review and interpretation of the law and regulations should be sought on any questions in this regard.

EXHIBIT M

Definitions of Pension Terms

The following list defines certain technical terms for the convenience of the reader:

Assumptions or Actuarial Assumptions: The estimates on which the cost of the Plan is calculated including:

(a) Investment return — the rate of investment yield that the Plan will earn over the long-term future;

(b) Mortality rates — the death rates of employees and pensioners; life expectancy is based on these rates;

(c) Retirement rates — the rate or probability of retirement at a given age;

(d) Turnover rates — the rates at which employees of various ages are expected to leave employment for reasons other than death, disability, or retirement.

Normal Cost: The amount required to fund the level cost allocated to the current year of service.

Actuarial Accrued Liability for Actives: The accumulated value of normal costs allocated to the years before the valuation date.

Actuarial Accrued Liability for Pensioners: The single sum value of lifetime benefits to existing pensioners. This sum takes account of life expectancies appropriate to the ages of the pensioners and of the interest that the sum is expected to earn before it is entirely paid out in benefits.

Unfunded (Overfunded) Actuarial Accrued Liability: The extent to which the actuarial accrued liability of the Plan exceeds (or is exceeded by) the assets of the Plan. There are many approaches to recognizing the unfunded or overfunded actuarial accrued liability, from meeting the interest accrual only to amortizing it over a specific period of time.

Amortization of the Unfunded (Overfunded) Actuarial Accrued Liability:	Payments made over a period of years equal in value to the Plan's unfunded or overfunded actuarial accrued liability.
Investment Return:	The rate of earnings of the Plan from its investments, including interest, dividends and capital gain and loss adjustments, computed as a percentage of the average value of the fund. For actuarial purposes, the investment return reflects a smoothing of market gains and losses to avoid significant swings in the value of assets from one year to the next.
Current Liability:	The actuarial present value of accumulated plan benefits.
Beneficiary:	Used for statistical purposes only; includes Eligible Survivors, Contingent Annuitants and Spouses/Domestic Partners

SECTION 3: Reporting Information from the Valuation of the University of California Retirement Plan – Los Alamos National Laboratory

EXHIBIT I

Actuarial Assumptions and Methods

Demographic Assumptions

Post – Retirement Mortality Rates:

Healthy: 1994 Group Annuity Reserving Mortality Table unloaded, projected with scale AA to 2002. Ages are set back two years for males (from the male table) and set back one year for females (from the female table).

Disabled: Based upon 1987 Group Long Term Disability Table (composite select and ultimate rates).

Retirement Age and Benefit for Deferred Vested Members:	Deferred vested members are assumed to retire at age 50.
Form of Payment:	Life annuity for single members; 25% contingent annuity for members with Social Security in a relationship for at least one year; 50% contingent annuity for members without Social Security in a relationship for at least one year; 50% contingent annuity for Safety members in a relationship for at least one year.
Future Benefit Accruals:	1.0 year of service per year for the full-time employees. Part-time employees are assumed to earn full-time service for all future years.
Definition of Active Members:	All members of UCRP who are not separated from active employment as of the valuation date or have not started receiving a monthly pension on or before the valuation date. The results of this valuation include liabilities even for members who have elected to transfer to the LANS defined benefit plan. These members are still valued as active UCRP members and their liabilities are shown as active in the results.

Percent with Eligible Dependents (Samples):

Age	Male	Female
20	58.00%	66.50%
25	85.00	89.50
30	91.50	92.50
35	93.00	94.00
40	93.50	93.50
45	94.00	92.50
50	95.00	91.00
55	94.50	89.00
60	94.00	85.00
65	93.00	80.00

Spouse/Domestic Partner Ages: Members assumed to have an opposite sex spouse or domestic partner, with females three years younger than males.

Number of Dependents (Samples):

	Number of Eligible Dependents per Active Member with Dependents	
Age	Male	Female
20	1.0	1.0
25	1.8	2.3
30	2.3	3.2
35	3.0	3.1
40	3.5	2.5
45	3.0	2.0
50	2.5	1.5
55	2.0	1.3
60	1.5	1.1
65	1.3	1.1

Economic Assumptions

Net Investment Return: 7.50% (including 4.00% for inflation)

Consumer Price Index: Increase of 4.00% per year.

Salary Increases (Samples):

Annual Rate of Compensation Increase

The sum of 4.00% inflation (at all ages) plus the following Merit and Longevity increases:

Age	
20	2.50%
25	2.50%
30	2.10%
35	1.70%
40	1.50%
45	1.30%
50	1.20%
55	1.10%
60	0.90%

The assumed salary increases will be 2.0% lower overall for the period June 1, 2006 through June 30, 2007.

Administrative Expenses: 0.5% of payroll added to normal cost.

Actuarial Methods

Actuarial Value of Assets: The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual and the expected returns on a market value basis and is recognized over a five-year period.

For assets allocated to LANL, this is approximated as the total UCRP actuarial value multiplied by the ratio of market value of LANL allocated assets to the total UCRP market value.

Actuarial Cost Method:	Entry Age Normal Actuarial Cost Method. Entry Age is calculated as the valuation date minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salaries, as if the current benefit accrual rate has always been in effect.
Other Actuarial Assumptions	
Lump Sum Assumptions:	
Discount Rate:	7.50%
COLA:	2.00%
Take-rate:	None assumed.
Mortality:	1994 Group Annuity Reserving Mortality Table unloaded for males set back three years, projected with scale AA to 2002.
Approximations:	
Guaranteed Survivor and Disability Benefits	Liability and normal cost for guaranteed survivor and disability benefits for members who elected Social Security was estimated as 10% of their basic liability and normal cost.
Sick Leave	Service has been increased by 0.2% for faculty, 1.4% for staff, and 2.5% for safety members to account for unused sick leave.
Changes in Assumptions:	There have been no changes in actuarial assumptions since the previous valuation.

EXHIBIT II

Summary of Plan Provisions

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Effective Date:	April 24, 1954. Includes amendments through June 1, 2006.
Covered Employees:	Generally all employees who are not members of another retirement system to which the Regents contribute, and who: a. Are appointed to work 50% time or more for one year or longer or b. Have generally accumulated at least 1,000 hours in a 12-month period.
Highest Average Plan Compensation (HAPC):	Highest average monthly full-time-equivalent base compensation rate received during any period of 36 consecutive months.

Age Factor: Percentage of HAPC per year of service credit (interpolated for fractional ages).

Nonsafety Members

Age	Factor	Age	Factor
50	1.10%	56	1.94%
51	1.24	57	2.08
52	1.38	58	2.22
53	1.52	59	2.36
54	1.66	60+	2.50
55	1.80		

Safety Members 3.0% at all ages 50 and above.

Tier II Members Equal to one-half of the Age Factor for Nonsafety Members.

Benefit Percentage: Age Factor multiplied by years of service credit; not to exceed 100%.

Basic Retirement Income (BRI):

Members without Social Security Benefit Percentage x HAPC.

Members with Social Security Benefit Percentage x HAPC in excess of $133 per month.

Safety Members Benefit Percentage x HAPC.

Service Retirement:	
Eligibility	Age 50 with 5 years of service credit, or Age 62 regardless of service credit if membership began on or before July 1, 1989, or Retirement on Normal Retirement Date.
Benefit	BRI.
Form of Payment	Single Life Annuity.
Payment Options	Full continuance to contingent annuitant; two-thirds continuance to contingent annuitant; one-half continuance to contingent annuitant; one-half continuance (including post-retirement survivor continuance) to surviving spouse or domestic partner (for members with Social Security only).
Lump Sum Cashout	May be elected in lieu of monthly retirement income.
Temporary Social Security Supplement:	
Eligibility	For members with Social Security only and retirement must occur before age 65.
Benefit	Temporary annuity payable to age 65 in the amount of $133 per month multiplied by Benefit Percentage.
Form of Payment	Single Life Annuity.
Payment Options	None.

Disability:

Eligibility	Disablement after five years of service credit; safety members are eligible for duty disability without regard to years of service credit. Service credit continues to accrue during disabled period.
Benefit	
Member without Social Security	25% of final salary, plus 5% of final salary per year of service credit greater than two, total not to exceed 40% of final salary, plus 5% of final salary for each eligible child, total not to exceed 20% of final salary.
Member with Social Security	15% of final salary, plus 2.5% of final salary per year of service credit greater than two, total not to exceed 40% of final salary, less $106.40 per month.
Safety Members(Non-duty)	Same as for members without Social Security; includes eligible child's benefit.
Safety Members(Duty)	50% of HAPC, or non-duty disability benefit if greater.
Form of Payment	Single life annuity payable until end of disability income period or retirement date if earlier.
Disability Income Period	
Members disabled before November 5, 1990	To earliest of: Date member is eligible to retire and retirement income equals or exceeds disability income; Age 62 (age 67 for members without Social Security); or Date member retires.
Members disabled on or after November 5, 1990	If under age 65 at disablement: Members with Social Security: to age 65 or five years if longer. Members without Social Security: to age 67 or five years if longer. If age 65 or older at disablement: to age 70 or 12 months if longer. Disability income ends if member is no longer disabled.

Vested Termination:

Eligibility	Five years of service credit, or age 62 regardless of service credit if membership began on or before July 1, 1989.
Benefit	BRI beginning at age 50 or later, calculated using HAPC at termination date, adjusting for CPI changes (see Cost-of-Living Adjustment), and benefit formula in effect when benefits commence.
Form of Payment	As for retirement.
Payment Options	As for retirement.
Refund Option	Member may elect a refund of contributions with interest, thereby forfeiting all other benefits.
Lump Sum Cashout	May be elected in lieu of retirement income, available only if at least age 50 with five years service credit at date of termination.

Pre-retirement Survivor Income:

Eligibility

Eligible survivor of deceased active or disabled member with two or more years of service credit; no service requirement for duty-related death of Safety member.

Benefit

Member without Social Security

Percent of final salary as follows:

Eligible Survivors	Percent	Minimum Benefit
1	25%	$200
2	35	$300
3	40	$300 plus 5% of final salary
4	45	$300 plus 10% of final salary
5+	50	$300 plus 15% of final salary

Member with Social Security

25% of final salary less $106.40 per month.

Safety Members, non-duty death

As for members without Social Security.

Safety Members, duty death

Percentage of HAPC as follows, but not less than benefit for non-duty death.

Eligible Survivors	Percent of HAPC
1	50.0%
2	62.5
3	70.0
4+	75.0

Death while eligible to retire

Eligibility

Eligible surviving spouse or domestic partner of active, disabled or inactive member who dies while eligible to retire.

Benefit

Greater of benefit described above or monthly benefit to surviving spouse or domestic partner assuming member had retired on date of death and elected full continuance option with spouse or domestic partner as contingent annuitant.

Post-retirement Survivor Continuance:	
Eligibility	Eligible survivor of deceased retired member.
Benefit	
Member without Social Security	50% of BRI including COLA.
Member with Social Security	25% of BRI including COLA, plus 25% of Temporary Social Security Supplement (ends when member would have reached age 65).
Safety Members	50% of BRI including COLA.
Lump Sum Death Benefit:	
Eligibility	Active, inactive, disabled, or retired member.
Basic Benefit	
Active member who became a member before October 1, 1990	Greater of : $1,500 plus one month's final salary, or $7,500.
All others	$7,500
Residual Benefit	Refund of member contributions plus interest, reduced by a portion of benefits received (100% of retirement income, 50% of pre-retirement survivor income or disability income) payable to beneficiary if no survivor, surviving spouse, domestic partner, or contingent annuitant.
Normal Retirement Date:	Attainment of age 60 with five years of service credit.

Eligible Survivor:	
Eligible Spouse or Domestic Partner	Spouse or domestic partner of deceased active or disabled member in relationship for at least one year before date of death and who is: Responsible for care of eligible child, disabled, or age 60 (age 50 if spouse of member without Social Security and in Plan prior to October 19, 1973).
Eligible Child	Child that is either under age 18, under age 22 and full-time student, or disabled, if disability occurred prior to age 18 or age 22 if a full-time student.
Eligible Dependent Parent	Parent of deceased active, disabled or retired member, supported by 50% or more by member for one year prior to earliest of death, disablement or retirement.
Inactive Member:	Former UCRP member who retains right to vested benefits.
Cost-of-Living Adjustment:	
Basic	100% of annual Consumer Price Index (CPI) increase up to 2% per year.
Supplemental	Greater of: 75% of annual CPI increase above 4%, or accumulated increment. Accumulated increment: 2% compounded annually from the member's COLA eligibility date through the current date, less 2%. The sum of the Basic and Supplemental COLA's cannot exceed 6% in a year.
COLA applies to:	
Retired members, survivors, disabled members, and contingent annuitants receiving retirement income	Benefits in pay status one or more years on July 1.
Inactive members	HAPC (used to calculate retirement income) adjusted for COLA up to 2% per year from separation date to retirement date; retirement income adjusted using COLA formula.
Disabled members receiving disability income since before November 5, 1990	HAPC (used to calculate retirement income) adjusted for COLA up to COLA formula above for years from disablement to retirement date.

Capital Accumulation Provision(CAP):	
Eligibility	Active member on specified date; benefits immediately vested.
Allocation Dates	
April 1, 1992	Active member from December 31, 1991 through April 1, 1992: 5.0% of 1991 calendar year covered compensation.
July 1, 1992	Active member on July 1, 1992: 2.5% of 1991-1992 fiscal year covered compensation.
July 1, 1993	Active member on July 1, 1993: 2.5% of 1992-1993 fiscal year covered compensation.
November 1, 1993	Active member on October 1, 1993 and subject to 1993-1994 salary plan: 5.26% of July through October 1993 covered compensation. Not applicable for laboratory members.
July 1, 1994	Active member on June 1, 1994 and subject to 1993-1994 salary plan: 2.67% of November 1993 through June 1994 covered compensation. Not applicable for laboratory members.
May 1, 2002	Active member on April 1, 2002: 3.0% of April 2001 through March 2002 covered compensation.
May 1, 2003	Active member on April 1, 2003: 5.0% of April 2002 through March 2003 covered compensation.
Interest Credit	Regent's approved interest rate; currently 8.5% per year for pre-2002 CAPs and 7.5% for 2002 and later CAPs (CAP II).
Payment	Lump sum payment upon termination, retirement or death.
University Contributions:	Determined by the Entry-Age Normal Cost method. Beginning with the 1990 plan year, the Regents adopted a full funding policy. Under that policy, the University will suspend contributions when the smaller of the market value or the actuarial value of plan assets exceeds the lesser of: The actuarial accrued liability (including normal cost), or 150% of the estimated current liability (including normal cost).

Member Contributions:	Member contributions are currently being redirected to the UC Defined Contribution Plan.
Members without Social Security	3.0% of covered compensation, less $19 per month.
Members with Social Security	2.0% of covered compensation up to the Social Security wage base, plus 4.0% of excess covered compensation, minus $19 per month.
Safety Members	3.0% of covered compensation, less $19 per month.
Interest Credit	Regent's approved interest rate; currently 6.0% per year.
Changes in Plan Provisions:	There have been no changes in plan provisions since the last valuation that have a material impact on Plan liabilities and normal cost. Active members at the Los Alamos National Laboratory made an election to either become inactive in UCRP or to transfer to a defined benefit plan that begins effective June 1, 2006 for the Los Alamos National Security LLC (LANS). This valuation includes results reflecting the LANL transfer elections. However, it does not reflect the actual transfer of assets and liabilities to the LANS defined benefit plan. This means that the results of this valuation include liabilities even for members who have elected to transfer to the LANS defined benefit plan. These members are still valued as active UCRP members and their UCRP liabilities are shown as active in the results. LANL members **who elected not** to transfer to the LANS defined benefit plan are included in the valuation results either as terminated vested or nonvested members. Consistent with current practice, for those terminated members who were eligible for retirement, we have assumed a July 1, 2006 commencement date for their retirement benefits.

EXHIBIT

2

Exhibit 2--Proposed Approach for Asset Allocation for Transfer to the LANS Plan

The following is an illustration of the approach to determine the amount of each investment to be transferred from the University of California Retirement Plan (UCRP) to the Los Alamos National Security, LLC, Defined Benefit Plan (LANS Plan) based on a hypothetical transfer amount of $1.279 billion on a hypothetical transfer date of December 31, 2006.

Amount of hypothetical transfer from UCRP to the LANS Plan: $ 1,279,000,000.00 (Note 1)

PRICING PROCEDURES FOR ASSET CLASSED HELD IN UNIVERSITY OF CALIFORNIA RETIREMENT PLAN

The asset classes held in the University of California Retirement Plan (UCRP) will be priced according to the Pricing Procedures described in the chart attached hereto as Attachment 1. The Pricing Procedures are used by State Street Investor Services ("State Street"), the custodian of the UCRP trust, to price the assets of the UCRP generally. The procedures are subject to State Street's internal controls that are regularly tested and evaluated by an independent auditor.

Attached hereto as Attachment 2 is the Report of Independent Service Auditors (Report) on State Street's internal controls related to its recordkeeping and custody services. The Report was prepared by PriceWaterhouseCoopers for the period April 1, 2006 through September 30, 2006 in accordance with standards established by the American Institute of Certified Public Accountants (Statement on Auditing Standards No. 70, as amended).

Attached hereto as Attachment 3 are the relevant pages from Section V of the Report that address controls providing reasonable assurance that securities are valued completely and in accordance with client instructions.

Report of Independent Service Auditors

To the Management and the Board of Directors of State Street Corporation

We have examined the accompanying description of the controls surrounding the custody and recordkeeping functions of State Street Corporation ("State Street") applicable to the processing of transactions and the safekeeping of assets for customers of State Street's Investor Services ("Investor Services"), including its operations and related support areas in Australia, Canada, Germany, Hong Kong, India, Ireland, Japan, Luxembourg, Singapore, South Africa, the United Kingdom and the United States of America, as described in Section II A. Our examination included procedures to obtain reasonable assurance about whether: (1) the accompanying description included in Sections II through V presents fairly, in all material respects, the aspects of State Street's controls that may be relevant to the internal control relating to recordkeeping and custody of the assets of customers of Investor Services as it relates to an audit of financial statements, (2) the controls as described in Section V were suitably designed to achieve the control objectives specified in Section V, if those controls were complied with satisfactorily and customers and subservicers of Investor Services applied the controls contemplated in the design of State Street's controls, as described in Section II E, and (3) such controls had been placed in operation as of September 30, 2006. Investor Services uses various subservice organizations to obtain information and to perform various functions related to the recordkeeping for and the custody of assets. The accompanying description includes only those controls and related control objectives of State Street's Investor Services and supporting areas, and does not include controls and related control objectives at the subservice organizations described in Section II E. Our examination did not extend to controls of these subservice organizations. The control objectives were specified by the management of State Street. Our examination was performed in accordance with standards established by the American Institute of Certified Public Accountants (Statement on Auditing Standards No. 70, as amended), and also considered the following international standards:

- Section 5970 of the Canadian Institute of Chartered Accountants (CICA) Handbook,
- Financial Reporting and Auditing Group (FRAG) 21/94 (Revised) [Audit 4/97] issued by the Institute of Chartered Accountants in England and Wales,
- Australian Auditing Standard AUS 404 issued by the Australian Accounting Research Foundation on behalf of the Australian Society of Certified Practicing Accountants and the Institute of Chartered Accountants in Australia,
- New Zealand Auditing Standard AS 404 issued by the Institute of Chartered Accountants of New Zealand,
- Hong Kong Institute of Certified Public Accountants Practice Note 860.2,
- Japanese Institute of Certified Public Accountants (Audit Standards Committee Report No. 18), and
- International Federation of Accountants International Standard on Auditing 402

PRICEWATERHOUSECOOPERS

and included those procedures we considered necessary in the circumstances to obtain a reasonable basis for rendering our opinion.

In our opinion, the accompanying description of the aforementioned controls presents fairly, in all material respects, the relevant aspects of State Street's controls that had been placed in operation as of September 30, 2006. Also, in our opinion, the controls, as described in Section V of this report, are suitably designed to provide reasonable assurance that the specified control objectives would be achieved if the described controls were complied with satisfactorily and customers and subservicers of Investor Services applied the controls contemplated in the design of State Street's controls.

In addition to the procedures we considered necessary to render our opinion as expressed in the preceding paragraph, we applied tests to specific controls, listed in Section V, to obtain evidence about their effectiveness in meeting the related control objectives during the period from April 1, 2006 to September 30, 2006. The specific controls, related control objectives, and the nature, timing, extent and results of the tests are described in Sections V and VI of this report. This information has been provided to customers of Investor Services and to their auditors to be taken into consideration, along with information about the internal control at customer organizations, when making assessments of control risk for customer organizations. In our opinion the controls that were tested, as described in Section V, were operating with sufficient effectiveness to provide reasonable, but not absolute, assurance that the related control objectives specified were achieved during the period from April 1, 2006 to September 30, 2006. However as described in Section II, the scope of our examination did not include tests of operating effectiveness of certain control activities in every location and accordingly, State Street anticipates that user auditors will evaluate the operating effectiveness of such controls outlined in Section V.

The relative effectiveness and significance of specific controls at State Street and their effect on assessments of control risk at customers of Investor Services are dependent on their interaction with the controls and other factors present at individual customer organizations. We have performed no procedures to evaluate the effectiveness of controls at individual customers of Investor Services.

The description of controls at State Street is as of September 30, 2006, and information about tests of the operating effectiveness of specific controls covers the period from April 1, 2006 to September 30, 2006. Any projection of such information to the future is subject to the risk that, because of change, the description may no longer portray the controls in existence. The potential effectiveness of specific controls at State Street is subject to inherent limitations and, accordingly, errors or fraud may occur and not be detected. Furthermore, the projection of any conclusions, based on our findings, to future periods is subject to the risk that (1) changes made to the system or controls, (2) changes in processing requirements, or (3) changes required because of the passage of time may alter the validity of such conclusions.

PRICEWATERHOUSECOOPERS

To the Management and the Board of Directors of State Street Corporation
Page 3

The information included in Section VII of this report is presented by State Street to provide additional information to user organizations and is not part of State Street's description of controls placed in operation. The information in Section VII has not been subjected to the procedures applied in the examination of the description of controls of Investor Services, and accordingly, we express no opinion on it.

This report is intended solely for use by the management of State Street, customers of Investor Services and the independent auditors of such customers.

PricewaterhouseCoopers LLP

November 30, 2006

STATE STREET.

State Street Corporation
P.O. Box 351
Boston, MA 02101

November 30, 2006

Report by the Management of State Street

As Management of State Street, we are responsible for the design, implementation and maintenance of State Street's controls and for the declarations and assertions in this report. In carrying out this responsibility, we have had regard not only to the interests of clients, but also to those of the owners of the business and the general effectiveness and efficiency of its operations.

The controls surrounding relevant recordkeeping and custody functions of State Street's Investor Services are described in Overview Sections II-V of this report. Investor Services controls are established in order to provide the necessary level of protection for the assets entrusted to our care and to ensure that transactions are properly recorded. This level of protection is more specifically defined in terms of control objectives, as well as controls established to meet each of these objectives, as detailed in Section V of this report. Appropriate controls have been in place and operating effectively throughout the period from April 1, 2006 to September 30, 2006.

Signed on behalf of the Management of State Street

Ronald E. Logue
Chairman and Chief Executive Officer

Relevant Pages from Section V—State Street Investor Services

Global Controls Examination

Control Objective 8

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
Global Pricing Services ("GPS") located in the U.K. and U.S. provides pricing support services for NAVigator and MCH to State Street's global client base. Clients requiring daily pricing primarily use the NAVigator system. Clients requiring less time-critical, non-daily valuations primarily use MCH. GPS in the U.S. provides exchange rates to State Street's global client base for both MCH and NAVigator priced funds.		
Global Pricing Services		
Securities price data is electronically obtained daily using third-party pricing vendors. Pricing administration and data center operations personnel monitor the daily vendor transmission process for timeliness and completeness.	See Control Objective 25 for Data Transmissions Controls surrounding vendor pricing feeds.	
	Observed the receipt and processing of portfolio pricing data.	No exceptions noted.
Pricing data obtained from third-party vendors automatically populates the pricing database. NAVigator electronically retrieves prices from the pricing database based on the unique asset identifier and the associated NAVigator price source code. Priced holdings on MCH are available to users once the overnight batch job update has been completed.	Utilized an ITF to test the NAVigator pricing process by transmitting test fund positions to the NAVigator system for pricing.	No exceptions noted.
	Utilized an ITF to test that fund positions on MCH are priced.	No exceptions noted.
NAVigator and MCH pricing parameters (i.e., pricing sources, pricing methods, foreign exchange sources, tolerance levels and market indices) are based on the client's instructions.	*In all of the locations, State Street anticipates that the user auditor will evaluate the operating effectiveness of the setup of pricing sources on NAVigator in accordance with client instructions.*	
GPS personnel set up new funds in NAVigator upon receipt of the NAVigator User Request Form from authorized personnel in the portfolio administration group. A review is performed to compare the information posted to NAVigator to the NAVigator User Request Form. Exceptions are followed up on and resolved.	Observed the procedures performed by GPS personnel to set up a new fund on NAVigator based on the NAVigator User Request Form.	No exceptions noted.
	For a selection of new funds set up or changes made during the period, inspected the NAVigator User Request Form received by GPS for evidence of signed authorization by appropriate personnel in the portfolio administration group.	No exceptions noted.
	Inspected a selection of new funds set up and changes made during the period, to verify accuracy of the new fund setup and changes made.	No exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
GPS performs second source data quality checks on listed equity securities for which there are two prices available. Exceptions are researched and prices are updated in NAVigator, if required, for both NAVigator and MCH users.	Observed the procedures performed by GPS personnel to review and research exceptions resulting from second source data quality checks for equity securities.	No exceptions noted.
	Inspected a selection of data quality reports for evidence of proper research and review of exceptions from second source quality checks.	No exceptions noted.
Tolerance failures on fixed-income securities may be verified to a second source; however, exceptions are generally returned to the original vendor in the form of a price challenge.	Observed the process performed by GPS personnel to review and research fixed-income securities which exceed day-to-day State Street tolerance levels.	No exceptions noted.
Exchange Rates		
Currency exchange rates are obtained at specific intervals throughout the day from Reuters and WM Company.	Observed the receipt and processing of currency exchange rates.	No exceptions noted.
For rates provided by Reuters only, MCH compares the prior day's exchange rate to the current day's exchange rate. Out-of-tolerance (exceed predetermined threshold) exchange rate reports for Reuters are reviewed daily by the Global Pricing Services' staff. The out-of-tolerance exchange rates including stale and missing exchange rates are checked to another independent source. Following verification and management review, exchange rates are approved and made available to users through MCH.	Inspected a selection of out-of-tolerance, missing and stale exchange rates for evidence of proper verification and review.	No exceptions noted.
	Utilized CAAT to reperform the automated out-of-tolerance report for IDC and Reuters exchange rates to assess its completeness and accuracy.	No exceptions noted.
	Utilized an ITF to test the mark-to-market of foreign currency denominated payable and receivable balances on MCH.	No exceptions noted.
NAVigator Pricing		
Australia, Canada, Ireland, Luxembourg and the U.K. have centralized processing units (e.g., centralized valuation groups) that are responsible for performing review of manual pricing and/or rejected prices. The centralized processing unit in Luxembourg performs these controls on behalf of Germany. In the U.S. these controls are performed by the individual portfolio administration groups. Hong Kong and Singapore do not price on NAVigator.		

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
NAVigator alerts the centralized processing unit personnel or portfolio administrator if the pricing data is not the most recent data.	Utilized an ITF to test online edit controls surrounding non-current pricing data.	No exceptions noted.
NAVigator calculates security price and foreign exchange rate tolerance limits that are determined by the customer.	Utilized an ITF to test the mathematical accuracy of the NAVigator tolerance check function.	No exceptions noted.
As the price sources become available (portfolio administrators monitor price source receipt online), prices rejected by the system edit checks are retrieved and reviewed.	Utilized an ITF to test reporting of rejected reason and status codes for out-of-tolerance pricing data.	No exceptions noted.
The portfolio administration groups or centralized processing units review manual source pricing data, price overrides and other price adjustments (including Fair Value received directly from the client) for authorization and completeness then manually enter the information in NAVigator.	Observed the review of manual source pricing data performed for completeness and accuracy.	No exceptions noted.
	Inspected a selection of pricing reports, and supporting documentation for evidence of review of prices manually input to NAVigator (i.e., manual source pricing, price overrides, price adjustments).	For one of 227 funds selected for testing, the review of manually input prices did not detect a manual input error of the current day price. **Management Response** The above fund is serviced in U.S. Institutional Investor Services. Management agrees the manual price input was incorrect. The error was immaterial to the fund and did not trigger a restatement of the portfolio. Management has reinforced with the appropriate staff the need for proper review of all manually priced securities.
The Rejected Pricing Report or equivalent (detailing the securities previous and current day prices, reject reason code and status) is reviewed daily by the portfolio administration group or centralized processing units supervisory personnel. Price reject reasons include tolerance failure, no price or stale price.	Observed the review of the Rejected Pricing Report (or equivalent) by the pricing coordinator or supervisory personnel.	No exceptions noted.
	Inspected a selection of pricing reports and supporting documentation, as applicable, for evidence of review of unpriced, stale, and out-of-tolerance prices.	No exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
	In Ireland, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of prices manually input and review of significant price movements and rejected or out-of-tolerance prices.	
Once exceptions have been resolved, NAVigator electronically calculates the portfolio's market value and net asset value.	Utilized an ITF to test the calculation and summarization of market values for individual securities and portfolios in total.	No exceptions noted.
	Utilized an ITF to test that NAVigator requires verification of share totals prior to the net asset value calculation.	No exceptions noted.
	Utilized an ITF to test the completeness and mathematical accuracy of the NAV Check Report.	No exceptions noted.
A report to identify stale prices within the fixed-income security vendor feed files is run centrally for Investor Services within GPS. Prices that have not changed in 10 business days are researched via GPS personnel contacting the pricing vendor source monthly and then updating the pricing database as applicable.	Observed GPS personnel identify stale prices and then contact the pricing vendor or other independent source for resolution.	No exceptions noted.
	Inspected a selection of stale price reports for evidence of proper follow up with vendors by GPS personnel.	No exceptions noted.
Luxembourg NAVigator Pricing		
Certain vendor pricing feeds are received directly by the Luxembourg Pricing Team to meet specific client requests and for intraday pricing purposes. These feeds are monitored in Luxembourg and transmitted to NAVigator when received.	Luxembourg – For a selection of dates, reviewed the monitoring controls over vendor pricing feeds received by the Luxembourg Pricing Team and transmitted to NAVigator.	No exceptions noted.
NAVigator Fair Value Pricing (U.S. Mutual Funds)		
Upon receipt of the Fair Value Application ("FVA") Set Up Form, Global Pricing Services will assign a user ID for the specified funds and designate the appropriate vendor within the FVA.	U.S. – For a selection of Fair Valuation clients, inspected Fair Valuation Authorization Forms to test that the client was accurately set up on the FVA and approved by an authorized individual.	No exceptions noted.
Receipt of the vendor feeds are monitored by GPS. The FVA will not accept a file from a day other than the current day.	Utilized an ITF to test that vendor factor feeds must be complete and not from a day other than the current day to be accepted by the FVA.	No exceptions noted.
State Street will apply fair value pricing based upon client instructions (i.e., daily or predefined market trigger), which may include standing instructions.	Inquired of management concerning fair valuation triggers and procedures.	No exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
	In the United States, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of market movements in order to determine to use fair value pricing.	
After pricing securities on NAVigator and reviewing local prices for reasonability and accuracy, individual portfolio administration groups download a holdings file from NAVigator and upload into State Street's FVA. The number of records in the holdings file is validated when files are uploaded into the FVA. Upon completion of the upload the portfolio administrator receives an "upload successful" message.	Inquired of management with respect to the controls surrounding the transmission of pricing files between NAVigator and the Fair Value Application.	No exceptions noted.
	Utilized an ITF to test controls over the completeness of the holdings file transmission into the FVA and the fair valuations sent back to NAVigator.	No exceptions noted.
	Utilized online testing to test that the NAVigator Fair Value Price File cannot be generated and loaded into NAVigator until fair value factors have been received into the FVA.	No exceptions noted.
Once the Fair Value factors have been received, the portfolio administration group will select the client authorized confidence interval, if applicable, and create the NAVigator Fair Value Price File, a list of the securities which were fair valued.	Utilized an ITF to select different confidence levels within the FVA and test that fair value factors from the vendor feeds are applied completely and accurately to the security prices based on the selected confidence levels and reported on the FV Comparison File appropriately.	No exceptions noted.
The portfolio administrator then creates and reviews the FV Comparison File showing securities fair valued and securities not fair valued. The portfolio administration group will upload the Fair Value Price File into NAVigator and will receive a message indicating the upload was successful along with the number of records processed and not processed.	See Control Objective 9 for controls surrounding final NAV price reviews under NAVigator - Net Asset Value.	
	U.S. – Inspected a selection of FV comparison files for appropriate selection of client specified confidence interval.	No exceptions noted.
The individual portfolio administration groups will then perform a final NAV price review.	U.S. – Inspected a selection of FV comparison files for evidence of generation and review by the portfolio administration groups.	No exceptions noted.
MCH Pricing Centralized processing units in Canada, India, Ireland, Luxembourg and South Africa are responsible for performing review of out-of-tolerance reports. Centralized processing units in Canada, Ireland, Luxembourg and South Africa are responsible for performing review of manual prices.		

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
In Australia, Germany, Hong Kong, Singapore, U.K. and the U.S., portfolio administration groups are responsible for performing review of out-of-tolerance reports and manual prices. Price requests for unpriced securities are submitted by the portfolio administrators to either GPS or the advisor.	Inquired of management concerning controls performed surrounding the periodic review and price request process for unpriced securities. *In Australia, Hong Kong, Ireland and Singapore, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of unpriced securities.*	No exceptions noted.
For securities priced on MCH, an automated application periodically retrieves unpriced securities from MCH. Global Pricing Services generates unpriced security reports from the daily holding files, which are researched throughout the month, such that an alternative/tertiary pricing source may be obtained for month-end pricing on MCH. At month end, GPS retrieves prices from the previously identified sources recorded in the unpriced security database and updates these prices to MCH for application to client holdings.	Observed the process performed by GPS personnel to research securities listed on the MCH unpriced securities report and to update the price in MCH.	No exceptions noted.
Once securities are priced, exception reports are generated from either MCH or Open System Accounting ("OSA"). The OSA price tolerance audit performed by the portfolio administrator identifies prices requiring further review, including manual, out-of-tolerance, new buys and no tolerance securities. Manual price updates are required to have written documentation. Portfolio administration group supervisory personnel review manual prices to source documentation.	Inquired of management concerning controls performed surrounding the price tolerance audit. *In Australia, Hong Kong, Ireland and Singapore, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of prices manually input and review of significant price movements and rejected or out-of-tolerance prices.* *PwC's tests did not include controls around pricing that utilize spreadsheets requiring manual input of the unrealized appreciation/depreciation to MCH.*	No exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
(See previous page.)	Inspected a selection of pricing reports, and supporting documentation, for evidence of review of prices manually input (i.e., manual source pricing data, price overrides, price adjustments).	For one of 177 funds selected for testing, PwC noted there was no evidence of review of the manually input price. **Management Response** The above fund is serviced in U.S. Institutional Investor Services. Management agrees that evidence of review was not properly documented and has reinforced with the appropriate staff the need for proper evidence of review.
Out-of-tolerance prices are reviewed using Bloomberg. If the difference is more than a predetermined threshold, a price challenge is submitted to GPS by the portfolio administration groups. Portfolio administration group supervisory personnel review the resolution of price tolerance.	Inspected a selection of pricing exception reports for evidence of supervisory review of significant price movements and rejected or out-of-tolerance prices.	No exceptions noted.
Money Market Pricing (U.S. Mutual Funds) Money market funds are recorded on MCH at amortized cost. Periodically, in accordance with client instruction, the portfolio administration groups will obtain market prices, where available, or use alternative pricing methods as authorized by the client. The fund's Net Asset Value using the market prices is calculated using a database and compared to the NAV at amortized cost on MCH to determine whether amortized cost approximates market value (i.e., within one-half of 1%). The report comparing amortized cost to market value is disseminated to the client for their review.	U.S. – Observed the periodic pricing of Money Market funds using actual prices for confirmation that pricing via amortized cost approximates market value.	No exceptions noted.
	U.S. – Inspected a selection of amortized cost to market value comparison report for evidence of preparation and dissemination to the client.	No exceptions noted.

APPENDIX 3: LLNL Appendix T—DOE/NNSA Funding Obligation to the University of California with Respect to Reimbursement of Contributions to the University of California Retirement Plan

EXCEPTION TO SF 30, APPROVED BY NARS 5/79

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE			PAGE 1 OF 2
2. AMENDMENT/MODIFICATION NO. M614	3. EFFECTIVE DATE April 17, 2008	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO. *(If applicable)*
6. ISSUED BY CODE		7. ADMINISTERED BY *(If other than Item 6)*	
U.S. Department of Energy/NNSA Livermore Site Office M/S L-293 7000 East Avenue Livermore, CA 94550			

8. NAME AND ADDRESS OF CONTRACTOR *(No., street, country, State, and ZIP Code)*		9A. AMENDMENT OF SOLICITATION NO.
The Regents of the University of California Office of the President, Laboratory Management 1111 Franklin Street, 5th Floor Oakland, CA 94607-5206		
		9B. DATED *(SEE ITEM 11)*
	X	10A. MODIFICATION OF CONTRACT/ ORDER NO. W-7405-ENG-48/M320/A390
		10B. DATED *(SEE ITEM 13)*
CODE FACILITY CODE		October 1, 1997/ January 18, 2001

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended. is not ex-tended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 25, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

see attached

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN CONTRACT/ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation data, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103 (b).
X	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: Clause H.013 CONTRACT MODIFICATIONS
	D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor __ is not, XX is required to sign this document and return ___2____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

See Page 2 attached.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)* Ronald A. Nelson Executive Director, Contracts and Administration		16A. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)* Ronna Promani, Contracting Officer U.S. Department of Energy/NNSA

APPENDIX T

DOE/NNSA FUNDING OBLIGATION TO THE UNIVERSITY OF CALIFORNIA WITH RESPECT TO REIMBURSEMENT OF CONTRIBUTIONS TO THE UNIVERSITY OF CALIFORNIA RETIREMENT PLAN (UCRP)

Section 1 – Purpose

(a) This Appendix –

(1) sets forth the terms and conditions under which DOE/NNSA may be required to reimburse the Regents of the University of California (UC) (Parties) for Required Contributions and establishes a basis to calculate any amount that DOE/NNSA may be required to reimburse UC as a Required Contribution; and

(2) provides a mechanism for UC to make certain changes to the UCRP with respect to the Retained Segment with the consent of DOE/NNSA.

(b) This Appendix is incorporated into the Contract and in turn incorporates into the Contract the following Attachment, including its Exhibits:

"Agreement Between the Department of Energy/National Nuclear Security Administration and the Regents of the University of California Concerning the Transfer of Assets and Liabilities From the University of California Retirement Plan to the LLNS Defined Benefit Pension Plan," which specifically provides for the values called for in the A minus B formula of Clause H.008 paragraph (f) (2) plus a Contribution Reserve Amount (Attachment 1) (Asset Transfer Agreement).

(i) October 1, 2007 Lawrence Livermore National Laboratory Special Addendum Report (Exhibit 1) (Actuarial Valuation).

(ii) Revised pages to October 1, 2007 Lawrence Livermore National Laboratory Special Addendum Report (Exhibit 1A)

(iii) Proposed Approach for Asset Allocation for Transfer to the LLNS Plan (Exhibit 2) (Asset Allocation).

(iv) Pricing Procedures for Asset Classes Held in the UCRP (Exhibit 3) (Pricing Procedures).

(v) Estimated Asset Transfer Amount as of March 25, 2008, to be modified upon determination of the actual value at the Asset Transfer Date (Exhibit 4) (Estimation).

(c) Except as specifically set out herein, this Appendix does not make changes to pre-existing rights and obligations between the Parties as set forth in Clause H.008 or any other provisions of the Contract; however, any conflict between the requirements of Clause H.008 or any other provision of the Contract and this Appendix will be resolved in favor of this Appendix.

(d) Subject to subparagraph (d) (5) of the Asset Transfer Agreement, this Appendix, including its Attachment and the Exhibits thereto, is for the exclusive benefit and convenience of the Parties hereto. Nothing contained herein shall be construed as granting, vesting, creating or conferring any right of action or any other right or benefit upon past, present or future employees of UC, upon any participants or beneficiaries of the University of California Retirement Plan (UCRP), as amended from time to time, or upon any other third party.

(e) This Appendix is not intended to limit or impair or add to the rights which any person may have under applicable Federal statutes.

(f) All assets and liabilities associated with UC's Defined Contribution Plan**,** 415(m) Restoration Plan, 457(b) Deferred Compensation Plan, and the Tax-Deferred 403(b) Plan are not covered by this Appendix and remain covered by Clause H.008.

Section 2 – Definitions

These definitions apply to this Appendix T and its Attachment, including all of its Exhibits, unless otherwise specified.

(a) "Actuarial Value of Assets" means the dollar amount of assets attributable to the Retained Segment for purposes of calculating the Required Contribution determined under the actuarial asset valuation method adopted by the Regents for the Retained Segment for the Plan Year reduced by the Contribution Reserve Amount at the beginning of such Plan Year.

(b) "Beneficiary" means (A) the eligible survivors and beneficiaries of Retained Members and (B) alternate payees of LLNL employees under qualified domestic relations orders (QDROs) who are eligible, and elect, on or before [date], to retain their interests under the QDROs in the UCRP.

(c) "Contribution Reserve Amount" means the initial amount of $140,000,000 retained under the Retained Segment of UCRP beyond the amount of "A-B" as calculated under the Contract to be applied against any future DOE/NNSA funding obligation for the Retained Segment, as such amount is adjusted in section 4(a) below.

(d) "Contract Service Assets" means the accrual basis market value of assets attributable to the Retained Segment given by the accounting referred to in subsection (4)(b), below.

(e) "Funding Shortfall" means the excess, if any, of the Funding Target over the Actuarial Value of Assets of the Retained Segment, determined as of the first day of the Plan Year.

(f) "Funding Target" means, with respect to a Plan Year, 100% of the present value of all benefits accrued or earned as of the beginning of the Plan Year that are allocated to the Retained Segment. The present value shall be determined using the actuarial assumptions adopted by the Regents as in effect for the Retained Segment for the Plan Year subject to subsections (d), (e), and (f) of Section 5 of this Appendix T and to the other provisions of this Contract.

(g) "LLNL" means the Lawrence Livermore National Laboratory.

(h) "LLNS Plan" means the Lawrence Livermore National Security Defined Benefit Pension Plan.

(i) "Plan Year" is the Plan Year as defined and adopted by the Regents for the UCRP.

(j) "Required Contribution" means the greater of (1) the Shortfall Amortization Charge allocable to the Retained Segment for a Plan Year, or (2) the amount necessary to meet the UCRP's current obligations to Retained Members and Beneficiaries when the remaining market value of assets of the Retained Segment as of the beginning of the Plan Year is insufficient to meet current obligations. For purposes of this provision, "current obligations" means an amount equal to three times the benefit payments and expenses for the 12 months prior to the beginning of the Plan Year. The Required Contribution is fixed as calculated and not subject to either positive or negative adjustment based on changes in market conditions or other actuarial experience between the calculation date and the payment date.

(k) "Retained Member" means an individual who satisfies the following two conditions: (A) on September 30, 2007, was (i) a retiree of the UCRP from LLNL, (ii) a terminated vested participant of the UCRP from LLNL, (iii) a disability income recipient under UCRP from LLNL, or a deceased participant with respect to any survivor entitled to benefits under UCRP from LLNL, or (iv) an employee in good standing of UC at LLNL and either an active or reinstated and rehired member of UCRP with a vested interest in the UCRP, and (B) did not elect to become a participant in the LLNS Plan. "Retained Member" shall also include an individual with an account under the Capital Accumulation Provisions (CAP), and who elected to become a participant in the LLNS Plan; provided, however, that such inclusion as a Retained Member shall be limited to such member's CAP benefit for purposes of calculating benefits and liabilities under the Retained Segment.

(l) "Retained Segment" means the portion of UCRP represented by the assets, including the Contribution Reserve Amount, and liabilities accrued through September 30, 2007 and associated with the benefits of Retained Members and Beneficiaries.

(m) "Shortfall Amortization Base" means, with respect to a Plan Year, the Funding Shortfall (if any) for the Plan Year reduced by the present value of any remaining future Shortfall Amortization Installments from prior Plan Years.

(n) "Shortfall Amortization Charge" means, with respect to a Plan Year, the sum of the Shortfall Amortization Installments with respect to the Shortfall Amortization Bases for such Plan Year and for each of the six preceding Plan Years, based on the Funding Shortfall for each of those years. For any Plan Year when the Funding Shortfall is zero, all prior Shortfall Amortization Bases will be considered fully amortized, no new Shortfall Amortization Base will be established for that year, and the Shortfall Amortization Charge will be zero for that year.

(o) "Shortfall Amortization Installment" means the amount necessary to amortize the Shortfall Amortization Base in level annual installments over a seven-year period using the interest rate assumption adopted by the Regents as in effect for the Retained Segment for the Plan Year.

(p) "The Regents" means the Regents of the University of California.

Section 3 –Future Required Contribution

(a) Any Required Contribution shall first be funded by the Contribution Reserve Amount to the extent any such Amount is available as of the beginning of the Plan Year, starting with the Plan Year beginning July 1, 2008 and ending June 30, 2009.

(b) Any remaining Required Contribution for a Plan Year not funded by the Contribution Reserve Amount, if greater than zero, shall, subject to the availability of appropriations and the other provisions of this Contract, be reimbursed by DOE/NNSA to UC, within eight months of the close of the Plan Year, starting with the Plan Year beginning July 1, 2008 and ending June 30, 2009.

(i) Immediately upon reimbursement by DOE/NNSA, the Regents will pay the Required Contribution to the extent not funded by the Contribution Reserve Amount into the UCRP for the Retained Segment and add it to the Contract Service Assets.

(ii) DOE/NNSA will make any reimbursement required in Section 3(b) from any funds which DOE/NNSA may legally use for such purpose, provided that DOE/NNSA will use its best efforts to request that sufficient funds for this purpose be included in the President's Budget if not otherwise available.

(c) In the event the Retained Segment is materially and consistently overfunded, the parties agree to engage in meaningful and good faith discussions at the request of either party to evaluate alternatives regarding such status, including discussions of material changes to this Contract, in an effort to take reasonable steps to address such overfunding, including, but not limited to, a spin off or transfer of all or a portion of the Retained Segment , or merger with another qualified retirement plan, provided that any such action complies with applicable legal constraints on the use and transfer of Retained Segment assets, UC's counsel provides a legal opinion that such a spin off, merger, transfer or other action is consistent with the fiduciary duty of the Regents' of UC, and the parties obtain all appropriate governmental approvals. If any such actions are taken to address the overfunding, including the transfer of Retained Segment assets to the LLNS Defined Benefit Pension Plan or its successor plan referenced in Section 4(a)(iii) below, the future agreement to effectuate such action will include a provision under which DOE/NNSA agrees that, subject to the other provisions of this Contract, including the cost principles contained in this Contract, the reasonable costs (including reasonable legal costs) or liabilities reasonably incurred by UC or UCRP as a direct result of taking such action will be reimbursed to UC through a charge to the Retained Segment to the extent legally permissible; provided, however, that any losses or penalties which cannot be charged to the Retained Segment and which are the direct result of taking such action will be separately invoiced to and reimbursed by DOE/NNSA.

Section 4 – Accounting and Reporting Requirements for the Retained Segment

(a) Contribution Reserve Amount

(i) UC shall maintain a separate nominal account for the Contribution Reserve Amount, which shall reflect the initial amount of $ 140,000,000, reduced at the beginning of each Plan Year by any amounts used to fund any Required Contribution as described in Section 3(a) and increased or decreased at the end of each Plan Year with a credit or debit for earnings or losses at the rate of return earned on UCRP assets for the Plan Year. The Contribution Reserve Amount shall be included in the annual actuarial valuation of UCRP but shall be deducted from the Actuarial Value of Assets for the Retained Segment assets for purposes of determining the Funding Shortfall.

(ii) DOE/NNSA may request that all or a specified part of any cash contribution made anytime by UC to UCRP and reimbursed by DOE/NNSA be allocated by UC to increase the balance of the Contribution Reserve Amount so long as the cumulative amounts reimbursed under this Section 4(a) (ii) do not exceed the cumulative amount deducted from the Contribution Reserve Amount under subparagraph (i). Any such allocation shall be added to the Contribution Reserve Amount as of the first day of the Plan Year following the Plan Year in which such allocation is made.

(iii) Under the circumstances described in Section 3(c), in the case where the parties agree to discuss a possible transfer of assets from UCRP to the LLNS Defined Benefit Pension Plan or a successor plan, such transfer will be limited to an amount of assets not exceeding the Contribution Reserve Amount, subject to the same terms and conditions provided in Section 3(c) above. The balance of the Contract Service Assets under Section 4(b) and the balance of the Contribution Reserve Amount under Section 4(a) (i) shall be reduced by the amount of any such transfer.

(b) Contract Service Assets

UC shall maintain a separate annual accounting of liabilities and assets attributable to the Retained Segment, including any Contribution Reserve Amount. The accounting for the Retained Segment will reflect the effects of any transactions covered by the Asset Transfer Agreement. Market value of assets in the Retained Segment on an accrual basis at the beginning of a Plan Year shall equal the assets at market value on an accrual basis at the end of the prior Plan Year based on the separate annual accounting of the prior Plan Year. The annual accounting of the assets in the Retained Segment under the Contract will incorporate the following:

(i) Market value of assets in the Retained Segment at the beginning of a Plan Year, determined in accordance with the Pricing Procedures;

(ii) (A) Contributions reimbursed by DOE/NNSA that are accounted for on a monthly basis during a Plan Year; and

(B) Employee contributions in the form of after-tax service credit buybacks made to UCRP that are accounted for on a monthly basis during a Plan Year, if any;

(iii) The dollar amount of total investment rate of return from the market value of the Retained Segment assets as invested in the UCRP portfolio accrued on a monthly basis during the Plan Year;

(iv) Benefits disbursed on a monthly basis from the Retained Segment during the Plan Year, including return of accumulated employee contributions;

(v) Administrative expenses, excluding any expense specifically allocated to a segment, paid from the trust allocated to the Retained Segment in the same proportion that the market value of assets assigned to the Retained Segment bears to the market value of the total UCRP on a monthly basis during the Plan Year. Specific expenses will be directly charged to the Retained Segment as provided for in subsection 5(h) of Appendix T in addition to the proportionate share of expenses; and

(vi) Market value of assets at the end of the Plan Year = [subparagraphs (i) + (ii) + (iii) - (iv) - (v)]. The annual accounting shall commence as of October 1, 2007 with the Contract Service Assets priced as of September 30, 2007, and as provided in the Pricing Procedures, and thereafter as of the end of each Plan Year.

(c) Reporting requirements for Retained Segment.

The following reports will be submitted by UC to DOE/NNSA:

(i) The annual actuarial valuation for the UCRP and an addendum report including such information for the Retained Segment that the DOE/NNSA may reasonably request will be submitted within six months of the end of the Plan Year. At a minimum, the addendum report will include: a statement of the Actuarial Accrued Liability (Funding Target) for the Retained Segment; calculation of the Required Contribution for the subsequent Plan Year (including the Shortfall Amortization Charge and the amount necessary to meet "current obligations"); the amount, if any, of the Required Contribution that will be funded from the Contribution Reserve Amount; the cumulative amount of any deductions from the Contribution Reserve Amount under Section 4(a) (i); the cumulative amount of any increase to the Contribution Reserve Amount due to DOE/NNSA requests under Section 4(a) (ii) for prior years; the amount of any remaining Contribution Reserve Amount; a schedule of each Shortfall Amortization Base, if any, and its date, original amount and Shortfall Amortization Installment; a demographic summary of data for the members in the Retained Segment; an itemization of the changes in the numbers of members in the Retained Segment during the Plan Year; a development of the Funding Shortfall for the Plan Year, if any; a statement of the market value of assets for the Retained Segment; an itemized cash flow for the assets of the Retained Segment; calculation of the Actuarial Value Assets; definition of pension terms used in the addendum report; a statement of actuarial assumptions and methods; a summary of UCRP provisions; and a statement of the changes, if any, in benefits, assumptions or methods since the last report.

(ii) A copy of the Financial Accounting Standards Board Statement 87 report prepared each year to satisfy the expense-reporting requirement of the Office of Management and Budget. The report will be provided by the date requested by DOE/NNSA.

(iii) UC shall provide a report of an annual, full-scope audit of UCRP by an outside independent auditor within seven months after the end of the Plan Year to which the audit applies.

Section 5 – Administration of the Retained Segment

(a) Any disputes that may arise under this Appendix T, including its Attachment and the Exhibits thereto, are subject to the DISPUTES Clause of the Contract.

(b) The Retained Segment will remain within UCRP, consistent with the terms of the Contract.

(c) UC will continue to provide an annual addendum report on the Retained Segment as described in subsection (4) (c). As part of that report, the Regents' actuary will calculate any Required Contribution.

(d) Subject to subsections (e) and (f) below, DOE/NNSA acknowledges and agrees that the Regents are authorized and expected to administer the UCRP and its trust fund as fiduciaries of the UCRP.

(e) Notice

(i) In addition to the advance notice and approval from DOE/NNSA required pursuant to subsection (5) (f), UC will notify DOE/NNSA prospectively of each change to the UCRP that could have a significant impact on current or future DOE/NNSA funding or liabilities. Changes covered by this provision include any change to a benefit, right or feature of the UCRP and any change to a funding method or assumption. A significant impact is a change that requires the approval of the

Regents. DOE/NNSA will also be given prospective notice of any changes in the scope of the administration of the Retained Segment that requires a change in the administration costs of five percent or more. Changes in administration costs resulting directly from normal inflation in administration costs or pursuant to specific requests from DOE/NNSA do not require notice.

(ii) Prospective notice will be provided to DOE/NNSA for each change requiring prospective notice as described in this section, including any changes to non-DOE/NNSA-reimbursed segments of UCRP. For purposes of this section, prospective notice on a change that requires prior regental approval shall mean written notice, including a copy of the proposed change by the Regents as trustees of UCRP, at least thirty (30) days in advance of approval of each change to UCRP. With respect to changes in the scope of administration of the Retained Segment, notice shall also be included in the annual addendum report for the Retained Segment.

(f) Any UCRP proposal that:

(i) is specific to the Retained Segment, or specific to the Retained Segment and the retained segment associated with the Los Alamos National Laboratory; or

(ii) would increase pension liabilities for the Retained Segment beyond what is approved for UCRP members generally or would have a significant and differential impact on the Retained Segment than on the UCRP generally; or

(iii) changes an asset allocation or adopts actuarial assumptions or methods for the Retained Segment differently than for UCRP members generally; or

(iv) involves ad hoc adjustments to the benefits of Retained Members or Beneficiaries, even if proposed for all UCRP members and beneficiaries

is subject to approval in advance by the DOE/NNSA Contracting Officer, which approval for subsections (i)-(iii) will not be unreasonably withheld. In addition, the DOE/NNSA Contracting Officer shall not withhold approval for changes under subsections (ii) and (iii) above resulting from a court order requiring or directing UC to make such change. DOE/NNSA shall make a good faith effort to respond to a request by UC under this section within 90 days after receipt of such request.

(g) The provisions of Clause H.008 (b) (1)-(5) and (b) (8) and (d) are replaced by Section 4 and subsections (5) (e) and (f) of this Appendix T.

(h) Subject to the other provisions of this Contract, including the cost principles contained in this Contract, the reasonable costs of planning for and implementing the division of assets between UCRP and the LLNS Plan, and administering the Retained Segment will be reimbursed to UC through a charge to the Retained Segment to the extent legally permissible; provided, however, that any losses or penalties which cannot be charged to the Retained Segment and which DOE/NNSA is required to reimburse UC pursuant to the Asset Transfer Agreement, Clause (b) (6), will be separately invoiced.

(i) As the size of the Retained Segment begins to significantly decline, if requested by DOE/NNSA and legally permissible, the Retained Segment will be spun off from UCRP to be terminated after the death of the last Retained Member or Beneficiary. An amount equivalent to any Contract Service Assets remaining after satisfaction of all liabilities and obligations of the Retained Segment, less costs of liquidation, plus interest at the then-current rate established for a one-year Treasury bill as published by the Federal Reserve calculated from the date of plan termination to the payment date, will be paid to DOE/NNSA or as directed by DOE/NNSA, if approved by the Internal Revenue Service.

(j) Contract W-7405-ENG-48 ended on September 30, 2007 and is in contract close out status. Based on contract close out status, the costs of any liabilities (and reasonable expenses incidental to such liabilities, including litigation costs) arising from a claim brought by a third party (including an employee or former employee of the University) against either the University or UCRP based on the University's creation and administration of the Retained Segment (including but not limited to elections to participate in Total Compensation Package 1 or Total Compensation Package 2 at LLNL), is a “claim after completion” as that term is used in Clause I.093 Obligation of Funds, and is reimbursable to the University pursuant to the Clause I.087 Insurance--Litigation and Claims, of the Contract. Further the parties agree that for purposes of this paragraph (j) –

(i) The Contractor is not required to maintain insurance for claims under this paragraph due to contract close out status;
(ii) “managerial personnel” as referenced in paragraph (h) of Clause I.087 Insurance–Litigation and Claims has been limited after expiration of the Contract to corporate officers of the corporation The Regents of the University of California; and
(iii) the reimbursement will be made in accordance with paragraph (h) of this section.

Appendix T - DOE/NNSA Funding Obligation to the University of California with respect to Reimbursement of Contributions to the University of California Retirement Plan (UCRP)

IN WITNESS WHEREOF, the Parties have executed this Appendix T as of the date(s) indicated below.

"Agreement Between the Department of Energy/National Nuclear Security Administration and the Regents of the University of California Concerning the Transfer of Assets and Liabilities From the University of California Retirement Plan to the LLNS Defined Benefit Pension Plan" (Attachment 1) (Asset Transfer Agreement), with the following exhibits:

(i) October 1, 2007 Lawrence Livermore National Laboratory Special Addendum Report (Exhibit 1) (Actuarial Valuation).

(ii) Revised pages to October 1, 2007 Lawrence Livermore National Laboratory Special Addendum Report (Exhibit 1A)

(iii) Proposed Approach for Asset Allocation for Transfer to the LLNS Plan (Exhibit 2) (Asset Allocation).

(iv) Pricing Procedures for Asset Classes Held in the UCRP (Exhibit 3) (Pricing Procedures).

(v) Estimated Asset Transfer Amount as of March 25, 2008, to be modified upon determination of the actual value at the Asset Transfer Date (Exhibit 4) (Estimation).

**AGREEMENT BETWEEN
THE DEPARTMENT OF ENERGY/NATIONAL NUCLEAR SECURITY ADMINISTRATION AND
THE REGENTS OF THE UNIVERSITY OF CALIFORNIA
CONCERNING
THE TRANSFER OF ASSETS AND LIABILITIES
FROM THE UNIVERSITY OF CALIFORNIA RETIREMENT PLAN
TO THE LLNS DEFINED BENEFIT PENSION PLAN**

(a) **General**.

(1) The "Parties" means the Department of Energy, through the National Nuclear Security Administration (DOE/NNSA), and the Regents of the University of California (UC).

(2) The "Asset Transfer Agreement" means this Agreement between the Department of Energy/National Nuclear Security Administration and the Regents of the University of California concerning the Transfer of Assets and Liabilities from the University of California Retirement Plan to the LLNS Defined Benefit Pension Plan.

(3) Pursuant to Clause H.008 of the Contract, the assets and liabilities associated with the Lawrence Livermore National Laboratory Segment (LLNL Segment) of the University of California Retirement Plan (UCRP) have been accounted for separately each year by the Regents' actuary since the early 1990s at the request of DOE/NNSA.

(4) During the transition to management of Lawrence Livermore National Laboratory (LLNL) by Lawrence Livermore National Security, LLC (LLNS), employees of UC at LLNL on September 30, 2007, who were either active, or rehired and reinstated as members of the UCRP could elect to participate in the LLNS Defined Benefit Pension Plan (LLNS Plan) so that benefit liabilities under the UCRP attributable to service prior to October 1, 2007, would be transferred from the UCRP to the LLNS Plan effective October 1, 2007. Such individuals are collectively referred to as "Transferring Employees." The benefit liabilities transferred exclude any liabilities for Capital Accumulation Provision (CAP) accounts. The benefit liabilities transferred also exclude liabilities for benefits assigned by a qualified domestic relations order (QDRO) to a former spouse of an employee who elected to participate in the LLNS Plan if the former spouse elected on or before February 29, 2008, pursuant to procedures established by LLNS and UC, to retain his or her interest in UCRP. Collectively the excluded liabilities for CAP accounts and for alternate payees under

QDROs who themselves elect to retain their interest in the UCRP shall be referred to as "Excluded Liabilities."

(5) Under the terms of the LLNS Plan, as adopted by LLNS on December 20, 2007, Transferring Employees began accruing benefits under the terms of the LLNS Plan starting October 1, 2007. As provided in the LLNS Plan, these individuals are also eligible to receive benefits under the LLNS Plan attributable to service credited under the UCRP for employment prior to October 1, 2007, based upon the benefit provisions, payment options, and other terms of the LLNS Plan. Transferring Employees waived any rights they might have had to benefits under the UCRP, except the Excluded Liabilities, which remain payable from the UCRP.

(6) The definitions set forth in Section 2 of Appendix T are applicable to this Asset Transfer Agreement, except as may be specifically provided in this Asset Transfer Agreement.

(b) For and in consideration of the mutual understandings expressed herein, DOE/NNSA agrees and represents as follows:

(1) The date of the transfer of assets and liabilities pursuant to this Asset Transfer Agreement from the UCRP to the LLNS Plan will be on or about April 1, 2008 (Asset Transfer Date), provided that DOE/NNSA provides UC with executed copies of this Asset Transfer Agreement and the agreement set forth in Appendix T to the Contract between UC and DOE/NNSA to define DOE/NNSA's ongoing obligation to reimburse UC for contributions to the UCRP attributable to the Retained Segment no later than March 27, 2008.

(2) DOE/NNSA will work with the Internal Revenue Service (IRS) to facilitate regulatory approval for the transfer of assets and liabilities described below from the UCRP to the LLNS Plan.

(3) DOE/NNSA will provide UC with the following –

(i) As agreed to by LLNS, a copy of the application submitted by LLNS on November 8, 2007, to the IRS for a Favorable Determination Letter that the LLNS Plan satisfies the requirements of Section 401(a) of the Internal Revenue Code of 1986 (Code), including the requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) and all other applicable requirements, including those documented in the Cumulative List in Notice 2007-3. In that application, LLNS also requested a determination that the LLNS Plan's associated trust is tax-qualified within the meaning of Code section 501(a).

(ii) LLNS' agreement to make any modifications requested by the IRS as required to obtain a Favorable Determination as to the qualified status of the LLNS Plan, and an opinion provided by LLNS to DOE/NNSA from counsel for LLNS that the LLNS Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) as to form, that its trust is exempt from taxation under Section 501(a) of the Code.

(iii) LLNS' agreement to return the Asset Transfer Amount (as defined in clause (d)(2) below) and the remaining liabilities for service under the UCRP prior to October 1, 2007, to the UCRP to the extent legally permissible (a) if LLNS is unable to obtain a Favorable Determination from the IRS on the form of the LLNS Plan; (b) if LLNS, with the facilitation of DOE/NNSA, as described above, is unable to obtain IRS approval for the asset and liability transfer to the LLNS Plan; or (c) if so ordered by a court of competent jurisdiction. To the extent legally permissible, such agreement will provide that:

A. The assets so returned to the UCRP shall be the Asset Transfer Amount adjusted by benefit distributions from the LLNS Plan attributable to service credit earned prior to October 1, 2007, to the extent transferred to the LLNS Plan, and an allocable share of the investment return and expenses incurred during the period from the Asset Transfer Date to the date the assets are returned to the UCRP.

B. The allocable share of expenses to be offset against the assets returned to UCRP shall be an amount equal to the administrative expenses, excluding investment expenses, incurred during the period from the Asset Transfer Date to the date the assets are returned to the UCRP, multiplied by the ratio of the liability of the Transferring Employees to the total liability of the LLNS Plan on the Asset Transfer Date.

C. Solely for the purpose of calculating the ratio in B. above, the liability shall be based on the funding target under Code section 430(d) (1) using the LLNS Plan assumptions for funding target for the LLNS plan year containing the Asset Transfer Date.

D. The allocable share of the investment return added to (or subtracted from) the assets returned to UCRP shall be determined in accordance with applicable fiduciary duties by applying the total rate of investment return, net of investment expenses, of the LLNS Plan (during the period from the Asset Transfer Date to the date the assets are so returned to the UCRP) to the Asset Transfer Amount adjusted by benefit distributions attributable to service credit earned prior to October 1, 2007 and the allocable share of expenses determined above.

E. The liabilities so returned to the UCRP shall be adjusted by benefit distributions attributable to service credit earned prior to October 1, 2007, to the extent of the liabilities transferred to the LLNS Plan and the obligations incurred by LLNS on behalf of members of the LLNS Plan under the LLNS Defined Benefit Eligible Survivor Income Program and the LLNS Defined Benefit Eligible Disability Program.

(iv) LLNS' agreement to cooperate with DOE/NNSA and UC in finalizing the data and reconciliations to support any adjustments in the amount of assets transferred from the UCRP to the LLNS Plan that may be necessary after the Asset Transfer Date and to assume full responsibility for payment of premiums to the Pension Benefit Guaranty Corporation for the LLNS Plan and the LLNS Plan's compliance with the requirements of the Code.

(v) LLNS' agreement that it has been given an adequate opportunity to review the proposed allocation of assets to be transferred from the UCRP to the LLNS Plan, that it agrees that the valuation approach to be used with respect to the assets transferred is reasonable, and that it agrees to direct the trustee of the LLNS Plan to accept the Asset Transfer Amount into the LLNS Plan as of the Asset Transfer Date.

(vi) LLNS' agreement that it will maintain the special schedule (or the data necessary to create the special schedule) as required by Code section 414(l), and that it will file IRS Form 5310-A to this effect for the merger of the assets and liabilities into the LLNS Plan.

(vii) LLNS' agreement that, upon transfer of the Asset Transfer Amount from the UCRP to the LLNS Plan in accordance with this Asset Transfer Agreement, all liabilities of the UCRP, UC and the Regents for the benefits under the UCRP attributable to service prior to October 1, 2007, associated with the Transferring

Employees – with the exception of Excluded Liabilities retained in the UCRP – will be extinguished.

(4) Based upon representations made by UC and its actuaries as set forth in subparagraph (c) of this Asset Transfer Agreement, DOE/NNSA accepts that the difference between the Contract Service Assets for the LLNL Segment (priced as of September 30, 2007 as provided in the Pricing Procedures, Exhibit 3, to this Attachment) ($5,600,667,264) as provided in the Actuarial Valuation (Exhibit 1 and Exhibit 1A) and the value as of September 30, 2007, of the liabilities retained in the Retained Segment ($3,780,314,849) as provided in the Actuarial Valuation, minus the Contribution Reserve Amount equal to $140,000,000 provided for in Section 4(a) of Appendix T was $1,680,352,415 (Adjusted Formula Amount).

(5) DOE/NNSA agrees that upon transfer of the Asset Transfer Amount from the UCRP to the LLNS Plan and subject to any adjustments made pursuant to the terms of subparagraphs (d) (3) and (4) of this Asset Transfer Agreement, UC will have satisfied its responsibilities to transfer assets and liabilities from the UCRP to the LLNS Plan pursuant to Clause H.008 paragraph (f).

(6) The costs, expenses, losses and penalties that the UCRP or UC reasonably incurs, as a direct result of the transfer of assets and liabilities from the UCRP to the LLNS Plan as provided for in this Asset Transfer Agreement, including transaction costs associated with rebalancing the investments in the UCRP, will be assessed as costs of the Retained Segment to the extent permissible or, if not, separately invoiced. “Costs” for these purposes do not include losses on the value of assets sold in the rebalancing of investments. "Penalties" for these purposes are limited to those assessed to the UCRP, UC or one or more of the fiduciaries of the UCRP as a direct result of performing those acts in conformance with the terms of this Asset Transfer Agreement.

(7) If LLNS returns the Asset Transfer Amount pursuant to the LLNS agreement described in subparagraph (b) (3) (iii) of this Asset Transfer Agreement, and the rate of return on investments in the LLNS Plan is less than the rate of return on investments in the UCRP for the period beginning on the Asset Transfer Date and ending on the date assets are returned to the UCRP, an amount equal to the excess of the UCRP rate of return over the LLNS Plan rate of return times the Asset Transfer Amount will be treated as a reimbursable cost to the extent that if, after taking into account the assets and the liabilities returning to the Retained Segment, such transfer would leave the Retained Segment with a Funding Shortfall.

(c) For and in consideration of the mutual understandings expressed herein, UC agrees and represents as follows:

(1) UC received a Favorable Determination Letter dated November 8, 2007 from the IRS stating that the UCRP, as amended through December 11, 2002, continues to satisfy the requirements of Code section 401(a), taking into account changes in qualification requirements made by the Uruguay Round Agreements, the Small Business Job Protection Act of 1996, the Uniformed Services Employment and Reemployment Rights Act of 1994, the Taxpayer Relief Act of 1997, the Internal Revenue Service Restructuring and Reform Act of 1998, and the Community Renewal Tax Relief Act of 2000 as well as other amendments adopted as of December 11, 2002, but excluding amendments required by the Economic Growth and Tax Relief Reconciliation Act of 2001.

(2) UC will submit a request for an updated Favorable Determination Letter on the UCRP to the IRS within Cycle C, the remedial amendment cycle established for governmental plans in IRS Revenue Procedure 2007-44, stating that the form of the UCRP, as amended subsequent to December 11, 2002, continues to be qualified under Section 401(a) of the Code. Prior to the execution of this Asset Transfer Agreement, UC will provide an opinion from counsel for UC that the UCRP, as amended subsequent to December 11, 2002, continues to be qualified under Section 401(a) of the Code as to form, the UCRP's trust is exempt from taxation under Section 501(a) of the Code, and UC has confirmed its intent to make any amendments requested by the IRS as required to obtain an updated determination that the form of the UCRP, as amended subsequent to December 11, 2002, continues to satisfy the requirements of Code section 401(a).

(3) In accordance with Clause H.008 paragraph (f) (2) (i) as modified by subparagraph (d) (1) (ii) of this Asset Transfer Agreement*,* UC has determined that, priced as of September 30, 2007, as provided in the Pricing Procedures, the total market value of the assets allocated to the LLNL Segment was $5,600,667,264 on September 30, 2007.

(4) In accordance with Clause H.008 paragraph (f) (2) (i)*,* UC has determined that, as of midnight Pacific time on September 30, 2007, the liabilities associated with the LLNL Segment for benefits under the UCRP attributable to service at LLNL prior to October 1, 2007, that are retained in the LLNL Segment, including the Excluded Liabilities, were $3,780,314,849.

(5) In accordance with Clause H.008 paragraphs (f) (2) and (3) as modified by subparagraph (d) (1) (ii) of this Asset Transfer Agreement, UC has determined that, priced as of September 30, 2007, and as provided in the Pricing Procedures, the difference between the Contract Service Assets of the LLNL Segment as reflected in the Actuarial Valuation and the value of the liabilities of the Retained Segment as reflected in the Actuarial Valuation, minus the Contribution Reserve Amount equal to $140,000,000 provided for in Section 4(a) of Appendix T, was $1,680,352,415 (Adjusted Formula Amount).

(6) UC represents that the Asset Transfer Amount will be calculated and determined as provided in subparagraph (d) (2) of this Asset Transfer Agreement.

(7) UC agrees that, upon the transfer to the LLNS Plan of the Asset Transfer Amount and the liabilities under the UCRP associated with the benefits of the Transferring Employees, the liabilities under the UCRP associated with the benefits of such individuals (with the exception of the Excluded Liabilities retained in the UCRP) and the liabilities and responsibilities of DOE/NNSA for reimbursement of such liabilities under the UCRP will be extinguished except to the extent that such liabilities may be returned to the UCRP as described in subparagraph (b) (3) (iii) above.

(8) Prior to the Asset Transfer Date, UC's enrolled actuaries will certify that, although the UCRP is not subject to the requirements of Code sections 401(a) (12) and 414(l) because the UCRP is a governmental plan as defined in Code section 414(d), if Code section 414(l) did apply to the spin off of assets and liabilities from the UCRP to the LLNS Plan, the transfer of the Asset Transfer Amount as defined in subparagraph (d) (2) would comply with Code section 414(l) regarding the minimum level of assets to be transferred to the LLNS Plan to cover the liabilities transferred and that UC will submit an IRS Form 5310-A to that effect for the spin off of assets and liabilities from the UCRP.

(9) In accordance with Clause H.008, paragraph (f) and upon UC's receipt of the documents and representations set out in subparagraph (b) of this Asset Transfer Agreement, UC agrees to transfer the Asset Transfer Amount from the UCRP to the LLNS Plan as of a date no later than the Asset Transfer Date; provided, however, that the transfer will be accomplished with an allocation of cash and an allocation of securities mutually agreed upon by the DOE/NNSA, LLNS, and UC as set forth in Exhibit 2 attached to and made a part of this Asset Transfer Agreement.

(10) UC will cooperate with DOE/NNSA and LLNS to determine and reconcile the Final Transfer Amount and the final liability transfer amount from the UCRP to the LLNS Plan in accordance with the terms of this Asset Transfer Agreement and applicable law. UC further agrees to cooperate with DOE/NNSA and LLNS in finalizing the data and reconciliation to support any adjustments in the amount of assets and liabilities transferred from the UCRP to the LLNS Plan that may be necessary after the Asset Transfer Date.

(11) UC hereby agrees to provide data, documentation, and records reasonably requested for and on behalf of the LLNS Plan for the proper establishment, maintenance and administration of the LLNS Plan.

(12) UC hereby agrees that, if – in accordance with paragraph (b) (3) (iii) of this Asset Transfer Agreement – LLNS returns the Asset Transfer Amount (as adjusted pursuant to paragraphs (b) (3) (iii) and (d) (3) of this Asset Transfer Agreement) and the remaining liabilities for service under the UCRP prior to October 1, 2007, to the UCRP, the UCRP will accept those assets and liabilities to the extent legally permissible.

(d) **<u>For and in consideration of the mutual understandings expressed herein, UC and DOE/NNSA agree as follows</u>**:

(1) <u>Adjusted Formula Amount</u>

(i) The Parties are mutually relying upon obtaining approval from the IRS for the Adjusted Formula Amount.

(ii) The Adjusted Formula Amount ($1,680,352,415) was determined based upon the Actuarial Valuation as of September 30, 2007, the effective date of disaffiliation - the last business day of the calendar quarter which ended coincident with, or next preceding, the effective date of disaffiliation as had been provided in Clause H.008 Paragraph (f) (2) of the Contract.

(2) <u>Asset Transfer Amount</u>

The Asset Transfer Amount is the Adjusted Formula Amount as further adjusted to the Asset Transfer Date to reflect the following factors occurring during the period beginning October 1, 2007, and ending on or near the Asset Transfer Date: the portion of the total return earned by the UCRP portfolio allocable to the Adjusted Formula Amount of the LLNL Segment; administrative expenses allocable to the Adjusted Formula Amount of the LLNL Segment; buybacks for the UCRP service credit attributable to the Adjusted Formula Amount of the UCRP benefits of Transferring Employees (apart from the CAP accounts); and any interim distributions agreed to by DOE/NNSA from the UCRP made to the LLNS Plan and/or to LLNS Plan members or their beneficiaries or alternate payees pursuant to a QDRO. See Exhibit 4 estimating the Asset Transfer Amount, based upon preliminary accounting through March 25, 2008, to be modified on or about April 15, 2008, upon determination of the actual value at the Asset Transfer Date. Any losses or penalties that cannot be charged to the Retained Segment and which DOE/NNSA is required to reimburse UC pursuant to this Asset Transfer Agreement or Appendix T will be separately invoiced.

(3) Final Transfer Amount

UC and DOE/NNSA acknowledge and agree that the Asset Transfer Amount transferred on the Asset Transfer Date may need to be subsequently adjusted to reflect – with respect to certain assets – final earnings figures and other final performance numbers that may be received by UC after the Asset Transfer Date, other investment-related adjustments and any data corrections related to the calculations supporting the Asset Transfer Amount but not available on the Asset Transfer Date as well as to make any adjustments necessary to obtain appropriate regulatory approval. Any additional transfers of assets between the UCRP and the LLNS Plan as may be needed to make such adjustments will be made as soon as practicable following the Asset Transfer Date.

(4) Corrections

The Parties agree that UC will provide prompt notice of any errors or omissions in data used to calculate the Asset Transfer Amount discovered after the Asset Transfer Date that would have had an effect on the Asset Transfer Amount had such error or omission been recognized prior to the Asset Transfer Date. The Parties shall determine how to correct the error or omission with as minimum an administrative burden on the Parties as possible.

(5) Third Party Beneficiaries

This Attachment, including its Exhibits, is for the exclusive benefit and convenience of the Parties hereto. Nothing contained herein shall be construed as granting, vesting, creating or conferring any right of action or any other right or benefit upon past, present or future employees of the Contractor, upon any participants or beneficiaries of the UCRP, as amended from time to time, or upon any other third party.

Notwithstanding the foregoing and Section 1(d) of Appendix T, LLNS may rely on the representations made by UC in subparagraph (c) of this Asset Transfer Agreement provided that LLNS has entered into an enforceable agreement with the DOE/NNSA providing that UC may rely on the representations provided by LLNS described in subparagraph (b) (3) of this Asset Transfer Agreement.

IN WITNESS WHEREOF, the Parties have executed this Asset Transfer Agreement as of the date(s) indicated below.

Ms. Judith W. Boyette
Associate Vice President, Human Resources and Benefits
University of California
1111 Franklin Street, 7th Floor
Oakland, California 94607-5200

Dear Associate Vice President Boyette:

We are pleased to submit this Actuarial Valuation Report as of October 1, 2007 for the University of California Retirement Plan ("UCRP" or "Plan"). It summarizes the actuarial data used in the valuation, includes results both before and after reflecting the transfer elections and analyzes the preceding quarter's experience for the Lawrence Livermore National Laboratory Segment within UCRP.

The census and financial information on which our calculations were based was provided by the UC HR/Benefits Staff. That assistance is gratefully acknowledged. The actuarial calculations were completed under the supervision of John Monroe, ASA, MAAA, Enrolled Actuary.

This actuarial valuation has been completed in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information supplied in this actuarial valuation is complete and accurate. Further, in our opinion the assumptions as approved by the Regents are reasonably related to the experience of and future expectations for the Plan.

We look forward to reviewing this report and to answering any questions.

Sincerely,

THE SEGAL COMPANY

By:

Paul Angelo, FSA, EA, MAAA	*John Monroe, ASA, EA, MAAA*

SECTION 1

EXECUTIVE SUMMARY

SECTION 2

SUPPLEMENTAL INFORMATION

SECTION 3

REPORTING INFORMATION

SEGAL

Purpose

This special addendum report presents the results for Lawrence Livermore National Laboratory (LLNL) of the October 1, 2007 actuarial valuation of the University of California Retirement Plan (UCRP). Results from the prior valuation are shown for comparison. The report is published solely for the purpose of complying with the requirements of Contract No. W-7405-ENG-48 (Contract 48), Modification No. M534. The report is based on the procedures specified in Modification No. M534.

Contributions

The Department of Energy (DOE) has agreed to fund the employer cost of UCRP at the contribution rates established from time to time by the Regents, as long as the contributions do not exceed the full funding limit defined in the Internal Revenue Code, Section 412. This interim valuation report does not calculate recommended contributions.

Significant Issues In Valuation

LAWRENCE LIVERMORE NATIONAL LABORATORY TRANSFER OF ASSETS AND LIABILITIES

- On September 30, 2007, the University's contract to operate and manage the Lawrence Livermore National Laboratory (LLNL) for the National Nuclear Security Administration of the Department of Energy (DOE/NNSA) expired. The DOE/NNSA awarded the contract to a separate legal entity, Lawrence Livermore National Security, LLC (LLNS), who assumed operations at the LLNL on October 1, 2007.
- Under the terms of the LLNS contract, LLNS is required to sponsor a defined benefit pension plan that is designed to be substantially equivalent to the provisions of the UCRP. The Plan assets and liabilities attributable to certain transitioning employees who elect employment with LLNS are expected to be transferred to the successor pension plan at a future date provided all required and advisable regulatory rulings and approvals are obtained.
- There are 3,943 members who elected to transfer to the LLNS defined benefit plan. Their actuarial accrued liability as of October 1, 2007 is approximately $1.2 billion, excluding the liability for their CAP benefits that will be retained by UCRP. This liability is reflected in our valuation results and is based on the current UCRP actuarial assumptions, methods and plan provisions. The liability for these members as determined for the LLNS defined benefit plan will almost certainly be different, as it will be based on the LLNS benefit provisions and the actuarial assumptions and methods used by the LLNS actuary.

Significant Issues in Valuation (continued)

- The LLNL transfer elections reflected in this valuation are based on the transfer election data provided by the University as of November 6, 2007.
- We have calculated the amount of assets to be retained in UCRP for LLNL members who have retired or are inactive, and the amount of the assets that will be transferred to the LLNS defined benefit plan for the transitioning employees who elected to participate in the LLNS defined benefit plan based on the "A – B" formula listed in Contract 48, Clause H.008. "A" represents the market value of UCRP assets associated with UCRP members' LLNL service during the performance of Contract 48 and is $5.601 billion. "B" represents the liability associated with those LLNL members who are retired or inactive and retained by UCRP and is $3.780 billion. Under this calculation, the amount of assets as of October 1, 2007 to be transferred from UCRP to the LLNS defined benefit plan would be "A – B", or $1.820 billion (rounded). The DOE/NNSA has elected to leave an additional $75 million of this transfer amount in UCRP as a contribution reserve amount. Therefore, $1.745 billion (rounded) is the amount to be transferred to the LLNS defined benefit plan as of October 1, 2007. The amount to be transferred will be adjusted for investment return, allocable expenses and any other appropriate adjustments through the anticipated transfer date of early April 2008.
- While this valuation includes results reflecting the LLNL transfer elections, it does not reflect the actual transfer of assets and liabilities to the LLNS defined benefit plan. This means that the results of this valuation include liabilities even for members who have elected to transfer to the LLNS defined benefit plan. As noted above, we have continued to value these members as UCRP members and their liabilities are shown in the results. LLNL employees **who elected not** to participate in the LLNS defined benefit plan are included in the valuation results either as retired, terminated vested, or nonvested members.

ASSETS

- During the July 1, 2007 through September 30, 2007 period, the rate of return on the unaudited market value of assets was 2.5%. Due to the recognition of prior investment gains, the rate of return on the actuarial value of assets was 3.1%, which is above the expected annual return of 7.5% (1.8% for a 3-month period).

Significant Issues in Valuation (continued)

FUNDED RATIO

- The funded ratio for LLNL's portion of the Plan on an actuarial basis increased from 98.7% as of July 1, 2007 to 98.9% as of September 30, 2007 before reflecting elections and was 102.8% as of September 30, 2007 after reflecting elections. Before reflecting elections, the LLNL portion of the Plan remains in an underfunded position as the actuarial accrued liability exceeds the actuarial value of assets by $55 million. After reflecting the elections, the LLNL portion of the Plan shifts to an overfunded position as the actuarial value of assets exceeds the actuarial accrued liability by $136 million as of October 1, 2007.

FUTURE EXPECTATIONS

- No contributions were recommended for the 2007-2008 Plan Year. This was due to the application of the full funding policy that the Regents adopted in 1990. Member contributions are all currently being redirected to the UC Defined Contribution Plan.

DEMOGRAPHIC EXPERIENCE

- Prior to reflecting the LLNL transfer elections, the number of UCRP active members considered LLNL employees for valuation purposes decreased by 9.1% from 7,264 as of July 1, 2007 to 6,602 as of October 1, 2007. Total covered compensation decreased by 8.6%, to a level of $682.9 million. As of October 1, 2007, LLNL has 5,402 members currently receiving benefits, an increase of 13.3% from July 1, 2007. Total annual benefits in pay status increased by 19.7%, to a level of $217.9 million. There are also 1,764 terminated members who are entitled to future benefits. Within this group of terminated members, there are 1,212 terminated vested members who are entitled to a deferred or immediate vested benefit and 552 terminated nonvested members who are entitled to a refund of member contributions or payment of their Capital Accumulation Provision (CAP) balance.
- The LLNL transfer elections showed the following:
  - There were 3,907 active members who elected to transfer to the LLNS defined benefit plan. As described earlier, we have continued to value these members as active UCRP members.
  - There were 146 active members who elected inactive status in UCRP and are at least age 59. Consistent with current practice, we have assumed immediate commencement of their retirement benefits.

- There were 1,801 active members who elected inactive status and were vested in UCRP, but not yet assumed to retire. These members were valued as terminated vested members in this valuation.
- There were 748 active members who were not vested in UCRP and did not elect to transfer to the LLNS defined benefit plan. Of these members, only 73 have a member contribution or CAP balance. These members were valued as terminated nonvested members in this valuation due a refund of member contributions or CAP balance payment.
- There were also 36 members who were on a leave of absence as of September 30, 2007, and elected to transfer to the LLNS defined benefit plan. These members were valued as either terminated vested or nonvested members in this valuation, depending on each member's circumstance.

- Alternate payees of members that transferred to the LLNS defined benefit plan were allowed to make an election either to have their benefit retained in UCRP or to have their benefit transferred to the LLNS defined benefit plan. This report does not reflect the impact of these elections. Once these elections are made, then they will be reflected in the calculation of the assets to be retained in UCRP.

Summary of Key Valuation Results

	October 1, 2007	October 1, 2007	July 1, 2007
Contributions for year beginning:	After Elections	Before Elections	
Recommended	N/A	N/A	$ 0
Percentage of payroll	N/A	N/A	0.00%
Funding elements for year beginning:			
Market value of assets allocated to LLNL*	$5,600,667,264	$5,600,667,264	$5,527,473,271
Actuarial value of assets (AVA)	5,080,611,591	5,080,611,591	4,990,733,032
Actuarial accrued liability (AAL)**	4,944,487,581	5,136,000,205	5,057,081,148
Unfunded/(Overfunded) actuarial accrued liability	(136,124,010)	55,388,614	66,348,116
Funded ratio (AVA / AAL)	102.8%	98.9%	98.7%
Current liability	4,520,270,128	4,415,771,170	4,274,605,775
Covered payroll	376,910,829	628,908,187	681,953,976
Demographic data for year beginning:			
Number of retired members and beneficiaries	5,402	5,402	4,767
Number of vested terminated members***	3,784	1,764	1,763
Number of active members****	3,907	6,602	7,264
Average compensation (average dollars)	$103,877	$103,440	$102,900

* *The October 1, 2007 value represents the market value of UCRP assets associated with UCRP members' LLNL service during the performance of Contract 48 ("A").*

** *As of October 1, 2007, after elections, the liability associated with those LLNL members who are retired or inactive and retained by UCRP is $3,780,314,849 ("B"). Following the Contract 48 formula of "A-B" yields $1,820,352,415 as the amount to be transferred to the LLNS defined benefit plan as of October 1, 2007. The DOE/NNSA has elected to retain an additional $75,000,000 of this transfer amount in UCRP as a contribution reserve amount. Therefore, $1,745,352,415 is the amount to be transferred to the LLNS defined benefit plan as of October 1, 2007. This amount will be adjusted for investment return, allocable expenses, benefit payments and any other appropriate adjustments through the anticipated transfer date of early April 2008.*

*** *Includes terminated nonvested members due a refund of member contributions or CAP balance payment, and for October 1, 2007, includes 36 members who were on a leave of absence as of September 30, 2007, and elected to transfer to the LLNS defined benefit plan.*

**** *After elections, this represents the active members transferring to the LLNS defined benefit plan.*

EXHIBIT L

Section 415 Limitations

Section 415 of the Internal Revenue Code (IRC) specifies the maximum benefits that may be paid to an individual from a defined benefit plan and the maximum amounts that may be allocated each year to an individual's account in a defined contribution plan.

A qualified pension plan may not pay benefits in excess of the Section 415 limits. The ultimate penalty for non-compliance is disqualification: active participants could be taxed on their vested benefits and the IRS may seek to tax the income earned on the plan's assets.

In particular, Section 415(b) of the IRC limits the maximum annual benefit payable at the Normal Retirement Age to a dollar limit indexed for inflation. That limit is $180,000 for 2007 and $185,000 for 2008. Normal Retirement Age for these purposes is age 62. These are the limits in simplified terms. They must be adjusted based on each participant's circumstances, form of benefits chosen and after tax contributions.

The University pays benefits in excess of the limits through a 415(m) Restoration Plan.

Legal Counsel's review and interpretation of the law and regulations should be sought on any questions in this regard.

EXHIBIT M

Definitions of Pension Terms

The following list defines certain technical terms for the convenience of the reader:

Assumptions or Actuarial Assumptions: The estimates on which the cost of the Plan is calculated including:

(a) Investment return — the rate of investment yield that the Plan will earn over the long-term future;

(b) Mortality rates — the death rates of employees and pensioners; life expectancy is based on these rates;

(c) Retirement rates — the rate or probability of retirement at a given age;

(d) Turnover rates — the rates at which employees of various ages are expected to leave employment for reasons other than death, disability, or retirement.

Normal Cost: The amount required to fund the level cost allocated to the current year of service.

Actuarial Accrued Liability for Actives: The accumulated value of normal costs allocated to the years before the valuation date.

Actuarial Accrued Liability for Pensioners: The single sum value of lifetime benefits to existing pensioners. This sum takes account of life expectancies appropriate to the ages of the pensioners and of the interest that the sum is expected to earn before it is entirely paid out in benefits.

Unfunded (Overfunded) Actuarial Accrued Liability: The extent to which the actuarial accrued liability of the Plan exceeds (or is exceeded by) the assets of the Plan. There are many approaches to recognizing the unfunded or overfunded actuarial accrued liability, from meeting the interest accrual only to amortizing it over a specific period of time.

Amortization of the Unfunded (Overfunded) Actuarial Accrued Liability:	Payments made over a period of years equal in value to the Plan's unfunded or overfunded actuarial accrued liability.
Investment Return:	The rate of earnings of the Plan from its investments, including interest, dividends and capital gain and loss adjustments, computed as a percentage of the average value of the fund. For actuarial purposes, the investment return reflects a smoothing of market gains and losses to avoid significant swings in the value of assets from one year to the next.
Current Liability:	The actuarial present value of accumulated plan benefits.
Beneficiary:	Used for statistical purposes only; includes Eligible Survivors, Contingent Annuitants and Spouses/Domestic Partners

EXHIBIT I

Actuarial Assumptions and Methods

Demographic Assumptions

Post – Retirement Mortality Rates:

Healthy: 1994 Group Annuity Reserving Mortality Table unloaded, projected with scale AA to 2002. Ages are set back two years for males (from the male table) and set back one year for females (from the female table).

Disabled: RP-2000 Disabled Retiree Mortality Table. Ages are set back two years for males (from the male table) and set back one year for females (from the female table).

Retirement Age and Benefit for Deferred Vested Members:	Deferred vested members are assumed to retire at age 59.
Form of Payment:	For those members not electing a Lump Sum Cashout: Life annuity for members without a survivor; 25% contingent annuity for members with Social Security who have a survivor; 50% contingent annuity for members without Social Security who have a survivor; 50% contingent annuity for Safety members who have a survivor. It is also assumed that some members elect a Lump Sum Cashout (see Lump Sum Assumptions).
Future Benefit Accruals:	1.0 year of service per year for the full-time employees. Part-time employees are assumed to earn full-time service for all future years.
Definition of Active Members:	All members of UCRP who are not separated from active employment as of the valuation date or have not started receiving a monthly pension on or before the valuation date. The results of this valuation include liabilities even for members who have elected to transfer to the LLNS defined benefit plan. These members are still valued as UCRP members and their liabilities are shown in these results.
Percent with Survivors:	85% of male members and 65% of female members are assumed to have survivors at time of decrement.
Survivor Ages:	Members assumed to have an opposite sex spouse or domestic partner, with females three years younger than males.

Number of Survivors (Samples):

	Number of Survivors per Active Member with Survivors	
Age	**Male**	**Female**
20	1.0	1.0
25	1.8	2.1
30	2.2	2.7
35	2.7	2.8
40	3.0	2.4
45	2.8	2.1
50	2.5	1.7
55	2.0	1.4
60	1.5	1.2
65	1.3	1.1

<u>Economic Assumptions</u>

Net Investment Return: 7.50% (including 3.50% for inflation)

Consumer Price Index: Increase of 3.50% per year.

Administrative Expenses: 0.50% of payroll added to normal cost.

Salary Increases:

Annual Rate of Compensation Increase

Inflation: 3.50% per year, plus “across the board” salary increases of 0.25% per year, plus the following merit and promotional increases:

Years of Service	Faculty	Staff and Safety
Less than 1	3.25%	3.25%
1	3.25	3.00
2	3.25	2.80
3	3.25	2.50
4	3.25	2.20
5	3.25	2.00
6	3.20	1.80
7	3.10	1.70
8	3.00	1.60
9	2.90	1.50
10	2.80	1.40
11	2.70	1.30
12	2.60	1.20
13	2.50	1.10
14	2.40	1.00
15	2.30	0.90
16	2.20	0.80
17	2.10	0.75
18	2.00	0.70
19	1.75	0.65
20 & over	1.50	0.60

<u>Actuarial Methods</u>	
Actuarial Value of Assets:	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual and the expected returns on a market value basis and is recognized over a five-year period. For assets allocated to LLNL, this is approximated as the total UCRP actuarial value multiplied by the ratio of market value of LLNL allocated assets to the total UCRP market value.
Actuarial Cost Method:	Entry Age Normal Actuarial Cost Method. Entry Age is calculated as the valuation date minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salaries, as if the current benefit accrual rate has always been in effect.
Covered Payroll:	Covered payroll for a Plan Year is determined by annualizing actual payroll for the prior Plan Year increased by the assumed rate of salary growth. Covered payroll is then reduced to anticipate members who leave active status during the year.
<u>Other Actuarial Assumptions</u>	
Lump Sum Assumptions:	
Discount Rate:	7.50%
COLA:	2.00%
Mortality:	1994 Group Annuity Reserving Mortality Table unloaded for males set back three years, projected with scale AA to 2002.
Take-rate:	For those members retiring from active employment and for those who were receiving a disability income and now retiring, we are assuming that 12% elect a Lump Sum Cashout. For those members retiring from inactive (deferred vested) status, we are assuming that 45% elect a Lump Sum Cashout.

Approximations:	
Sick Leave	Service has been increased by 0.15% for Faculty, 1.40% for Staff, and 2.25% for Safety members to account for unused sick leave. This assumption applies only for members retiring from active employment and not electing a Lump Sum Cashout. For all other benefits there is assumed to be no conversion of unused sick leave to service credit.
Changes in Actuarial Assumptions:	There have been no changes in actuarial assumptions since the previous valuation.

EXHIBIT II

Summary of Plan Provisions

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Effective Date:	April 24, 1954. Includes amendments through October 1, 2007.
Covered Employees:	Generally all employees who are not members of another retirement system to which the Regents contribute, and who: a. Are appointed to work 50% time or more for one year or longer or b. Have generally accumulated at least 1,000 hours in a 12-month period.
Highest Average Plan Compensation (HAPC):	Highest average monthly full-time-equivalent base compensation rate received during any period of 36 consecutive months.

Age Factor: Percentage of HAPC per year of service credit (interpolated for fractional ages).

Nonsafety Members

Age	Factor	Age	Factor
50	1.10%	56	1.94%
51	1.24	57	2.08
52	1.38	58	2.22
53	1.52	59	2.36
54	1.66	60+	2.50
55	1.80		

Safety Members 3.0% at all ages 50 and above.

Tier II Members Equal to one-half of the Age Factor for Nonsafety Members.

Benefit Percentage: Age Factor multiplied by years of service credit; not to exceed 100%.

Basic Retirement Income (BRI):

Members without Social Security Benefit Percentage x HAPC.

Members with Social Security Benefit Percentage x HAPC in excess of $133 per month.

Safety Members Benefit Percentage x HAPC.

Service Retirement:	
Eligibility	Age 50 with 5 years of service credit, or Age 62 regardless of service credit if membership began on or before July 1, 1989, or Retirement on Normal Retirement Date.
Benefit	BRI.
Form of Payment	Single Life Annuity.
Payment Options	Full continuance to contingent annuitant; two-thirds continuance to contingent annuitant; one-half continuance to contingent annuitant; one-half continuance (including postretirement survivor continuance) to surviving spouse or domestic partner (for members with Social Security only).
Lump Sum Cashout	May be elected in lieu of monthly retirement income.
Temporary Social Security Supplement:	
Eligibility	For members with Social Security only and retirement must occur before age 65.
Benefit	Temporary annuity payable to age 65 in the amount of $133 per month multiplied by Benefit Percentage.
Form of Payment	Single Life Annuity.
Payment Options	None.

Disability:

Eligibility	Disablement after five years of service credit; safety members are eligible for duty disability without regard to years of service credit. Service credit continues to accrue during disabled period.
Benefit	
Member without Social Security	25% of final salary, plus 5% of final salary per year of service credit greater than two, total not to exceed 40% of final salary, plus 5% of final salary for each eligible child, total not to exceed 20% of final salary.
Member with Social Security	15% of final salary, plus 2.5% of final salary per year of service credit greater than two, total not to exceed 40% of final salary, less $106.40 per month.
Safety Members(Non-duty)	Same as for members without Social Security; includes eligible child's benefit.
Safety Members(Duty)	50% of HAPC, or non-duty disability benefit if greater.
Form of Payment	Single life annuity payable until end of disability income period or retirement date if earlier.
Disability Income Period	
Members disabled before November 5, 1990	To earliest of: Date member is eligible to retire and retirement income equals or exceeds disability income; Age 62 (age 67 for members without Social Security); or Date member retires.
Members disabled on or after November 5, 1990	If under age 65 at disablement: Members with Social Security: to age 65 or five years if longer. Members without Social Security: to age 67 or five years if longer. If age 65 or older at disablement: to age 70 or 12 months if longer. Disability income ends if member is no longer disabled.

Vested Termination:	
Eligibility	Five years of service credit, or age 62 regardless of service credit if membership began on or before July 1, 1989.
Benefit	BRI beginning at age 50 or later, calculated using HAPC at termination date, adjusting for CPI changes (see Cost-of-Living Adjustment), and benefit formula in effect when benefits commence.
Form of Payment	As for retirement.
Payment Options	As for retirement.
Refund Option	Member may elect a refund of contributions with interest, thereby forfeiting all other benefits.
Lump Sum Cashout	May be elected in lieu of retirement income, available only if at least age 50 with five years service credit at date of termination.

Preretirement Survivor Income:

Eligibility — Eligible survivor of deceased active or disabled member with two or more years of service credit; no service requirement for duty-related death of Safety member.

Benefit

Member without Social Security — Percent of final salary as follows:

Eligible Survivors	Percent	Minimum Benefit
1	25%	$200
2	35	$300
3	40	$300 plus 5% of final salary
4	45	$300 plus 10% of final salary
5+	50	$300 plus 15% of final salary

Member with Social Security — 25% of final salary less $106.40 per month.

Safety Members, non-duty death — As for members without Social Security.

Safety Members, duty death — Percentage of HAPC as follows, but not less than benefit for non-duty death.

Eligible Survivors	Percent of HAPC
1	50.0%
2	62.5
3	70.0
4+	75.0

Death while eligible to retire

Eligibility — Surviving spouse or surviving domestic partner of active, disabled or inactive member who dies while eligible to retire.

Benefit — Greater of benefit described above or monthly benefit to eligible spouse or eligible domestic partner assuming member had retired on date of death and elected full continuance option with spouse or domestic partner as contingent annuitant.

Postretirement Survivor Continuance:	
Eligibility	Eligible surviving spouse, eligible surviving domestic partner, eligible children or eligible dependent parent of deceased retired member.
Benefit	
Member without Social Security	50% of BRI including COLA.
Member with Social Security	25% of BRI including COLA, plus 25% of Temporary Social Security Supplement (ends when member would have reached age 65).
Safety Members	50% of BRI including COLA.
Lump Sum Death Benefit:	
Eligibility	Beneficiary of deceased active, inactive, disabled, or retired member.
Basic Benefit	
Active member who became a member before October 1, 1990	Greater of :
	$1,500 plus one month's final salary, or $7,500.
All others	$7,500
Residual Benefit	Refund of member contributions plus interest, reduced by a portion of benefits received (100% of retirement income, 50% of preretirement survivor income or disability income) payable to beneficiary if no survivor, surviving spouse, domestic partner, or contingent annuitant.
Normal Retirement Date:	Attainment of age 60 with five years of service credit.

Eligible Survivor:	
Eligible Spouse or Domestic Partner	Spouse or domestic partner of deceased active or disabled member in relationship for at least one year before date of death and who is:
	Responsible for care of eligible child, disabled, or age 60 (age 50 if spouse of member without Social Security and in Plan prior to October 19, 1973).
Eligible Child	Child that is either under age 18, under age 22 and a full-time student, or disabled, if disability occurred prior to age 18 or age 22 if a full-time student.
Eligible Dependent Parent	Parent of deceased active, disabled or retired member, supported by 50% or more by member for one year prior to earliest of death, disablement or retirement.
Inactive Member:	Former UCRP member who retains right to vested benefits.
Cost-of-Living Adjustment:	
Basic	100% of annual Consumer Price Index (CPI) increase up to 2% per year.
Supplemental	Generally 75% of annual CPI increase above 4%.
	The sum of the Basic and Supplemental COLA's cannot exceed 6% in a year.
COLA applies to:	
Retired members, survivors, disabled members, and contingent annuitants receiving retirement income	Benefits in pay status one or more years on July 1.
Inactive members	HAPC (used to calculate retirement income) adjusted for COLA up to 2% per year from separation date to retirement date; retirement income adjusted using COLA formula.
Disabled members receiving disability income since before November 5, 1990	HAPC (used to calculate retirement income) adjusted for COLA up to COLA formula above for years from disablement to retirement date.

Capital Accumulation Provision (CAP):

Eligibility	Active member on specified date; benefits immediately vested.
Allocation Dates	
April 1, 1992	Active member from December 31, 1991 through April 1, 1992: 5.0% of 1991 calendar year covered compensation.
July 1, 1992	Active member on July 1, 1992: 2.5% of 1991-1992 fiscal year covered compensation.
July 1, 1993	Active member on July 1, 1993: 2.5% of 1992-1993 fiscal year covered compensation.
November 1, 1993	Active member on October 1, 1993 and subject to 1993-1994 salary plan: 5.26% of July through October 1993 covered compensation. Not applicable for laboratory members.
July 1, 1994	Active member on June 1, 1994 and subject to 1993-1994 salary plan: 2.67% of November 1993 through June 1994 covered compensation. Not applicable for laboratory members.
May 1, 2002	Active member on April 1, 2002: 3.0% of April 2001 through March 2002 covered compensation.
May 1, 2003	Active member on April 1, 2003: 5.0% of April 2002 through March 2003 covered compensation.
Interest Credit	Regent's approved interest rate; currently 8.5% per year for pre-2002 CAPs and 7.5% for 2002 and later CAPs (CAP II).
Payment	Lump sum payment upon termination, retirement or death.

University Contributions: Determined by the Entry-Age Normal Cost method. Beginning with the 1990 plan year, the Regents adopted a full funding policy. Under that policy, the University will suspend contributions when the smaller of the market value or the actuarial value of plan assets exceeds the lesser of:

The actuarial accrued liability (including normal cost), or

150% of the estimated current liability (including normal cost).

Member Contributions:	Member contributions are currently being redirected to the UC Defined Contribution Plan.
Members without Social Security	3.0% of covered compensation, less $19 per month.
Members with Social Security	2.0% of covered compensation up to the Social Security wage base, plus 4.0% of excess covered compensation, minus $19 per month.
Safety Members	3.0% of covered compensation, less $19 per month.
Interest Credit	Regents' approved interest rate; currently 6.0% per year.
Changes in Plan Provisions:	There have been no changes in plan provisions since the last valuation that have a material impact on Plan liabilities and normal cost. Active members at the Lawrence Livermore National Laboratory made an election to either become inactive in UCRP or to transfer to a defined benefit plan that begins effective October 1, 2007 for the Lawrence Livermore National Security LLC (LLNS). This valuation includes results reflecting the LLNL transfer elections. However, it does not reflect the actual transfer of assets and liabilities to the LLNS defined benefit plan. This means that the results of this valuation include liabilities even for members who have elected to transfer to the LLNS defined benefit plan. These members are still valued as UCRP members and their UCRP liabilities are shown in the results. LLNL members **who elected not** to transfer to the LLNS defined benefit plan are included in the valuation results either as retired, terminated vested or nonvested members.

Exhibit 1A

Summary of Changes to October 1, 2007 Lawrence Livermore National Laboratory Special Interim Addendum Report

Page ii, Second Bullet – Change $75 million to $140 million. Change $1.745 billion to $1.680 billion.

Page v, Second Footnote – Change $75 million to $140 million. Change $1,745,352,415 to $1,680,352,415.

Changed pages attached.

Significant Issues in Valuation (continued)

- The LLNL transfer elections reflected in this valuation are based on the transfer election data provided by the University as of November 6, 2007.
- We have calculated the amount of assets to be retained in UCRP for LLNL members who have retired or are inactive, and the amount of the assets that will be transferred to the LLNS defined benefit plan for the transitioning employees who elected to participate in the LLNS defined benefit plan based on the "A – B" formula listed in Contract 48, Clause H.008. "A" represents the market value of UCRP assets associated with UCRP members' LLNL service during the performance of Contract 48 and is $5.601 billion. "B" represents the liability associated with those LLNL members who are retired or inactive and retained by UCRP and is $3.780 billion. Under this calculation, the amount of assets as of October 1, 2007 to be transferred from UCRP to the LLNS defined benefit plan would be "A – B", or $1.820 billion (rounded). The DOE/NNSA has elected to leave an additional $140 million of this transfer amount in UCRP as a contribution reserve amount. Therefore, $1.680 billion (rounded) is the amount to be transferred to the LLNS defined benefit plan as of October 1, 2007. The amount to be transferred will be adjusted for investment return, allocable expenses and any other appropriate adjustments through the anticipated transfer date of early April 2008.
- While this valuation includes results reflecting the LLNL transfer elections, it does not reflect the actual transfer of assets and liabilities to the LLNS defined benefit plan. This means that the results of this valuation include liabilities even for members who have elected to transfer to the LLNS defined benefit plan. As noted above, we have continued to value these members as UCRP members and their liabilities are shown in the results. LLNL employees **who elected not** to participate in the LLNS defined benefit plan are included in the valuation results either as retired, terminated vested, or nonvested members.

ASSETS

- During the July 1, 2007 through September 30, 2007 period, the rate of return on the unaudited market value of assets was 2.5%. Due to the recognition of prior investment gains, the rate of return on the actuarial value of assets was 3.1%, which is above the expected annual return of 7.5% (1.8% for a 3-month period).

Summary of Key Valuation Results

	October 1, 2007	October 1, 2007	July 1, 2007
Contributions for year beginning:	After Elections	Before Elections	
Recommended	N/A	N/A	$ 0
Percentage of payroll	N/A	N/A	0.00%
Funding elements for year beginning:			
Market value of assets allocated to LLNL*	$5,600,667,264	$5,600,667,264	$5,527,473,271
Actuarial value of assets (AVA)	5,080,611,591	5,080,611,591	4,990,733,032
Actuarial accrued liability (AAL)**	4,944,487,581	5,136,000,205	5,057,081,148
Unfunded/(Overfunded) actuarial accrued liability	(136,124,010)	55,388,614	66,348,116
Funded ratio (AVA / AAL)	102.8%	98.9%	98.7%
Current liability	4,520,270,128	4,415,771,170	4,274,605,775
Covered payroll	376,910,829	628,908,187	681,953,976
Demographic data for year beginning:			
Number of retired members and beneficiaries	5,402	5,402	4,767
Number of vested terminated members***	3,784	1,764	1,763
Number of active members****	3,907	6,602	7,264
Average compensation (average dollars)	$103,877	$103,440	$102,900

* *The October 1, 2007 value represents the market value of UCRP assets associated with UCRP members' LLNL service during the performance of Contract 48 ("A").*

** *As of October 1, 2007, after elections, the liability associated with those LLNL members who are retired or inactive and retained by UCRP is $3,780,314,849 ("B"). Following the Contract 48 formula of "A-B" yields $1,820,352,415 as the amount to be transferred to the LLNS defined benefit plan as of October 1, 2007. The DOE/NNSA has elected to retain an additional $140,000,000 of this transfer amount in UCRP as a contribution reserve amount. Therefore, $1,680,352,415 is the amount to be transferred to the LLNS defined benefit plan as of October 1, 2007. This amount will be adjusted for investment return, allocable expenses, benefit payments and any other appropriate adjustments through the anticipated transfer date of early April 2008.*

*** *Includes terminated nonvested members due a refund of member contributions or CAP balance payment, and for October 1, 2007, includes 36 members who were on a leave of absence as of September 30, 2007, and elected to transfer to the LLNS defined benefit plan.*

**** *After elections, this represents the active members transferring to the LLNS defined benefit plan.*

Exhibit 2--Proposed Approach for Asset Allocation for Transfer to the LLNS Plan

The following is an illustration of the approach to determine the amount of each investment to be transferred from the University of California Retirement Plan (UCRP) to the Lawrence Livermore National Security, LLC, Defined Benefit Pension Plan (LLNS Plan) based on an estimated transfer amount of $1.745 billion on a hypothetical transfer date of September 30, 2007. Amounts will be changed when actual transfer is determined.

UCRP Summary			LLNL $ value of assets				
			1,745,352,415.00	% 0f UCRP

Pricing Procedures for Asset Classes
Held in the
University of California Retirement Plan

The asset classes held in the University of California Retirement Plan (UCRP) will be priced according to the Pricing Procedures described in the chart attached hereto as Attachment 1. The Pricing Procedures are used by State Street Investor Services (State Street), the custodian of the UCRP trust, to price the assets of UCRP generally. The procedures are subject to State Street's internal controls that are regularly tested and evaluated by an independent auditor.

Attached hereto as Attachment 2 is the Report of Independent Service Auditors (Report) on State Street's internal controls related to its recordkeeping and custody services. The Report was prepared by PriceWatehouseCoopers for the period April 1, 2007 through September 30, 2007 in accordance with standards established by the American Institute of Contribution Public Accountants (Statement on Auditing Standards No. 70, as amended).

Attached hereto as Attachment 3 are the relevant pages from Section V of the Report that address controls providing reasonable assurance that securities are valued completely and in accordance with client instructions.

Report of Independent Service Auditors
on State Street Investor Services Global Controls
Related to Recordkeeping and Custody Services
April 1, 2007 through September 30, 2007

GLOBAL CONTROLS EXAMINATION
APRIL 1, 2007 THROUGH SEPTEMBER 30, 2007

Report on the Controls of State Street Investor Services as a Service Organization

STATE STREET CORPORATION INVESTOR SERVICES

PRICEWATERHOUSECOOPERS

PricewaterhouseCoopers LLP
125 High Street
Boston MA 02110
Telephone (617) 530 5000
Facsimile (617) 530 5001

Report of Independent Auditors

To the Management and the Board of Directors of State Street Corporation:

We have examined the accompanying description of the controls related to the custody and recordkeeping functions of State Street Corporation ("State Street") applicable to the processing of transactions and the safekeeping of assets for customers of State Street's Investor Services ("Investor Services"), including its operations and related support areas in Australia, Canada, Germany, Hong Kong, India, Ireland, Japan, Luxembourg, the Netherlands, Singapore, South Africa, the United Kingdom and the United States of America, as described in Section II A. Our examination included procedures to obtain reasonable assurance about whether (1) the accompanying description in Sections II through V presents fairly, in all material respects, the aspects of State Street's controls that may be relevant to a user organization's internal control related to recordkeeping and custody of the assets of customers of Investor Services as it relates to an audit of financial statements; (2) the controls included in the description in Section V were suitably designed to achieve the control objectives specified in the description in Section V, if those controls were complied with satisfactorily and customers and subservicers of Investor Services applied the controls contemplated in the design of State Street's controls, as described in Section II F; and (3) such controls had been placed in operation as of September 30, 2007. The control objectives were specified by the management of State Street. Our examination was performed in accordance with standards established by the American Institute of Certified Public Accountants and included those procedures we considered necessary in the circumstances to obtain a reasonable basis for rendering our opinion.

Investor Services uses various third-party service organizations to obtain information and to perform various functions related to the recordkeeping for and the custody of assets. The accompanying description includes only those controls and related control objectives of State Street's Investor Services and supporting areas, and does not include controls and related control objectives at the subservice organizations described in Section II F. Our examination did not extend to controls of these subservice organizations.

In our opinion, the accompanying description of the aforementioned controls presents fairly, in all material respects, the relevant aspects of State Street's controls that had been placed in operation as of September 30, 2007. Also, in our opinion, the controls, as described in Section V of this report, are suitably designed to provide reasonable assurance that the specified control objectives would be achieved if the described controls were complied with satisfactorily, and the customers and subservicers of Investor Services applied the controls contemplated in the design of State Street's controls.

In addition to the procedures we considered necessary to render our opinion as expressed in the previous paragraph, we applied tests to specific controls, listed in Section V, to obtain evidence about their effectiveness in meeting the control objectives, during the period from April 1, 2007 to September 30, 2007. The specific control objectives and controls, and the nature, timing, extent, and results of the tests are listed in Section V and VI. This information has been provided to customers of Investor Services and to their auditors to be taken into consideration, along with information about the internal control at customer organizations, when making assessments of control risk for customer organizations. In our opinion, the controls that were tested, as described in Section V, were operating with sufficient effectiveness to provide reasonable, but not absolute, assurance that the specified control objectives were achieved during the period from April 1, 2007 to September 30, 2007. However, as described in Section II, the scope of our engagement did not include tests of operating effectiveness of certain control activities in every location and accordingly, State Street anticipates that user auditors will evaluate the operating effectiveness of such controls outlined in Section V.

The relative effectiveness and significance of specific controls at State Street and their effect on assessments of control risk at customers of Investor Services are dependent on their interaction with the controls and other factors present at individual customer organizations. We have performed no procedures to evaluate the effectiveness of controls at individual customers of Investor Services.

The description of controls at State Street is as of September 30, 2007, and the information about tests of the operating effectiveness of specific controls covers the period from April 1, 2007 to September 30, 2007. Any projection of such information to the future is subject to the risk that, because of change, the description may no longer portray the controls in existence. The potential effectiveness of specific controls at State Street is subject to inherent limitations and accordingly, errors or fraud may occur and not be detected. Furthermore, the projection of any conclusions, based on our findings, to future periods is subject to the risk that changes made to the system or controls or the failure to make needed changes to the system or controls, may alter the validity of such conclusions.

The information included in Section VII is presented by State Street to provide additional information and is not part of State Street's description of controls that may be relevant to user organizations' internal control as it relates to an audit of financial statements. The information in Section VII has not been subjected to the procedures applied in the examination of the description of the controls of Investor Services, and accordingly, we express no opinion on it.

This report is intended solely for use by the management of State Street, customers of Investor Services, and the independent auditors of its customers.

PricewaterhouseCoopers LLP

December 12, 2007

ATTACHMENT 3 TO EXHIBIT 3

Relevant Pages from Section V–State Street Investor Services
Global Controls Examination
Control Objective 8

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
Global Pricing Services ("GPS") located in the U.K. and the U.S. provides pricing support services for NAVigator and MCH to State Street's global client base. Clients requiring daily pricing primarily use the NAVigator system. Clients requiring less time-critical, non-daily valuations primarily use MCH. GPS in the U.S. provides exchange rates to State Street's global client base for both MCH and NAVigator priced funds.		
GLOBAL PRICING SERVICES Securities price data is electronically obtained daily using third-party pricing vendors. Vendor pricing feeds are monitored for completeness and accuracy through record counts and date checks. Pricing administration and data center operations personnel also monitor the daily vendor transmission process for timeliness and completeness.	Utilized on-line testing to test that vendor pricing feeds contain completeness and accuracy checks through record counts and date comparisons. Observed the receipt and processing of portfolio pricing data.	No relevant exceptions noted. No relevant exceptions noted.
Pricing data obtained from third-party vendors automatically populates the pricing database. NAVigator electronically retrieves prices from the pricing database based on the unique asset identifier and the associated NAVigator price source code. Priced holdings on MCH are available to users once the overnight batch job update has been completed.	Utilized an ITF to test the NAVigator pricing process by transmitting test fund positions to the NAVigator system for pricing. Utilized an ITF to test that fund positions on MCH are priced.	No relevant exceptions noted. No relevant exceptions noted.
NAVigator pricing parameters (i.e., pricing sources, pricing methods, foreign exchange sources, tolerance levels and market indices) are based on the client's instructions. MCH pricing parameters (i.e., pricing sources, pricing methods, foreign exchange sources, tolerance levels and market indices) use a standard MCH pricing hierarchy unless instructed otherwise by the client.	*In all of the locations, State Street anticipates that the user auditor will evaluate the operating effectiveness of the set-up of pricing sources on NAVigator in accordance with client instructions.*	

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
GPS personnel set up new funds in NAVigator upon receipt of the NAVigator User Request Form from authorized personnel in the portfolio administration group. A review is performed to compare the information posted to NAVigator to the NAVigator User Request Form. Exceptions are followed up on and resolved.	Observed the procedures performed by GPS personnel to set up a new fund on NAVigator based on the NAVigator User Request Form.	No relevant exceptions noted.
	For a selection of new funds set up or changes made during the period, inspected the NAVigator User Request Form received by GPS for evidence of signed authorization by appropriate personnel in the portfolio administration group.	No relevant exceptions noted.
	Inspected a selection of new funds set up and changes made during the period, to verify accuracy of the new fund set-up and changes made, and evidence of review.	No relevant exceptions noted.
GPS performs second source data quality checks on listed equity securities for which there are two prices available. Exceptions are researched and prices are updated in NAVigator, if required, for both NAVigator and MCH users.	Observed the procedures performed by GPS personnel to review and research exceptions resulting from second source data quality checks for equity securities.	No relevant exceptions noted.
	Inspected a selection of data quality reports for evidence of proper research and review of exceptions from second source quality checks.	No relevant exceptions noted.
Tolerance failures on fixed-income securities may be verified to a second source; however, exceptions are generally returned to the original vendor in the form of a price challenge.	Observed the process performed by GPS personnel to review and research fixed-income securities which exceed day-to-day State Street tolerance levels.	No relevant exceptions noted.
EXCHANGE RATES Currency exchange rates are obtained at specific intervals throughout the day from Reuters and WM Company.	Observed the receipt and processing of currency exchange rates.	No relevant exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
For rates provided by Reuters only, MCH compares the prior day's exchange rate to the current day's exchange rate. Out-of-tolerance (exceed predetermined threshold) exchange rate reports for Reuters are reviewed daily by the Global Pricing Services' staff. The out-of-tolerance exchange rates including stale and missing exchange rates are checked to another independent source. Following verification and management review, exchange rates are approved and made available to users through MCH.	Inspected a selection of out-of-tolerance, missing and stale exchange rates for evidence of proper verification and review.	No relevant exceptions noted.
	Utilized CAAT to reperform the automated out-of-tolerance report for WM and Reuters exchange rates to assess its completeness and accuracy.	No relevant exceptions noted.
	Utilized an ITF to test the mark-to-market of foreign currency denominated payable and receivable balances on MCH.	No relevant exceptions noted.
NAVigator PRICING Australia, Canada, Ireland, Luxembourg and the U.K. have centralized processing units (e.g., centralized valuation groups) that are responsible for performing review of manual pricing and/or rejected prices. The centralized processing unit in Luxembourg performs these controls on behalf of Germany and the Netherlands. In the U.S. these controls are performed by the individual portfolio administration groups. Hong Kong and Singapore do not price on NAVigator.		
NAVigator alerts the centralized processing unit personnel or portfolio administrator if the pricing data is not the most recent data.	Utilized an ITF to test on-line edit controls surrounding non-current pricing data.	No relevant exceptions noted.
NAVigator calculates security price and foreign exchange rate tolerance limits that are determined by the customer.	Utilized an ITF to test the mathematical accuracy of the NAVigator tolerance check function.	No relevant exceptions noted.
As the price sources become available (portfolio administrators monitor price source receipt on-line), prices rejected by the system edit checks are retrieved and reviewed.	Utilized an ITF to test reporting of rejected reason and status codes for out-of-tolerance pricing data.	No relevant exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
The portfolio administration groups or centralized processing units review manual source pricing data, price overrides and other price adjustments (including Fair Value received directly from the client) for authorization and completeness then manually enter the information in NAVigator.	Observed the review of manual source pricing data performed for completeness and accuracy.	No relevant exceptions noted.
	Inspected a selection of pricing reports, and supporting documentation for evidence of review of prices manually input to NAVigator (i.e., manual source pricing, price overrides, price adjustments).	For one of 248 funds selected for testing, PwC noted there was no evidence of review of the pricing report. MANAGEMENT RESPONSE The above fund is serviced by U.S. Investment Services. Management has reviewed the exception noted, and has reinforced with staff the requirement for proper evidence of review of the pricing report.
The Rejected Pricing Report or equivalent (detailing the securities previous and current day prices, percentage change, reject reason code and status) is reviewed daily by the portfolio administration group or centralized processing units supervisory personnel. Price reject reasons include manually input prices, tolerance failure, no price or stale price.	Observed the review of the Rejected Pricing Report (or equivalent) by the pricing coordinator or supervisory personnel.	No relevant exceptions noted.
	Inspected a selection of pricing reports and supporting documentation, as applicable, for evidence of review of unpriced, stale, and out-of-tolerance prices.	No relevant exceptions noted.
Once exceptions have been resolved, NAVigator electronically calculates the portfolio's market value and net asset value.	Utilized an ITF to test the calculation and summarization of market values for individual securities and portfolios in total.	No relevant exceptions noted.
	Utilized an ITF to test that NAVigator requires verification of share totals prior to the net asset value calculation.	No relevant exceptions noted.
	Utilized an ITF to test the completeness and mathematical accuracy of the NAV Check Report.	No relevant exceptions noted.
A report to identify stale prices within the fixed-income security vendor feed files is run centrally for Investor Services within GPS. Prices that have not changed in 10 business days are researched via GPS personnel contacting the pricing vendor source monthly and then updating the pricing database as applicable.	Observed GPS personnel identify stale prices and then contact the pricing vendor or other independent source for resolution.	No relevant exceptions noted.
	Inspected a selection of stale price reports for evidence of proper follow up with vendors by GPS personnel.	No relevant exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
LUXEMBOURG NAVigator PRICING Certain vendor pricing feeds are received directly by the Luxembourg Pricing Team to meet specific client requests and for intraday pricing purposes. These feeds are monitored in Luxembourg and transmitted to NAVigator when received.	Luxembourg – For a selection of dates, reviewed the monitoring controls over vendor pricing feeds received by the Luxembourg Pricing Team and transmitted to NAVigator.	No relevant exceptions noted.
INTERNATIONAL FAIR VALUE PRICING Fair value pricing is performed in Canada, Luxembourg and the U.S. Fair value pricing is performed via the Fair Value Application ("FVA") or via NAVigator. Upon receipt of the Fair Value Application Set Up Form or the NAVigator Fund Add Form, Global Pricing Services sets the fund up for fair value pricing (e.g., vendor, trigger, exchanges, confidence level/significant measure, as applicable) within FVA or NAVigator after verifying that the set-up is approved by an authorized individual.	For a selection of Fair Valuation clients, inspected Fair Valuation Authorization Forms to test that the client was accurately set up on NAVigator and approved by an authorized individual.	No relevant exceptions noted.
Receipt of the vendor feeds are monitored by GPS. Neither NAVigator nor the FVA will accept a file from a day other than the current day.	Utilized an ITF to test that vendor factor feeds must be complete and not from a day other than the current day to be accepted by the FVA and NAVigator.	No relevant exceptions noted.
State Street will apply fair value pricing based upon client instructions (i.e., daily or predefined market trigger), which may include standing instructions.	Inquired of management concerning fair valuation triggers and procedures. *In Canada, Luxembourg and the United States, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of market movements in order to determine to use fair value pricing.*	No relevant exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
Fair Value Application Only After pricing securities on NAVigator and reviewing local prices for reasonability and accuracy, individual portfolio administration groups download a holdings file from NAVigator and upload into State Street's FVA. The number of records in the holdings file is validated when files are uploaded into the FVA. Upon completion of the upload the portfolio administrator receives an "upload successful" message.	Inquired of management with respect to the controls surrounding the transmission of pricing files between NAVigator and the Fair Value Application.	No relevant exceptions noted.
	Utilized an ITF to test controls over the completeness of the holdings file transmission into the FVA and the fair valuations sent back to NAVigator.	No relevant exceptions noted.
	Utilized on-line testing to test that the NAVigator Fair Value Price File cannot be generated and loaded into NAVigator until fair value factors have been received into the FVA.	No relevant exceptions noted.
	Utilized an ITF to observe that Fair Value Pricing feeds are automatically updated in NAVigator.	No relevant exceptions noted.
Fair Value Application Only Once the Fair Value factors have been received, the portfolio administration group will select the client authorized confidence interval, if applicable, and create the NAVigator Fair Value Price File, a list of the securities which were fair valued.	Utilized an ITF to select different confidence levels within the FVA and NAVigator and test that fair value factors from the vendor feeds are applied completely and accurately to the security prices based on the selected confidence levels and reported on the FV Comparison File appropriately.	No relevant exceptions noted.
Fair Value Application Only The portfolio administrator then creates and reviews the FV Comparison File showing securities fair valued and securities not fair valued. The portfolio administration group will upload the Fair Value Price File into NAVigator and will receive a message indicating the upload was successful along with the number of records processed and not processed.	Canada, Luxembourg and the U.S. – Inspected a selection of FV comparison files for appropriate selection of client specified confidence interval, if applicable.	No relevant exceptions noted.
	Canada, Luxembourg and the U.S. – Inspected a selection of FV comparison files for evidence of generation and review by the portfolio administration groups.	For four out of 75 funds selected for testing, PwC noted there was no evidence of review of the comparison file. MANAGEMENT RESPONSE The above funds are serviced by U.S. Investment Services. Management agrees that review was not properly evidenced and has reinforced with appropriate staff the need for evidence of review. Based on review of supporting documentation management believes that the control was correctly performed.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
(See previous page.)	(See previous page.)	In addition, management has reviewed the fair value pricing documents and verified that all securities that should have been fair valued were fair valued.
MCH PRICING Centralized processing units in Australia, Canada, Germany, India, Luxembourg and South Africa are responsible for performing review of out-of-tolerance reports. Centralized processing units in Australia, Canada, Germany, Luxembourg and South Africa are responsible for performing review of manual prices. In Germany, Hong Kong, Singapore, the U.K. and the U.S., portfolio administration groups are responsible for performing review of out-of-tolerance reports and manual prices. Ireland and the Netherlands do not use MCH pricing.		
Price requests for unpriced securities are submitted by the portfolio administrators or centralized processing unit to either GPS or the advisor.	Inquired of management concerning controls performed surrounding the periodic review and price request process for unpriced securities. *In Hong Kong and Singapore, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of unpriced securities.*	No relevant exceptions noted.
For securities priced on MCH, an automated application periodically retrieves unpriced securities from MCH. Global Pricing Services generates unpriced security reports from the daily holding files, which are researched throughout the month, such that an alternative/tertiary pricing source may be obtained for month-end pricing on MCH. At month end, GPS retrieves prices from the previously identified sources recorded in the unpriced security database and updates these prices to MCH for application to client holdings.	Observed the process performed by GPS personnel to research securities listed on the MCH unpriced securities report and to update the price in MCH.	No relevant exceptions noted.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
Once securities are priced, exception reports are generated from either MCH or Open System Accounting ("OSA"). The OSA price tolerance audit performed by the portfolio administrator identifies prices requiring further review, including manual, out-of-tolerance, new buys and no tolerance securities.	Inquired of management concerning controls performed surrounding the price tolerance audit.	No relevant exceptions noted.
	In Hong Kong and Singapore, State Street anticipates that the user auditor will evaluate the operating effectiveness of the controls surrounding the review of prices manually input and review of significant price movements and rejected or out-of-tolerance prices.	
Manual price updates are required to have written documentation. Portfolio administration group or centralized processing unit supervisory personnel review manual prices to source documentation.	*PwC's tests did not include controls around pricing that utilize spreadsheets requiring manual input of the unrealized appreciation/depreciation to MCH.* Inspected a selection of pricing reports and supporting documentation for evidence of review of prices manually input (i.e., manual source pricing data, price overrides, price adjustments).	No relevant exceptions noted.
Out-of-tolerance prices are reviewed using Bloomberg. If the difference is more than a predetermined threshold, a price challenge is submitted to GPS by the portfolio administration groups or centralized processing unit. Supervisory personnel review the resolution of price tolerance.	Inspected a selection of pricing exception reports for evidence of supervisory review of significant price movements and rejected or out-of-tolerance prices.	For two out of 210 funds selected for testing, out-of-tolerance prices were not appropriately researched. MANAGEMENT RESPONSE The above funds are serviced by Investor Services Canada. Management acknowledges that a second source verification on variances over 30% was not performed on this client's funds. Management has reinforced with the appropriate staff the importance to adhere to the procedure on price tolerance verification.

Control Objective 8

Controls provide reasonable assurance that securities are valued completely and in accordance with client instructions.

STATE STREET CONTROLS	PwC TESTS	PwC TEST RESULTS
MONEY MARKET PRICING In Ireland and the U.S., portfolio administration groups generate periodic money market pricing comparison reports.	Ireland and U.S. – Observed the periodic pricing of Money Market funds using actual prices for confirmation that pricing via amortized cost approximates market value.	No relevant exceptions noted.
Money market funds are recorded on MCH at amortized cost. Periodically, in accordance with client instruction, the portfolio administration groups will obtain market prices, where available, or use alternative pricing methods as authorized by the client. The fund's Net Asset Value using the market prices is calculated using a database or MCH functionality and compared to the NAV at amortized cost to determine whether amortized cost approximates market value (i.e., within one-half of 1%). The report comparing amortized cost to market value is disseminated to the client for their review.	Ireland and U.S. – Inspected a selection of amortized cost to market value comparison reports for evidence of preparation and dissemination to the client.	No relevant exceptions noted.
