*Assumed allocation from Prop 56 and State General Funds would total \$40,000,000. The reduction in State General Fund backfill funding from 2019-2020 was not known prior to award issuance, and total award issued in 2023-2024 was higher than total resources available.

¹ Per the agreement between UC and PHC, \$1,500,000 is paid annually to PHC to manage and administer the CalMedForce program annually. Overpayment from prior years is tracked and \$94,157.62 has been used in 2023-2024 for management and administration costs.

² Funds allocated to PHC for payment to grant recipients. Payments are made upon approval of required reports, over a three or four-year contract depending on specialty.

³ Funds claimed by UC award recipients from the November 2025 State Controller's Office report.

⁴ A few programs lost eligibility (no longer accredited) and some programs reduced their award amount (changed from expanding program to existing program) in 2021-2022 and funds were rolled over into 2023-2024 to increase the available funding for awardees.

⁵ Claim amount submitted for processing to the State Controller's Office and pending as of November 2025.

⁶ Total amount once pending claims submitted to the State Controller's Office are processed and paid.

⁷ Total committed funds once funds submitted to the State Controller's Office are processed and paid.

⁸ Prop 56 funds are annually and continuously appropriated, and adjustments will be made in the subsequent years to account for deficit from the previous years.
